

### PRIZED STATUE IS FOUND IN EUGENE

### Kidnaped Iron Woman Restored to O. A. C. Campus.

### OREGON YOUTH INVOLVED

### Underclassman to Be Tried by Student Council for Stealing "Lady of Fountain."

UNIVERSITY OF OREGON, Eugene, Or., Nov. 1.—(Special.)—The iron woman statue stolen Thursday night from the Oregon Agricultural college campus was found late last night buried in a ditch in the south end of Eugene. Eugene high school students and one university underclassman were responsible for the bringing of the statue from the Corvallis campus to Eugene. It was discovered last night by senior men of the University of Oregon student council.

The first news that the statue known as "The Lady of the Fountain" had been stolen was brought to the Oregon campus by the president of the student body and the president of the vigilance committee of Oregon Agricultural college. University seniors started an investigation at once. An automobile filled with Eugene high school students has been seen in Corvallis Thursday. These boys confessed and disclosed the hiding place of the statue.

The university underclassman will be brought before the university student council at once for punishment.

The statue was returned to the Oregon Agricultural college representatives and a pact drawn up by the two institutions in which the students of each agreed not to molest the other's traditions.

### "IRON WOMAN" IS RETURNED

### University and O. A. C. Agree to Discourage Vandalism.

OREGON AGRICULTURAL COLLEGE, Corvallis, Nov. 1.—(Special.)—The "lady fountain" which was stolen from the campus by students from the university of Oregon and of the Eugene high school night before last was returned today after having been located in Eugene at 10 o'clock last night. A committee of the student body went to Eugene yesterday to confer with university officials. Investigation proved that the acts were done without sanction or knowledge of the student body of the university, the student council of which met the committee and feared out the guilty persons. Five or six men were implicated in the affair.

The "iron woman" was found buried in a ditch about a mile south of Eugene and brought back to Corvallis today in good condition.

Signed resolutions were exchanged last night by the representatives of each student body, agreeing that neither institution should countenance acts of vandalism.

University representatives said the incident was not endorsed by student sentiment and the representatives of Oregon Agricultural college expressed appreciation.

It was agreed that each year official attention should be called to the past just entered into.

### UNIFORMS MUST CHANGE

### MAYOR OBJECTS TO GARB OF PRIVATE OPERATIVES.

### Complaints From Property Owners Cause Conference at Which Agency is Warned.

Complete change of uniforms used by the members of the Pacific Investigating bureau, an organization which has existed in Portland for about two months, so that employees of this organization will not be mistaken for the members of the Portland police bureau, was ordered yesterday by Mayor Baker at a conference with G. G. Chambers, president and manager of the concern and his attorneys.

In addition to a change in uniform, Mayor Baker also demanded that before allowing the wearing of the uniforms by the company, that they receive the approval of officials of the police bureau.

Some trouble has resulted from the operation of the men employed by the Pacific Investigating bureau, according to the mayor. He says that solicitors for the company have canvassed residential districts and informed property owners that they could expect no protection from the police, but that for \$3 a month their home would be watched by the operatives of the company.

Mr. Chambers assured the mayor yesterday that the company would cooperate with the city, and although some men employed by him might have taken advantage of their opportunity, he was willing to deposit bond to guarantee faithful, honest service.

### LABOR OFFICIALS QUIT

### HARRY ANDERSON AND MR. STACK LEAVE LABOR COUNCIL.

### Resignation of President and Secretary Expected to Precipitate Lively Contest.

Harry Anderson, president, and E. J. Stack, secretary of the Central Labor council of Portland and vicinity tendered their resignations to the members of that body Thursday night just before the adjournment of the meeting. Nominations for the positions made vacant will be made at the regular meeting of the council next Thursday night and the election will be held a week later. No reason was given for the resignation of President Anderson, who has been executive head of the organization for more than three years and is an indefatigable worker in the cause of labor. When elected the last time there was a vigorous contest made against his election by the holding of the principles of the American Federation of Labor. It is anticipated that the vacancies occurring in both the presi-

dency and secretaryship at the same time will precipitate another lively contest for control between the opposing elements in union labor organizations.

Secretary Stack resigned to accept a position with the war loan board of the federal reserve bank at San Francisco, in which he will travel throughout the states of the district for two months in the campaign for sale of war savings stamps. In tendering his resignation, Mr. Stack expressed the hope that he would be able again to take up the cause of organized labor here soon after the first of the new year.

