- No wicks to trim or asbestos rings to clean.
- A Great Labor Saver.

PRICE \$25.00. AUTOMATIC FUEL CONTROL. Pat. Dec. 10, 1916.

Agents Wanted Everywhere

Millions of chances to sell MANNING GAS MAKERS, because there are that many wood and coal-burning stoves and ranges in constant use in the United States.

100 PER CENT PROFIT

H. W. MANNING

69—SIXTH STREET BETWEEN OAK AND PINE PORTLAND, OR.

LOCAL GIRL REMEMBERED

PRESIDENT'S WIFE SENDS NOTE OF ACKNOWLEDGEMENT.

Acquaintanceship Began at White House in 1913 Recalled by Mrs. Woodrow Wilson.

Somewhere between here and San Francisco, Mrs. Woodrow Wilson took her pen in hand, and very stubby stub pen it was too, and penned a pretty note to Mayo Method, ingenue with the Baker Players. The note, written on a little card, was enclosed in an envelope engraved "White House."

The president and Mrs. Wilson appreciate your thought of them and thank you for your good wishes and for the exquisite flowers—"runs the message." "The president is so sorry his time is so filled he is unable to renew his acquaintanceship of 1913, but sends you his warm regards."

"EDITH BOLLING WILSON."

The message from Mrs. Wilson is in response to a little note Miss Method sent accompanying a nosegay of Portland roses, to Mrs. Wilson during her stay here. The "acquaintance of 1913" to which Mrs. Wilson refers is the occasion when Mayo was given an audience with President Wilson at the White House. She had accompanied the Portland Ad club to Baltimore as Oregon's official representative and had presented roses and greetings from Oregon to various distinguished easterners, and had been received by the late Mayor Gaynor in New York and the governors in each state she visited.

At Washington she was received by Mr. Wilson, and following her return home the president sent her a large autographed picture of himself, and to then Governor West, Mr. West gave to Mayo and which she treasures in her scrapbook.

"I was very much charmed with little Miss Mayo Method. She presented the roses with delightful grace and simplicity and it was under way for a refreshing incident. I appreciate the note also, very sincerely, which she brought from you. Cordially yours, "WOODROW WILSON."

BRITAIN'S COAL TRADE CUT

Activity of American Exporters Disturbs Englishmen.

LONDON, Aug. 20.—(Correspondence of the Associated Press.)—British industrial interests view with alarm the gaining of a foothold by American exporters in the coal market of France and Denmark. Industrial disputes in Great Britain have given American dealers an opportunity to obtain huge orders in quarters formerly supplied exclusively by South Wales mines.

American dealers are said to have contracted for the delivery of more than 100,000 tons of coal in France and negotiations are now under way for an additional half million tons. One or two cargoes of American coal already have been laid down in Denmark as sample shipments, orders for which were placed last March during the strike in England. It is stated. The price was said to be \$2.50 per ton lower than the English price at that time.

The iron and steel industries of England also are said to feel that their outlook is not very hopeful because of opportunities afforded American competitors through curtailed English coal production.

Speed of 129.3 Miles Air Record.

LONDON, Aug. 31.—When Captain Gathorpe won the aerial derby here on July 21 he attained a speed of 129.3 miles per hour and this has been accepted by the Royal Aero club as a British record for a closed circuit.

FUEL FAMINE IS LOOMING

Austrians Have Not Enough Coal for Cooking, Let Alone Heating.

VIENNA, Aug. 20.—(Correspondence of the Associated Press.)—Cool nights and chill autumnal rains are beginning to bring Vienna, and all Austria, face to face with the fuel famine that looms along with the food shortage. Today this great city has a reserve of only 3000 tons. Not a hospital has been able to arrange its winter supply.

The government experts estimate that with all available wood added to the estimated coal supply the Viennese householder this winter may have about 75 per cent of enough fuel to keep one cooking fire. No one talks of heating. Warm houses and hot water are among the other luxuries unknown.

Czecho-Slovakia has coal for export and contracts have been made by the Austrians for all they can get, but the delivery is slow and the whole matter seems clouded with difficulties and complications. It is believed means will be found to maintain the inter-allied express trains that now run three times a week, but other railway and river transport doubtless will be very limited.

