

LAST NOTE IS BEING WRITTEN TO MEXICO

Embassy in Hourly Touch With State Department.

CASES ARE SEPARATED

William Wallace Reported Still Alive in Spite of Rumors He Was Killed by Mexicans.

WASHINGTON, Nov. 29.—The Mexican situation marked time today while the government continued to gather further information on the Jenkins case and the murder of William T. Wallace at Tampico Wednesday.

The Jenkins case and the Wallace case are being treated separately and in no way being connected at present.

The state department already had directed the American embassy in Mexico City to make inquiries of the Carranza government and forward further information of the new phases of the Jenkins case raised in the Mexican note declining to accede to the request for the release of the consular agent.

In the Wallace murder case the government has about all the information considered necessary and the interval is being used in framing the details of a course of action.

This Note May Be Last. A note to Carranza which some officials think will be about the last was being drafted in the state department today and so far as could be learned it had not been forwarded to Mexico City tonight.

The department was in hourly communication with the embassy in Mexico City. Senators and representatives gathering for the reconvening of congress were showing active interest in the course of the situation.

Reports direct from Mexico City discrediting yesterday's border rumors of an uprising with fighting in the streets served to simplify the situation, in that they removed a complicating factor and left the issue a clean-cut one involving only the continued murder and mistreatment of Americans.

There was no outward indication of whether President Wilson would touch on the subject in his message to congress.

SANTIAGO, Chile, Nov. 29.—The Nation today says it has learned from well-informed diplomatic circles that there is a possibility of mediation by the governments in the A. B. C. group.

There is no outward indication of whether President Wilson would touch on the subject in his message to congress.

NEW YORK, Nov. 29.—William Wallace, a vice-president of the Gulf Refining company, who was believed to have been murdered in Tampico, Mexico, is said to be still alive.

LAREDO, Tex., Nov. 29.—The state of Puebla, Mexico, has no intention of trying William O. Jenkins, American consular agent, on a charge of connivance with bandits in connection with his abduction.

Perjury is Charged. The only charge against the consul, who is quoted as having said, is that of perjury in judicial declarations, which is solely within the jurisdiction of the court where the offense is committed.

CALEXICO, Cal., Nov. 29.—The Mexican consul here, Tafarin, today gave out a message purporting to have come from Ambassador Bonillas at Washington.

NOGALES, Ariz., Nov. 29.—A demonstration for General Alvaro Obregon in Mexico City resulted in some street fights between individuals, but no revolt or massed fighting.

WALLACE MAY BE LINN MAN Father at Lebanon Doubts That Son Was Murdered.

LEBANON, Or., Nov. 29.—(Special.)—William Wallace, who is reported to have been murdered by Mexicans near Tampico, Mexico, yesterday, is thought to be William L. Wallace, son of S. O. Wallace of this city.

HASTY ACTION IS OPPOSED Professor Thinks Protectorate Is Only Kind of Intervention.

SAN FRANCISCO, Nov. 29.—Discussion of the United States government's policy toward Mexico during the past nine years and warning that armed intervention should not again be undertaken except as a last resort, were features of a paper read by Professor H. L. Priestly, assistant professor of Mexican history at the University of California, at the convention of the Pacific coast branch of the American Historical Association here today.

No sort of intervention in Mexico except the absolute taking over of the government there under a protectorate is likely to prove successful, in the opinion of Professor Priestly and to do this would necessitate a readjustment of land holding, judicial and educational systems of that country, which would involve tremendously more difficulties than was the case in the Philippines and Cuba, he declared.

The Vera Cruz affair and the Perahin expedition into Mexico to capture Villa were characterized by Professor Priestly as "irritants" which, particularly in the case of William T. Wallace, did more harm than good. They incurred enmity and suspicion, he pointed out, without in any way settling the questions at issue.

In order to accomplish any good in Mexico, in case it were found necessary to intervene or establish a protectorate, the professor expressed the opinion that the United States would have to cooperate with South American countries in handling the situation.

Professor Priestly spent some time in Mexico not long ago and has made a study of the international situation. Election officers of the association resulted as follows: President, L. E. Young, University of Utah; vice-president, R. C. Clelland, Occidental college, Los Angeles; secretary-treasurer, J. J. Van Nostrand, University of California.

The committee will be composed of the officers and the following: R. L. Ashby, Pasadena; A. M. Cleghorn, University of Idaho; E. E. Robinson, Stanford university; and G. F. Trichel, Lowell high school, San Francisco.

Professor Joseph Schafer of the University of Oregon discussed "History and Education for Citizenship in the Schools."

WALLACE IS REPORTED SAFE Twin Falls Woman Gets Definite Word From New York.

TWIN FALLS, Idaho, Nov. 29.—Mrs. E. S. Lewis received a telegram tonight from Harry W. Devoan of New York, stating that he had received definite information that William T. Wallace, whom it was feared might have been the man murdered in Tampico, is safe in the Mexican city.

GOVERNOR CANNOT COME Executive Unable to Attend Arrest-Reward Conference.

SALMON, Or., Nov. 29.—(Special.)—Governor Olcott today received a telegram from Mayor Baker of Portland, inviting the executive to attend a conference in Portland tomorrow to arrange for disposal of the reward offered by the state, city of Portland and private individuals for the capture of the persons responsible for the killing of J. N. Burgess and George Peringer.

Governor Olcott will be unable to attend the session, but will send to Mr. Baker the proclamation issued by the executive at the time the state reward was offered.

