

MOVEMENT TO LIST ALIENS IN W. W. FOILED

Deportation of Reds Made Almost Impossible.

NEW LEGISLATION URGED

Membership in I. W. W. Not Sufficient for Expulsion From U. S., Says Department of Labor.

SEATTLE, Wash., Nov. 22.—Henry M. White, immigration commissioner for the district of Washington, received today from Assistant Secretary of Labor Post a telegram specifically directing him to authorize him to bring deportation proceedings against the alien I. W. W. arrested at Centralia and declaring again that the department of labor holds, as it has always held, that membership in the I. W. W. does not in itself constitute cause for deportation, and that specific acts against the government must be proved to justify the issuance of deportation warrants.

Mr. White immediately notified I. L. Thompson, state attorney-general, of the telegram received. Mr. Post said that Mr. Thompson was telegraphed Senator Miles Polk at Olympia, and that specific acts against the government must be proved to justify the issuance of deportation warrants.

Mr. White immediately notified I. L. Thompson, state attorney-general, of the telegram received. Mr. Post said that Mr. Thompson was telegraphed Senator Miles Polk at Olympia, and that specific acts against the government must be proved to justify the issuance of deportation warrants.

Immediately after the Centralia murders Mr. White, without waiting for instructions from his department, went to Centralia for the purpose of investigating the situation and taking steps to deport aliens arrested against whom criminal charges were not preferred.

At the same time he telegraphed the labor department with instructions urging that action be taken. His telegram from Assistant Secretary Post was in answer to these telegrams. In his telegram Mr. Post said: "Answering yours of the 13th and 15th: The department adheres to its previous decision, that under the I. W. W. constitution mere membership in that organization does not bring aliens within the scope of the act of October, 1918, but if it is shown that any alien, whether a member of said organization or not, has individually or as one of a group, conspired or done anything, or conspired with others to do anything bringing him within the scope of said statute, arrest warrant will issue, but warrants will not issue without the usual prima facie proof showing such advocating, acting or conspiring. Telegraphic warrants will issue when case is emergent."

Many Arrested, Few Held. Mr. White said today that he and his investigators at Centralia had examined 14 of the alien I. W. W. arrested there, but that only one was held, under the labor department's instructions, only one of the lot. A man now in custody under deportation complaint as a result of a prima facie showing of overt acts against the government.

The department's instructions plainly prevent me from proceeding against the aliens arrested in Centralia or elsewhere unless overt acts can be shown," said Mr. White, "unless the department sends further instruction or the law is changed. It is my duty to follow the law and to follow the instructions of the department. I filed charges against every known and active I. W. W. my men could discover, and sought to have them deported, but at that time the department held as it does now, that membership in the I. W. W. in itself was not a ground for deportation."

At Olympia this morning Attorney General Thompson said he considered the action of the labor department as a "distinct change" from the state legal department to clean out the I. W. W. colony in Centralia and similar colonies elsewhere.

FAIR FACES NEW PLAINT

\$3000 Damages Asked From Sherman Management. The second complaint in two days filed against R. L. Schee and A. L. Clark, convention managers of the Interstate fair at Prineville and the Sherman county fair at Moro, was received yesterday in the county clerk's office. The plaintiff is the Arnold Amusement company, charging that Schee violated a contract entered into in September when he agreed that the Arnold people should have 40 per cent of the proceeds of their shows and 50 per cent of the sum from all concessions. After the company had expended \$1020.50 for transportation to Prineville it was found that another concern had been permitted to operate concessions. Three thousand dollars' damages is now asked.

RABBIT DRIVE NETS 1500

PASCO CITIZENS CONVERT PESTS INTO PROFITS. 500 Men and Boys Round Up Animals; Receipts to Be Placed in School Fund.

SEATTLE, Wash., Nov. 22.—(Special.)—When the pestiferous jack-rabbit became a nuisance to Pasco ranchers to the extent of thousands of dollars' losses, it was decided that he is to pay for his raid on the alfalfa and grain fields. A rabbit drive was arranged and last Sunday, November 16, hundreds of Pasco citizens and neighboring ranchers organized to hunt down the fleet-footed little rascal. The department of agriculture and was in charge of Leo K. Pouch, United States agricultural representative at Pullman. The drive netted between 1500 and 2000 rabbits, which were shipped to the markets of the northwestern cities. The furs derived from their skins being placed in the Pasco school fund.

Rabbits have been ruining the Pasco alfalfa fields, in one case destroying about 100 tons of alfalfa in one field, the damage in this one instance being estimated at about \$4000. Wheat fields also have suffered from the pest, and in many cases, they have been grazed out of existence. The drive started at 10 o'clock Sunday morning, the drivers being spread over a distance of about 20 miles. No firearms were permitted, as it was feared that someone might be hurt. The participants began marching towards a huge corral constructed four miles out of Pasco, and here they were to be held until a small entrance for the rabbits, but did not permit their escape, the drivers formed a fan-shape, gradually closing the distance between men as it approached the corral. As the drivers neared the corral, the rabbits fled through the narrow gate into the corral in great herds. When practically all were penned in, the gates were closed and preparations made for the killing. Each of the drivers used a club in the killing. As the rabbits were piled up, nearly 4000, were placed in the school fund of Pasco. The principal market for the rabbits is Portland, where it is estimated that nearly 500 rabbits are sold in the markets daily, although many were shipped to Seattle and Spokane.

NO OPTICIAN EVER OFFERS YOU A SUBSTITUTE FOR KRYPTOK GLASSES without a reason.

You don't have to buy many pairs of GOOD glasses in a lifetime, because really GOOD glasses last a long time. So, isn't it a strange thing how some people can be talked into buying glasses that "look" like our Kryptok glasses just because they cost a very little less?

They forget that the chief quality in a pair of glasses is accuracy, and that ACCURACY DOESN'T SHOW ON THE SURFACE.

That's why some opticians succeed in getting a little extra profit on the so-called "just-as-good" kind. Don't let glib salesmanship deceive you. Insist on getting genuine KRYPTOKS—the THOMPSON kind. Let accuracy and dependability be your guiding points and you will accept none but KRYPTOKS—the THOMPSON kind.
