

JOHNSON'S LEAD IN MONTANA INCREASED

Late Returns Show Other Candidates Far Behind.

WOOD HAS SECOND PLACE

No Effort Made to Tabulate Returns From Democratic Primaries—No Candidate Entered.

HELENA, Mont., April 24.—Returns from the presidential primary held in Montana yesterday came in to the newspaper offices slowly throughout the day and tonight, but the few added figures served only to increase the lead of Senator Hiram Johnson of California over his four republican opponents—Warren G. Harding, General Leonard Wood, Herbert Hoover and Frank O. Lowden. There was no democratic presidential candidate.

There are 51 counties with 1500 precincts in the state. These figures included returns from silver Bow county (Butte) complete, the city of Great Falls, complete, and scattering returns from principal cities of the state. The rural returns were almost negligible.

Johnson Leads Everywhere. Senator Johnson led on the face of the available returns in every county heard from, and General Wood second in four of the 11 counties included. In Lewis and Clark (Helena) Governor Lowden was second and Wood third, and in Yellowstone (Billings) Lowden and Wood were tied for second place.

In Park county (Livingston) Lowden was second and Herbert Hoover third, with Wood fourth, and in Cascade (Great Falls) and Fergus (Lawton) Hoover was second and Wood third. No effort was being made to tabulate returns from the democratic primaries, in which no candidate for president had been elected. The names of President General Wood and other voters were written in. Governor Sam V. Stewart for the democratic nomination for vice-president received a considerable vote.

HOOPER-LOWDEN RACE CLOSE.

Later returns from Flathead county brought Lowden to within six votes of Hoover. Wood led with the total of 224 precincts of 234 in 11 counties heard from.

Johnson Campaign in State Has Cost \$10,747.—Senator Hiram Johnson's campaign in New Jersey has cost \$10,747, according to a pre-primary campaign statement filed with the secretary of state today.

Irving K. Taylor of New York contributed \$5400 and General Wood \$2577.26. All of the money was expended. The primary is next Tuesday.

WANDERWEER IS WORSTED

Books on Sabotage Introduced Over Protest. Defense Attorneys Leagues Opening When He Produces Pamphlet Adversing I. W. W. Library.

One of several legal tilts in which George F. Vanderveer, attorney for the I. W. W., came off worst, resulted yesterday in the introduction to evidence by the state of three books on sabotage, introduced as part of the propaganda of the Industrial Workers of the World, in the course of the trial of Lawrence Sorille, I. W. W., under the criminal syndicalism act.

Circuit Judge Morrow had refused consistently the introduction of these books until it was shown more closely that the I. W. W. may have distributed them in the past year. Earl F. Bernard, deputy district attorney, had made several attempts to introduce them without success when Vanderveer, through the identification of William Shupp, state's witness, an I. W. W. pamphlet.

Mr. Bernard raised no objection to the booklet and when it was in evidence pointed to advertisements for the sabotage books on the cover, as I. W. W. literature, and with this connecting link forged again offered the books in evidence. They were received over the voluble protest of Vanderveer.

Judge Morrow announced yesterday that he would permit the introduction of these books until it was shown more closely that the I. W. W. may have distributed them in the past year. Earl F. Bernard, deputy district attorney, had made several attempts to introduce them without success when Vanderveer, through the identification of William Shupp, state's witness, an I. W. W. pamphlet.

DENIM PARADE FLIVVER

(Continued From First Page.) arrived, only one out of the many bands promised to appear. It was the American-La France field band, consisting of about a dozen lads in khaki with bugles and drums. The place of honor was given them behind an escort of eight mounted policemen kindly loaned by the department.

to join a certain order said to be opposed to prohibition, but Director Rachofsky tore the signs off, declaring this parade wasn't going to advertise anything.

It didn't—outside of a few motion picture plays, overalls makers, film houses and the like. They might as well have let the anti-prohibition signs go, for apparently a good many of the marchers were opposed to Sahara conditions.

"Hep, hep, hep," said an ex-service man far behind the band, trying to get his file mates in step, but they changed this to "hip, hip—got anything on your hip?" Tragically, no one had.

Mayor Declines to Lead. For a time after the parade, shoved off from the circle it was led by a big Hollander, 8 feet 5 inches tall, who arrived in this country a couple of days ago to join a circus in Texas. The Dutchman quit after about four blocks, deciding it was bad enough to get the raspberry, but worse yet when you don't know the language you are getting it in.

Mayor Hyland had been invited to lead the march, but he declined on the ground that he would be out of the city.

"The mayor knew something," commented a cop at the Circle. From the step off until the parade disbanded at the Circle, only a few minutes more than an hour elapsed. The elephants and camels didn't even cover the route. They wrenched out of line at the Flatiron building and left the procession cold.

"There was no denying the price of clothing down, anyhow," declared the Cheese club members as they rallied around their luncheon at 12:30. There was no denying this. Clothing has dropped day by day since the announcement of the plan of wearing old clothes and overalls.

Wear Old Clothes, Plea. "And the parade and the overalls wearing were only intended as symbols anyhow," the protesters argued. "The thing is for everybody to wear old clothes—not necessarily denim—and keep wearing them, and not try to be all dressed up just because other people with more money are dressed up. Then we will all get somewhere."

The arguments were good, doubtless, but the parade, as a thriller, had about the same effect that the base-ball game at the Polo Grounds when Babe Ruth steps up in the ninth inning with two down and three on base and strikes out.

