Convention Meeting Regarded as "Most Important Ever Held" Is Scheduled for Today.

NEW YORK, May 8.—Eugene V. Debs, now serving 10 years in the Atlanta, Ga., penitentiary for violation of the war-time espionage laws, will be formally launched here tomorrow in the 1920 national political cam-paign as a candidate for the fifth time for the socialist presidential

An attack on the administration of President Wilson and a prediction that the socialist party would poll more than 2,000,000 votes in the presidential campaign were made by Hillouit.

Wilson's Record Assailed. He said that the party would survive the concerted attack, "unparalleled in feroclousness and lawlessness," made on it in the last year by "all the powers of darkness and op-pression in the country." He declared that the last three

The Shell company does not expect with the Oregon specific gravity test law for 20 or 30 days, according to

Under this embargo the gasoline supply is being allocated on a ratio of 50 per cent of the usual monthly supply to all industrial concerns, 30 per cent to service stations and 20 per cent to pleasure vehicles.

Street, and the first called in the office of Mr. Meier. Attending were representatives of the oil companies, who were called Van Boskerck.

Later Governor Olcott informed Mr. Meier that suspension of the enforcement of the gravity tes law was being considered and that definite announcement would be made by State Treasurer Hoff Monday. Strenuous effort to repeal the spe-cific gravity test law in Oregon was cific gravity test law in Oregon was made at the special session of the legislature last January. The repeal law was passed by the house, but met defeat in the senate. When the repeal law came to a vote in the senate there was a tie, and the vote against the repeal of the law was cast by the president of the senate, W. T. Vinson of Yamhill.

Although representatives and mem-bers of the Motor Car Dealers' asso-ciation of Oregon had fought the repeal of the specific gravity test law in former years, at the special ses-sion they supported it. Claims sup-ported by government tests showed that the gravity test required by the Oregon law did not give gasoline con-sumers a higher grade product, but because of the process of refining required the cost of such gasoline is approximately 2 cents per gallon greater than gasoline sold in Wash-ington and California ington and California.

Should the state officials suspend prosecution for violations of the specific gravity test, and thus permit the use of Washington gasoline in Oregon during the period of the shortage, it is probable that the cost of gasoline will drop 1½ cents a gallon.

Under the present embargo pleasure vehicles will be allowed but one fifth vehicles will be allowed but one-fifth of the capacity of the tank. Should a ten-gallon tank contain one gallon

will be allowed one-hair tank ca-pacity.

Under the embargo there is danger of automobile drivers running short of gasoline on pleasure trips and the old plan of "borrowing" gasoline from fellow autoists when caught in a pinch is not likely to prove effective.

Standard Agents Confer. Yesterday all the sales agents and special agents of the Standard Oil company were called into the Portland office for conference. In many of the towns of the state the gaso-Ifne supply is exhausted, it was said.

Because of the gasoline shortage prevailing throughout the country. suspension of the specific gravity test law will not insure Oregon against a shortage later, say officials of the oil companies, but it will relieve the resent aggravated situation.

According to government statistics the output of gasoline from storage is 2,000,000 barrels greater each month than the production. This is ascribed to the rapid increase in the use of gasoline-propelled vehicles. APPEAL SENT TO GOVERNOR