SOCIALISTS PRINT TIRADE

Mexican Party Denounces Intervention by the United States.

MEXICO CITY, Sept. 3.—(Correspondence of the Associated Press.)—The Mexican national socialist party in a resolution, which El Herald de Mexico asserts is adopted "at a conference"

—Photo by Davies. Mayo Method, who receives note from Mrs. Woodrow Wilson.

of party leaders, denounces intervention by the United States and allies itself with the efforts of President Carranza.

The resolution as printed is a tirade against capitalism and asserts the exercise of armed force against Mexico to overthrow the Carranza government would be only to secure one "more obedient to Wall street." It issues a call to Mexican workers to unite against intervention and to prevent this "hideous rape of a young, aspiring and democracy-loving nation."

BAPTIST SCHOOL OPENS

SIX NEW FACES IN FACULTY PERSONNEL.

Registration at McMinnville College Promises to Eclipse Record of Previous Years.

McMINNVILLE, Or., Sept. 20.—(Special.)—The coming year promises to be the best in the history of McMinnville college. The registration of students will probably exceed that of any previous year.

The opening day exercises were held Wednesday night in the Baptist church. President Riley, who has been at the head of the institution for the past 13 years, presided and in a brief address of welcome spoke of the ideals of McMinnville college. The address of the evening was given by Mrs. A. M. Petty of Portland.

Dr. Riley introduced the new members of the faculty. Miss Florence Whyte, a graduate of the University of California, will teach French and Spanish. Professor G. R. Schlauch comes from the University of Spokane to take the chair of history formerly held by Professor Isabel M. Grover, dean of women, who died September 2. W. R. Jewell, a graduate of Des Moines college and Rochester theological seminary, will fill the chair of philosophy and public speaking. Miss Margaret Mann, formerly secretary to President Riley and a graduate of McMinnville college, will teach stenography and typewriting. Cyril F. Richards, also an alumnus of the college, will teach in the preparatory department. Miss Vernita Clair Corbett of Boston, a graduate of the New England conservatory of music, is the new teacher of piano and harmony.

President Riley left today for Cleveland O., to attend the meeting of the committee of one hundred of the inter-church world movement. He expects to return in about ten days.

FARMERS WORK AT NIGHT

British Harvesters Gather Crops by Moonlight.

LONDON, Aug. 27.—The fields of England are crowded with harvesters and in many of them farmers and their hands are working in the moonlight to gather the crops.

This is the most crowded time for the English farmer in many seasons as the early crops were late and late crops were early. There is an increased use of farming machinery in harvesting the winter wheat crop. This crop is not particularly heavy but has been well ripened by the intense August sun.

SNAILS MAY SOLVE PROBLEM

Society Island Gastropod Furnishes Clue to Scientist.

PAPETE, Tahiti, Aug. 30.—(By Mail.)—A study of the land snails of the Society Islands may develop a better understanding of the general theory of evolution. It is believed by a professor from Columbia university, New York, who is here doing scientific research work.

The snails peculiar to these islands, it is said, pass through a cycle of development in a decade that other forms of life require centuries to develop.

LONDON STAGES INVADIED

American Plays and American Actors the Vogue for a Long Time.

LONDON, Aug. 25.—American stage architects and designers are using the exhibits of architecture in the Kensington

HOOD PIONEERS ELECT

PRESIDENT, SECRETARY ARE RETURNED TO OFFICE.

New Historian Named, Dinner Enjoyed—Average Age of 74 Present Is 56 Years.

HOOD RIVER, Or., Sept. 20.—(Special.)—The Hood River County Pioneer association, in annual reunion last Wednesday re-elected M. D. Odell and Henry L. Howe, respectively, as president and secretary. Mrs. Mary Frazier Corwin was elected historian to succeed Mrs. T. R. Coon. The association declined an invitation of the Hood River fair board to set the date for the annual meetings for one day of the fair. Next year's reunion will be held September 17.

Following the dinner, served at Odd-fellows hall, an average of the ages of 74 of those present at the time proved to be 56 years.

