Humidity is the moisture or aque ous vapor in the atmosphere. The vapor is really an invisible gas. When this vapor becomes visible it is called dew., fog. mist, haze, clouds, rain, snow, hall, etc., according to the size of the drops of water or the method by which the vapor condenses A given space at a given temperature can contain only a definite amount of moisture. When a given space contains all of the moisture it is capable The percentage of moisture in the air to what it would hold if saturated is called the relative humidity. When humidity would be 100 per cent, threequarters saturated, 75 per cent. The icreased humidity has much to de with the effect of the temperature on the individual, which is the reason the subject is so commonly discussed during very hot periods.

The words and music of the French national hymn, "Marseillaise," were omposed on April 24, 1792, by Rouget de Liste, a young French officer of engineers, then stationed at Strassbourg. It was called by him "Le Bank Clerk Walter Waterhouse of Chant de l'Armee du Rhin," but re teers from Marseilles, who entered on the outbreak of the Franco-Ger-
