LOG OUTPUT IS HAMPERED

SHORTAGE OF CARS CAUSING SERIOUS DIFFICULTY.

400 Men Estimated Out of Work Temporarily Because Mills Compelled to Shut Down.

Car shortage said to be due to strike yesterday in again seriously affecting the log output on the Tillamook line of the Southern Pacific.
Several camps have closed down entirely and others are running with forces curtailed, among them the Wheeler Timber company and Miller & Cox. Most seriously affected are some of the smaller mills located up the timber, which face the prospect of an indefinite shutdown unless immediate relief is furnished them.
Most of these mills have but limited storage facilities and are unable to receive sufficient cars, making the problem of disposing of the cut a serious one.
In the neighborhood of Timber, various estimates of the number of men temporarily out of work because of the car situation, can be found. The number let out probably reaches 400.
Service on the Tillamook line is more dependent on a normal condition on the main lines than are some of the other lumber districts. Generally speaking the timber industry has been much interfered with in other parts of the northwest.

RULER NOT GRAVELLY ILL

Portland Japanese Consul Receives Word of Emperor's Health.

After inquiry concerning the health of the emperor of Japan, Consul Sugimura at Portland, is informed that the emperor has been suffering from overwork since the European war and on account of the inclement weather is staying at the Imperial villa at Hayama, but his illness is not serious.
"In the meantime," said M. Sugimura yesterday, "only certain necessary official ceremonies such as the official reception on April 14 of three new ambassadors from foreign countries and other unavoidable duties that need immediate attention are performed by his highness the crown prince who then immediately transmits official reports and credentials to the emperor."
"The Imperial family council called for recently was merely a meeting of the Imperial family to discuss the terms and conditions of the marriage system of the Imperial family, and it is not in any way connected with the indisposition of the emperor."
"No apprehension is felt concerning the speedy recovery of the emperor."

COURT ATTACHE HONORED

Jurists Pause for First Time in History for Similar Cause.

Though elaborate memorial services have marked the deaths of jurists and attorneys, the Multnomah circuit court did honor for the first time in history yesterday the memory of an attaché, M. J. Morse, veteran bailiff in the court of Circuit Judge Morrow. He had served under Judge Morrow for ten years, the longest tenure of office held by any bailiff.
After convening court in regular session, the absence of Bailiff Morse was referred to by C. M. Idleman, former attorney-general, and a motion made that he be excused from further duty in the tribunal on the ground

STORE ROBBED OF SUITS

GANG MAKES HAUL ESTIMATED AT NEAR \$2000.

Fifty suits and overcoats of an estimated value of nearly \$2000 were taken from the Wonder Clothing company's establishment at Third and Alder streets early yesterday morning by a gang of burglars who broke into the building through an upper window.
The thieves made their way to the place over the roofs of some lower structures adjoining and broke the window. They are believed to have used an automobile to get away with their haul.
Detectives Swences and McCulloch made an investigation yesterday in the effort to trace the thieves.
The same concern was robbed several weeks ago and a quantity of goods taken.
Mrs. E. A. Enright of the Stelwyn apartments, reported to the police that a thief broke into her apartment and made away with a valuable nugget bracelet.
Two purses containing \$8, some jewelry and two theater tickets were taken by a thief who broke into the house of Harry Bursard, 423 Magnolia street, some time during the night. The police were advised yesterday.
L. Poanor, tailor, reported that his shop at 727 Thurman street was broken into and goods for five suits taken.

Throng Flock to Oaks

The Oaks amusement park opened yesterday under weather conditions which sent throngs of pleasure-seekers to the cool greenness and diverting entertainment of that playground by the river. When the gates were flung wide at 10 o'clock the people were waiting for admission and by mid-afternoon cars from the city were bringing their hundreds. Last night the trail with its varied attractions was a center of interest.
The weather of the spring has been a great factor in making the Oaks even more attractive than usual. The late season has had the effect of keeping the shrubbery and trees at just that state of development at which they present their brightest, freshest green and many of the spring flowers, which in other times, would have faded, are in full bloom.
Among the new attractions this year is the "Whip," a ride with a kick in it. It drew many of the hilarious younger folk and a good percentage of the adventurous of more mature years.
Unlike former seasons, the theater is not open with the opening of the

3 MEASURES ARE FAVORED

HOOD RIVER, Or., May 15.—(Special)—Indications point to an almost unanimous local vote for three of the referred measures to be voted on next Friday—the two educational millage bills and the 4 per cent state road bond limit. Practically all local civic organizations, including the granges, have adopted resolutions favorable to the higher educational millage measure.
"I have yet to find a single local voter," says Truman Butler, local bank president, "who is not willing to vote the 4 per cent road bond limit when he is fully advised as to the purposes of the measure. Some voters, resting under the impression that the measure would increase property or gasoline tax or auto license fees, have misunderstood it. Information given out on the measure has clarified the situation."
