Buy Electric Goods From People Who Know!

But ordinary washings—by hand—do not as a rule get the clothes clean. Yet many mechanical washers are so strenuous that, although they do clean—they render serious wear and tear on the clothes.

It needed such a wonderful machine as the Thor to strike the "happy medium." Your finest clothes—or the heaviest fabrics—are slushed, surged—whirled in the smooth maple cylinder—rotated eight times one way—then eight times in reverse—in the foamy hot cleansing suds till they're wonderfully clean. There isn't a step in the process that can possibly harm the most fragile fabrics. Instead of being pulled, twisted, or rubbed—the clothes are "mixed" by the swift, constant action of the six maple "lifts" inside the cylinder. No chance of a single piece being neglected. Every handkerchief, every sheet, every lace camisole, every pair of grimy little rompers, gets an equal share of attention.

Ask us to demonstrate the Thor for you, and tell you about the easy terms.

January has brought with it a return, but in much larger measure, of the enthusiasm experienced in the operation of the Y. W. C. A. department of the Y. W. C. A. The four industrial clubs now organized are made up of girls from Neumann, Blumauer-Frank Drug company, Tri-Bu Biscuit company, Pacific Paper company, Closet & Devera company, Fischner-Mayer company, etc.

Attendance at the regular Tuesday night functions has grown until last Tuesday witnessed a roomful of 80 happy girls, singing and cheering at supper each; Martha Schultz, our out-of-the-others. The greatest hilarity followed when the Bide-a-Wee club staged an amateur performance on the platform in social hall.

Later in the evening each of the four clubs adopted a constitution and by-laws, a portion of which reads: "The purpose of this club shall be to unite members in friendly co-operation, to help one another in all ways possible in home, business and community through fun, fellowship and study, and to make the club a social force in the business center and community for the building up of the kingdom of friendly citizenship."

The central governing group of the industrial department was formed when the executive council of the Y. W. C. A. was organized on November 5. The presidents and vice-presidents of each club form this council, together with additional representatives when a club numbers more than 20 members. The members of this council are: President, Lena Beck; secretary, Isabel Carter; treasurer, Mrs. E. M. Holden; Pledge, Mabel Hillsbeck; Rose Hardt, Minnie Hoos, Mrs. Lola Thompson and Elsie Schneider.

knitting and crocheting, character standards, swimming and gymnasium. The industrial department is offering a course of four lectures in the study of some of the causes for the industrial unrest, to be delivered on January 26, 27, 28 and 29 in one of the parlors of the Portland hotel. These lectures will be given by Dr. M. H. Marvin of Seattle, who is a member of the Oregon Industrial Welfare commission. The afternoon lectures will be held at 2:30 and the evening lectures at 7:30. Reservations may be telephoned to the industrial secretary of the Y. W. C. A.