Under the law there is no fund from which rewards may be paid, consequently the recommendation of the governor must go before the legislature for approval.

NEW MOONEY DRIVE FUTILE (Continued From First Page.)

propaganda in his behalf, then I beg respectfully, but definitely, to inform your committee that so far as I am concerned the case is closed.

"I cannot think the members of your committee have other than a proper regard for law and order and for the orderly processes of the law. But in my judgment a grave injury is being done labor everywhere when it is made to appear by those who occupy places of leadership that organized labor champions such a heathen and vicious murderer as Thomas J. Mooney."

"Of Mooney's guilt there is, in my mind, no question. I am convinced that he had a part in one of the most atrocious crimes ever perpetrated in the history of our country. Ten persons were killed and 50 maimed by Mooney and his associates who evidently were in sympathy with Germany's agents, who were resorting to every desperate measure to thwart preparation of the American nation for war."

GARFIELD PROMISES TO PROTECT UNIONS

Efforts to Break Labor to Be Fought, He Says.

NEW PAY RESULT WAITED

Government Not to Interfere as Long as State Officials Handle Situation Satisfactorily.

WASHINGTON, Nov. 29.—Developments in the government's efforts to insure an adequate fuel supply for the country awaited tonight the outcome of attempts of soft coal operators to induce miners to return to work on a wage advance of 14 per cent and assurance of federal protection.

Notice of this wage advance suggested by Fuel Administrator Garfield were posted at the mine. Resumption of work that it might prompt was not expected until next week, at the beginning of the second month of the strike, technically called off November 1.

Operators here expected Monday to see many of the miners, in districts not in the central competitive territory back at work.

It was indicated no further steps by national authorities were contemplated while state and local officials handled the situation satisfactorily.

Unions to Be Preserved. Assurance that the government would not tolerate any attempt to destroy trade unions or the principle of collective bargaining on the part of the employing interest was given in "take advantage of the present situation," was given today by Dr. Garfield.

"Report has come to me that the present crisis in the coal industry will be used to break down the labor unions," Dr. Garfield said. "I wish to say that I am as much opposed to an attempt to destroy the principles of collective bargaining and the union of workmen as I am to the effort of labor leaders to keep labor satisfied by a constant boosting of wages, regardless of the public interest, or to the efforts of leaders in the industrial world to boost profits unduly to the hurt of the public."

"Any attempt to complicate the issue by seeking to destroy the union of the mine workers or the principles of collective bargaining will be resented by the public and opposed by me."

Production Being Restored. Official statistics showed production to be approaching 50 per cent of normal at the end of the first month of the strike, as compared with 25 per cent during the first week and 22 per cent the second week. The weekly report of the United States geological survey today showed that 44 8-10 per cent of normal was produced during the third week.

Dr. Garfield also issued today an analysis of the figures on which he based his conclusion for a 14 per cent wage advance. Explaining wherein he differed from Secretary Wilson, he called attention to "the fact that the principle involved is of far greater importance than the figures arrived at."

"The principle applied in arriving at 14 per cent is different in kind and character from that applied in arriving at 21 1/2 per cent and hence any attempt to average the two or to compromise the results is impossible," Dr. Garfield said.

A wage increase of 31.6 per cent, as suggested by Secretary Wilson, would give a total advance since 1914 of 107 1/2 per cent, as compared with a maximum advance of 79 per cent in living costs, he added.

Dr. Garfield pointed out that statistics of the national industrial conference board showed only a 7.5 per cent increase in the cost of living and that on this basis the miners would be entitled to only 3-8-10 per cent wage advance.

On an annual output of 500,000,000 tons, Dr. Garfield said, the additional wage bill would approximate \$38,000,000, with a 12.1 per cent advance of \$107,000,000 with a 14.1 per cent increase, and \$74,000,000 with a 9-8-10 per cent advance.

The average earnings of all mine-workers in 1918 was \$155.56, or \$418 a day worked, Dr. Garfield said. This conclusion was based on information taken directly from the monthly cost reports on which the operators reported to the federal trade commission.

TO RELIEVE CATARRH Wise Treatment Includes Use of a Good Blood Purifier.

The cause of catarrh exists in the blood, and is an impurity that produces an inflammation of, and discharge from, the mucous membranes. It is commonly made worse by sudden changes of weather, indiscretions in the matter of clothing, and by many other things; and it is hazardous to neglect it, because it always affects the general health.

It is a constitutional disease and must have constitutional treatment; this is rational.

Hood's Sarsaparilla purifies the blood, builds up the system, and deserves a fair trial in every case. If a laxative or cathartic is needed, take the gentle Hood's Pills.—Adv.

Baby Blinded from Eczema

"The child's head and face were almost a solid sore. The eyes perfectly blind. Doctor said the worst he had ever seen. One ointment of D. D. D. did wonderful work. A complete cure followed. Thank the merciful Jesus. Almen and women gathered together in a patriotic demonstration."

"Because it was my wartime duty and for other reasons, which I gave at the time, I commended Mooney's sentence from death to life imprisonment. Further clemency is not warranted by anything within my knowledge."

"Very truly yours, WILLIAM D. STEVENS, Governor."

Slightly Warehouse Completed. GRESHAM, Or., Nov. 29.—(Special.)—A. W. Metzger's brick and concrete warehouse adjoining his general merchandise store has been completed and is a slightly addition to Powell street.
