American-bred polo pony is to be given its chance, and no longer need our players pay all kinds of money up to \$10,000 each for English-bred stallions, mares and playing mounts won its opening game today, 37 to 0. of superlative quality. For the management of the National Horse show, that opens November 17 in Madison Square Garden, have asked the newlyformed Polo Pony Association America to co-operate with them in making the polo classes something a long way superior to anything hitherto seen in this country.

This is very important, because if the opportunity is selzed and developed, players can obtain from bread-

ers in this country the very best polo stock in the world. There were exhibited at the Mead-ow Brook Polo Pony snow some mag-

nificent stallions, mares and playing mounts, and if Skiddy von Stade and Deversaux Milburn will again put their shoulders to the wheel and dutheir shoulders to the wheel and opposed the great game will boom as never before in its history on this continent.

Already John E. Madden has offered two handsome cups for the best stallion and the best mare, and the national management stand ready to offer other specials and a champion ship that shall rank as a high-water mark for many years to come. The splendid polo pony stock is within striking distance of New York, and lovers of the game may anticipate a veritable treat when it duly enters
