COUNCIL IS AGAINST

Resubmission of Measure' to People Sought.

Attend Legislature and Give Aid in Fight

At a special session of the city council yesterday, representatives of the civil service employes of Port land submitted figures which were presumed to show the evil effects of the 6 per cent limitation law. After the meeting, Mayor Baker instructed City Attorney LaRoche to attend the Jegislative assembly to aid in the fight to obtain re-submission of the

Figures Are Submitted. According to the figures submitted y the members of a special committee of the Portland municipal civi service employes, the actual valua-tions in Portland have increased from \$44,146,042 in 1993 to \$312,801,680 in 1920 or approximately seven-fold.

The actual taxes, excepting bonded

Indebtedness and Interest thereon, have increased from \$366,412 in 1913 to \$3,456,459 in 1920 or 9.4 times. Taxes under a hypothetical 6 per cent limitation, which is now imposed, placed into effect in October, 1916, from January 1, 1904, would have yielded \$366,412 for the year of 1903 as compared with \$986,666 in 1920 or

2.7 per cent increase.
Unless the 6 per cent limitation is removed, the city of Portland will be obliged to appeal to the voters each year for a special levy and other tax levying bodies will be handicapped, according to those opposed to the limitation.

Hypothetical Comparison Made. The actual tax for 1929 was \$3,456. 459 as against the hypothetical tax limitation, had it been in effect in 1902, or \$986,566. Under such conditions the tax on property assessed at \$2000 would have been \$22.10 ander the actual tax instead of \$6.40 as quoted under the hypothetical tax

Figures also have been produced to show that the tax limitation results in special levies which cost the taxpayers huge amounts of money. In 1919, elections relating to financial questions caused by the limitations,

restored. For this reason, the council is unanimous in its endeavor to obtain the re-submission of the measure