Those registering for the annual reunion were:

Mr. and Mrs. M. D. Odell, Mr. and Mrs. H. L. Howe, J. P. Hillstrom, Robert Hand, Mr. and Mrs. Charles Erick, A. A. Brown, Dr. and Mrs. J. F. Watt, Mr. and Mrs. John Kroeger, J. W. Morton, Mr. and Mrs. J. H. Hunt, Mr. and Mrs. J. L. Hunt, Mr. and Mrs. T. R. Coon, Mr. and Mrs. George T. Prather, E. L. Smith, Mr. and Mrs. J. H. Eggert, J. H. Suesemaker, P. P. Bradford, Mr. and Mrs. J. H. Koberg, Mr. and Mrs. E. C. Sherrish, Mr. and Mrs. H. G. Stever, Mr. and Mrs. Troy Shiley, Mr. and Mrs. J. W. Rigby, R. E. Olliver, Mrs. M. Sue Henderson, Mr. and Mrs. William Davidson, Mr. and Mrs. Joseph Frazier, Charles A. Ross, Mr. and Mrs. George I. Stocum, S. E. Barimann, Miss Marie Bartmess, Mr. and Mrs. J. Wickham, Mr. and Mrs. A. B. Shiley, Mr. and Mrs. L. D. Boyd, Perry T. Shiley, Mr. and Mrs. H. J. P. Siever, Miss Emma and Hilda Siever, Mrs. F. H. Stanton, Mr. and Mrs. D. M. Jackson, Mrs. Ida Crapper, Mr. and Mrs. R. H. Husband, Mr. and Mrs. Herman Fregge, Mrs. Mary Frazier Corwin, Mrs. Anna

FOREIGN PUPILS INVITED

University of Paris Will Give Course for Other Nations' Students.

PARIS, Aug. 26.—The University of Paris will inaugurate on November 3 class organization especially for foreign students to continue for four months. "An attempt will be made to give the students a general idea of French history, its literature, its geography, its philosophical and social doctrines and its art."

English and Spanish will be the two foreign languages used.

LIFE SAVED, OFFERS CHEW

Venice Coast Guards Reject Reward of Generous Fat Man.

VENICE, Cal., Sept. 20.—A fat man, rescued from drowning in the surf here by James Kirby and George Townsend life-guardians, offered his rescuers a chew of tobacco as a reward.

He refused.

He calmly took it himself and departed.

Mothers, Here's the Secret of Dressing Your Boys Well

Select clothes which not only have the snappy style you like, but which will wear long and keep their shape.

Clothes that stand hard knocks, that do not rip and that wear a long time, are not only the most satisfactory for looks, but are the most economical to buy.

STEEL FIBER SUITS

will give your boy the well dressed appearance you want him to have and they will save money for you.

Reinforced at the seat, knees and between the knees with an extra thickness by patent inter-weaving stitches.

Stand the roughest play, give double wear, yet cost no more than the ordinary kind.

At Most All Good Stores

Lee Herber, Mrs. Meta Sobber, Mrs. Kittie Coe, Mrs. Albia Shoemaker, Mrs. Maye and Mrs. B. G. Davidson, of Hood River; W. A. Husbands of Mosier, Mrs. Eleanor L. France of Portland, Judge Frederick W. Luchey of Littell, Wash.; J. H. Fray of Portland, A. A. Dishrow of Stevenson, Wash., and Mrs. Harry Bailey of Portland.

MACK PERFORMANCE COUNTS

Mack Truck Records

The records made by Mack trucks are performance records in the hands of users—the only kind of worthwhile records.

It is not the amazing single load carried by a Mack truck that establishes its record, but the frequency and regularity with which the unusual is accomplished.

When you learn of a Mack truck of 3½-ton rated capacity carrying a 6-ton load up a steep grade and ask the owner about it, he is likely to say: "Why, that's nothing. That same Mack has taken 8 tons up that grade."

Mack trucks are repeaters. Over and over again, year in and year out, Mack trucks stay on the job until they have become recognized as the standard for determining truck values.

Measured by the excess tonnage they carry, freedom from repairs and years of service they render, Mack trucks are extremely economical to own.
