### THE TRUTH ABOUT PAINLESS DENTIST

Many people today stand in deadly fear of the dentist. So many people have been misled by the promises of careless and incompetent dentists that they really believe such a thing does not exist.

If you have been tortured by a dentist who does not believe in painless dentistry or one who has made it unnecessarily hard for you because of his rough way of working, then we have a message for you.

### DENTISTRY WITHOUT THE PAIN

CAN BE ACCOMPLISHED TODAY

Any dentist who is really competent can do it if he only will, but most of them are too careless or too busy to do it for you. In this office the foundation of our reputation rests upon the fact that we really perform dental operations without pain and furthermore when you come here they will be so performed for YOU.

EXTRACTING is the bugbear of dentistry, but it can and will be done for you and without pain.

The pulps, which contain the living nerves of teeth can be removed at one sitting and without the slightest pain; small cavities which are often the most painful can be prepared and filled without pain.

This office is conducted on a strictly legitimate and business basis. The prices are exactly as advertised and are exactly the same to everyone. Particular care is taken in making examinations and giving estimates so that once the work is decided on and the price set, it is not necessary to be continually changing the work and the price. No charge for examination and consultation.