Wearing Old Clothes Advocated. Oregon AGRICULTURAL COLLEGE, Corvallis, April 24.—(Special.)—Discouraging the blue denim on the campus in favor of old clothes already owned by students was the object of a talk in student assembly meeting here Thursday by William Teutsch, president. A call for discussion of the topic failed to bring forth any champions of the movement. Olive drab and other serviceable and cheap forms of apparel already have prevailed here.

RILEY'S TALKS APPEAL HUNDREDS CROWD HALL TO HEAR OF NORTHWEST.

Washington Flocks to Learn of Little Known Country and Committees Are Present. WASHINGTON, April 24.—Frank Branch Riley's northwest travel address delivered last night to the members of congress drew out an audience of hundreds of the faculty and the caucus auditorium of the house filled to capacity, and the members were unable to gain admittance.

Senator Chamberlain of Oregon introduced the speaker, who held the attention of his audience for nearly two hours with an instructive and witty address, which aroused an enthusiastic interest in the northwest country. Senators and representatives from practically every state and the entire Oregon and Washington delegations were present, as well as large groups from local organizations before whom Mr. Riley earlier lectures were delivered in Washington.

The public lands committee of the house, of which Mr. Sinnott of Oregon is chairman, was present, and it was noted that all committees whose activities particularly affect the west were well represented.

The northwest congressional delegation today received many requests for a repetition of the lecture. Following his appearance at Cathedral school tonight, Mr. Riley will go to Pittsburgh to appear before the Pittsburgh chamber of commerce on Monday.

U. S. PICTURED AS ROOST

(Continued From First Page.) the next administration, he has mentioned, he will find their efforts to reduce profiteering as miserable as the one he is now doing.

IT TAKES THE JOY

Out of Life—in the Spring When Impassioned, Lassitude and that tired feeling pull down health to the low level that invites illness. The knees become weak and life seems but a weary worth living.

In this condition Hood's Sarsaparilla has the real "human touch." It meets the necessity promptly and completely. It purifies the blood, creates an appetite, "makes food taste good" and adds disposition, thus naturally increasing strength and in common-sense way building up the whole system. Then the bright days begin to smile on you. The happy response, and the whole world smiles again.

Take Hood's Sarsaparilla for your spring medicine—use at such nearly 50 years by thousands. It "makes food taste good."

Keep on hand Hood's Pills as a gentle laxative or (in larger doses) as an active cathartic.—Adv.

failure as in his estimation are those of today. "All profiteers ought to be punished. But we ought to understand by now that we are fighting conditions instead of causes, as foolish in some of our plights as a child who stumbles over a chair and then turns around and kicks it."

"Flagrant" Earnings Cited. After reviewing the activities of flour, sugar and cotton mills, the recent supreme court decision holding stock dividends untaxable and the department of justice's campaign urging use of the "cheaper cuts" of meats, which he condemned—Senator Capper presented a list of corporations whose earnings, he said, were proof of profiteering "open, flagrant, scandalous."

The list, with the percentage of earnings, as given by Senator Capper included: Continental Oil, 200 per cent; United Fuel Gas, 200 per cent; Ohio Fuel Supply, 100 per cent; Nonquit Spinning company, 100 per cent; Amoskeag Cotton Manufacturing company, 100 per cent; Stutz Motors, 100 per cent; Nashua Manufacturing company, 100 per cent; American Tobacco Securities company, 75 per cent; Manomet Mills, 62 2-2 per cent; Hood Rubber, 56 2-2 per cent; Crucible Steel, 50 per cent; Cleveland Akron Bag, 50 per cent; Union Bag & Paper, 50 per cent; Auto Car company, 40 per cent; John R. Thompson company, 33 1-3 per cent.

"I have but one lamp to guide my feet and that is the lamp of experience," said Patrick Henry. So it is with us in buying

St. Maurice Paper company, 20 per cent; F. W. Woolworth, 30 per cent; Hawaiian Pineapple company, 25 per cent. Standard Oil Prosperity. "The Standard Oil company of Indiana," he continued, "has recently increased its capital from \$1,000,000 to \$30,000,000, giving its stockholders a stock dividend of \$2500.

"The National Candy company's earnings last year showed an increase of 545 per cent over 1915; Burns Brothers, the largest retail coal dealers in the United States, made a net profit of 40 cents a ton against 22 1/2 cents in 1919; the earnings of the United Drug company, doing a business of \$50,000,000 annually, were 242 per cent greater than in 1916; the American Ice company, which cuts ice by the millions, but not profits, has

In the last four years increased its earnings 432 per cent; the International Cotton company, doing nearly \$30,000,000 worth of business last year, made 39 per cent more money, although it sold 20 per cent fewer goods; the Pacific Mills' output of cotton and sweater dress goods produced 34 per cent more profit than in the year before the war; and the excess profits surplus of United States Steel—the surplus remaining after dividends—has aggregated nearly \$200,000,000 in the last five years, although \$315,000,000 was spent in improvements."

Governor Harrison Visits India. MANILA, P. I., April 24.—Governor General Francis Burton Harrison of the Philippines departed today for India, for a two month's visit.

Good Sight Within Your Reach. Our Ophthalmoscope and Retinoscope is one of the most scientific eye-testing instruments in the world. With it we can detect every error of vision instantly.

Thompson's Toric Kryptok Lenses are made to fit near and far vision. As a matter of course, there are imitations, but no imitations are equal to the genuine. "Practically the same," "Just as good," etc., etc., are the answers you get when you ask some opticians for Kryptok. We design and grind genuine Kryptok lenses in our own factory on premises, and with our new electric automatic lens-grinding machinery can make them better and replace broken lenses in quicker time than any other optical concern in Portland. We have no agents. SAVE YOUR EYES