### PORTLAND BUSINESS MAN WHO WAS BURIED YESTERDAY.

William Allen Wallis. Funeral services for the late William Allen Wallis, Portland business man, who died at St. Vincent's hospital Wednesday, October 29, were held yesterday at the castle hall of Ivanhoe lodge No. 1, Knights of Pythias, of which organization he was a chancellor commander, at 2 o'clock P. M.

Mr. Wallis was born February 27, 1867, near Goldendale, Wash. He was engaged in the mercantile business successively at Rufus, Or.; Moro, Or.; and later in this city at 1840 Sandy boulevard. He was also for a time connected with the Hazelwood creamery in this city.

He leaves a mother, Mrs. Rufus C. Wallis, Rufus, Or.; brothers, R. A. Wallis, Portland, Or.; Charles Wallis, Rufus, Or.; Harvey Wallis, Willamette, Or.; sisters, Mrs. Ida M. Carroll, Yakima, Wash.; Mrs. P. M. French, British Columbia; and a member of the Artisans.

### WOMAN IS WRECK VICTIM

### Mrs. Lee Wills Injured When Auto Is Overturned.

Mrs. Lee Wills, 48, living on rural route A, Portland, is in the Good Samaritan hospital as the result of an auto accident on the Sandy road late Friday when an automobile in which she was riding was overturned. She was reported to be suffering from a fractured shoulder and rib. S. J. McKown, 1335 Clinton street, fruit inspector, sustained a fracture of the wrist last Friday while branking an automobile. He was treated at the Good Samaritan hospital.

### Umatilla Team to Try Again.

UMATILLA, Or., Nov. 1.—(Special.)—The boys of the west end of Umatilla county are not discouraged over their recent defeat in the stock judging contest, held at Hermiston, during the Hog and Dairy show, but have organized a new team that will take up the work in earnest for the new school year. Nine boys have joined the dairy herd record project work and stock judging contest. The new leader of the late organization will probably be Roger Yerkes, an eighth-grade pupil of the Umatilla school, who scored second highest in the recent contest. The boys will keep an accurate account of the records of two dairy cows for six months and in addition will make careful tests of the milk three times a month.

## TREAT YOURSELF With The Wonderful Health Restorer

# VIOLET RAY

You can have Bodily Vigor, Success-Attaining Energy, Attractive, Healthful Beauty

All at practically no cost—The great benefits of the Violet Ray treatments heretofore only procurable at big expense from physicians and beauty specialists are now available in your own home. Look over list of treatments below. Send for particulars.

**How Violet Ray Benefits**  
Electricity from your light socket is transformed into health and beauty-giving Violet Ray—powerfully effective, yet gentle, soothing, perfectly safe. Voltage is raised from ordinary lighting current to thousands of volts, giving tremendous penetrating force. The irresistible, revitalizing power of RenuLife Violet Ray are carried at once to every nerve cell, fibre and part of body. Blood is enriched and purified by a flood of oxygen, giving added vitality and strength. Assimilation and digestion improved—functions restored to normal—extra supply of fresh blood quickly brought to area treated, removing congestion and supplying nourishment. While relieving pains and aches, the manifest results of disorders, it removes the deep-seated cause; combines the benefits of electricity, vibration, exercise, stimulation and oxidation.

**Painless Electricity**  
Science has modified electricity that the weakest may stand its force without fear or pain. Every tissue and fibre is saturated, patient experiencing only a sensation of relief, as if standing in a ray of sunshine. Relief can be given in one or more treatments. Often cures are accomplished in that time. It is positive and certain in action. If you value your health, and want to keep or restore your good looks and gain vitality, throw away medicine bottles—take this sensible, scientific means. Violet Rays work with nature. Every day's dose lay makes relief more difficult. Send for Booklet, "Health via Violet Ray."

## Where Dairying Is a Recognized Industry

The geographies of today proclaim dairying one of Oregon's leading industries.

The world-wide market which has been created for evaporated milk has made this possible.

Milk is no longer a perishable product, requiring immediate consumption near point of production. No longer is the dairyman's prosperity limited to the local demand.

The manufacture of evaporated milk makes it possible to preserve the goodness and purity of fresh milk until the can is opened. It has made it possible to market 75% of Oregon Milk outside of this state.

It has taken 20 years of persistent effort and necessitated the building of an efficient organization to develop this extensive market.

Twenty years of conscientious, persistent effort has created such an extensive domestic and foreign demand for Carnation that the market for the dairyman's product—milk—is practically unlimited.

Most important of all, dairying, formerly a means of livelihood, has become a vital, vigorous, basic industry, bringing prosperity to the state as well as the dairying communities.
