

PRIZES AWARDED TO 52 VERSE WRITERS

Children Get \$300 in Cash and 162 Will Have Passes.

SYBIL BARRETT IS FIRST

James John Student Gets Highest Prize While Everett Davis in Lower Grades Is Winner.

Fifty-two children have among them more than \$300 in cash and merchandise for Christmas, and 162 more will have two passes each to some of the theaters in Portland, as reward for their work in the universal holiday season verse-writing contest.

Between 300 and 400 parents and children were present for the award of prizes at the library. The high school prize of \$50 cash was won by Sybil Barrett, 16, a student of James John. The \$20 prize for the best poem by a pupil of the sixth, seventh and eighth grades went to Everett Davis, 14, of the Woodstock school.

Attorney Talks to Youngsters. Mrs. Ed Palmer, president of the Parent-Teacher association, presided, and W. P. La Roche addressed the children in behalf of Mayor Baker, general chairman of the universal holiday season campaign. Sol Baum, manager of the Universal exchange, greeted the children in behalf of the film company, which has sponsored the campaign jointly with the Greater Portland association.

Jared Wenger, secretary of the Greater Portland association, read the names of the winners and distributed the prizes. These consisted of \$100 in cash and more than \$200 in merchandise orders, given by members of the association. Fifty dollars was the first prize for the high school prize, \$20 for the upper grades and \$20 for the primary grades, with other prizes in merchandise orders ranging from \$20 down to \$10. The first to give 15 cash and merchandise

passes containing valuables has been concealed outside of Spain, the contents to be left to an only daughter and the American relative.

Should the American reply, he later receives a letter from "the chaplain" stating that the prisoner is dead and that a certain sum is required to release the prisoner's baggage, including the mysterious valise. Fortunately when the correspondence reaches this point the "American relative" usually becomes curious and as a result, throughout Spain have a flood of correspondence on the subject.

In other cases, the victim takes the bait without question and parts with his money, or even worse still, goes to the expense of traveling to Spain to pay the required sum to release the valise and claim his share of the contents.

In the latter case the swindler is generally brought to book for the Spanish police are on the lookout and the presence of a stranger looking for lost relatives arouses their suspicions.

Recently an American arrived in Madrid with a certified check to claim his share of a prisoner's estate. The Spanish police put him in prison until he could be convinced that he had been the victim of a clever swindler. It took all the eloquence of an American consul to do this and induce the man to return home.
