## FURTHER ADVANCE IN OREGON HOP MARKET

Lot of 60 Bales at Silverton Brings 65 Cents.

### GROWERS SLOW SELLERS

As High as 73 Cents Is Bid for Fuggles With Supply Nearly Exhausted-Picking Returns Poor.

The hop market has had a further adstrong and dealers all have orders, but few growers are ready to sell now. Two lots at Gervais aggregating 50 bules were bought at 64 cents, and the Bowen crop of 60 bales at Silverton went at 65 cents. This latter srice is now being freely offered.

The California market is in much the vancing market. A little business was re-ported in the Mendocino section at 63% cents. The Washington market is quiet with very few hops left to sell,

Oregon fuggles are practically cleaned up, only a few small lots remaining in the val-ley. As high as 73 cents was bid for the Dealers see no reason, from the picking returns coming in, to change their estimate of the crop. Not to exceed 35,000 bales is looked for in this state.

TARGE INCREASE IN BUTTER SUPPLY Carloads Are Received From Colorado and British Columbia.

The butter supply was increased by the mrrival of a car from British Columbia and another car from Colorado. Good quality Oregon butter was scarce and firm, but with the lower grades plentiful and also in view of the heavy receipts, dealers were disposed to shade prices on the inferior scores in order to move stocks. Demand, however, was lacking, as practically every one was liberally supplied. Trading stocks were increased to 245,548 pounds. Storage holdings were reduced 534 pounds. Re-Pounds.

"A scarcity of the finer butter was very noticeable during the week just closed, very little 93 and 94-score butter being offered. Offerings of under-grades were very liberal and had a somewhat depressing effect on the butter market in general. The demand of the government the last few weeks is largely responsible for the shortage of fancy butter on the wholesale market at San Francisco. Prices advanced ½ cent on 91-score butter at Portland and 1½ cents at 92-score at San Francisco during the week. UNSETTLED WEEK IN STOCK MARKET Strike of Workers in Steel Industry Para-

mount Influence in Speculation, NEW YORK, Sept. 20 .- Declaration of the sei strike, effective Monday, was the parmount influence of a very unsettled week in the stock market. There were occasional motors and other speculative issues of less definite description, but those movement attracted little attention. Respecting the disturbed labor situation, there was a feeling yet be averted, although surface indications at the week end oftered little hope for it. In the trade the Impending strike caused widespread regret, the more so because large contracts for fabricated steel and iron were in process of final negotiation and some mills were operating almost ta capacity produc-

Domestic and foreign money markets presented striking contrasts, time funds for home use showing an easier tone, while exchange continued to move more unfavorably against France, Italy, Germany and Austria. The investment situation indicated marked improvement, this being especially noticeable in the great strength and activity of liberty and victory bonds.

Be a Coupon-Clipp

THE coupon clipper brings a feeling of independence and self reliance. He knows that every so often he can go to his safe deposit box, take out the Government and Municipal bonds which have been so safely placed there, and clip the interest coupons from his bonds. It is so easy and so sure-so safe.

A Government or Municipal Bond is just like so much money in the bank, but with this added advantage-you get a very profitable rate of interest upon your bonds, and idle money in the bank doesn't bring anything.

If you want to figure it out for yourself you will find that \$1000 invested in Government or Municipal Bonds drawing 6%, and the interest invested in the same kind of securities will, at the expiration of 20 years, amount to \$3200. Be a coupon clipper.

Farmers Would Hold Grain.

CHICAGO, Sept. 20.—Uneasiness over the threatened steel strike and other disturbing industrial conditions have done much to force down the corn market this week, notwithstanding a farmers' movement to hold back grain and livestock so as to obtain higher prices. New crop deliveries had fallent to the lowest prices yet this season, with bears putting all the emphasis possible on an to the lowest prices yet this season, with bears putting all the emphasis possible on the fact that values were still far above a pre-war basis when unnouncements appeared that Illineis and Indiana farmers' organizations proposed to fight for an upture in the value of rural commodities. For a short time uptures did ensue, but later the attention of traders focused more and more on the possible injurious business results of the steel sirike. YELLOW MEXICANS DECRIED Marriage of Women to Chinese Is Rousing Indignation.

EL PASO, Tex.-Agitation against the marrying of Chinese men and Mexican women is spreading in Sonora, Chi-huahua and other states of Mexico. This has long been a source of much ill-feeling against the Chinese, as many have married Mexican women in the north. Villa gave this as his reason for killing many Chinese at the time of his campaign in 1917, and was cred-ited with saying the Chinese were trying to make a "yellow race" of his
