........ Explanatory Comment by Professor Fernand Mayence.

ROM the late summer of 1916 until the end Baron von der Lancken, chief of the political department of the German administration in Belgium, signs most of the letters answer to the cardinal's protests. Evidently the Teuton authorities were convinced that the Prussian autocrats at the head of the regime in Belgium were unequal to intellectual combats with the courageous primate. Von der Lancken seldom lost his temper, and although his hypocrisy and alleged "subtlety" were quickly exposed by the cardinal, the baron usually preserved the outward forms of courtesy, which permitted the continuation of the correspondence. Von Bissing, moreover, ceased to be

a factor in the government of Bel gium in November, 1916. His health failed rapidly. During the Christmas according to reports made to him holiday season he was taken to Wiesbaden and given the "cure" treatment.

Seven thousand persons each year are laid away—the burial certificate being marked "Rupture." Why? Because the unfortunate ones had neglected themselves or had been merely taking care of the sign (swelling) of the affliction and paying no attention to the cause. What are you doing? Are you neglecting yourself by wearing a truss, appliance, or whatever name you choose to call it? At best, the truss is only a makeshift—a false prop against a collapsing well—and cannot be expected to act as more than a mere mechanical support. The binding pressure retards blood circulation, thus robbing the weakened muscles of that which they need most—nourishment.

But science has found a way, and every truss sufferer in the land is invited in make a FREE test right in the privacy of their own home. The PLAPAO method is unquestionably the most scientific, logical and successful self-treatment for rupture the world has ever known.
