# THOMPSON SPURNS COMMITTEE POST

Chicago Mayor Declines to "Sacrifice Principles."

#### RE-ELECTION NOT WANTED

"No Part Desired in Auction o Presidency." Declares ex-National Committeeman.

CHICAGO, June 5 .- Mayor William Hale Thompson of Chicago today is-sued a signed statement in which he declined to be a candidate for re-election as republican national com-mitteeman. Mayor Thompson's action was taken, he said, because he "cannot and will not accept election to an office, the forceful administration of

which might make me a party to the purchase of the high office of president of the United States."

Mayor Thompson, in his statement, declared that at the Illinois primary election "a vast majority of those voting in Chicago had expressed their demand that the United States get out of Europe and stay out, their opposition to the league of nations . . . and that "although a majority of the lilinois delegates to the national con-vention have promised to vote for my re-election as national committeeman, recent developments have convinced me that acceptance of re-election as national committeeman might compel me to sacrifice the principles for which the people of Chicago voted. Re-election Is Declined,

"I, therefore, decline re-election in order to be free to continue the fight for the principles our people have indersed so emphatically. I will not for a membership forsake my duty to aid in the fight for these American principles."

The mayor's statement said in part:
"The facts disclosed within the past
few days through an investigation by
the United States senate of presidential campaign expenses further impel
me to this decision. Regard for public decency should rise above personal
ambition for office or power. It is
apparent that certain interests would
put the White House on the auction
block. They assume that a candidate
with vast sums of money to spend
can be made president regardless of
his record, his lack of principles, or
his lack of sympathy with the alms
and desires of the American people.

"Delegates have been excluded from meats on account of corrupt influences surrounding their selection. Other delegates, unopposed for election, received substantial sums of money, according to their own confessions. The ideals of true republicanism would, in my opinion, be served if the persons who improperly paid or supplied money also were deprived of the privileges of the convention and barred from being beneficiaries of any convention action.

Thirty men riding on a flatear of the Lewis & Clark railroad had a narrow escape yesterday afternoon, when two cars went into the ditch on the new stretch of track leading to Saddie mountain.

As it was, only one man was injured. He suffered a badly bruised jaw and cheek when he was thrown on a pile of old timbers and stumps. The others escaped by jumping.

One car was a total wreck and the second, which replaced the old wooden structure, has been in operation eight weeks. It was built by the state highway commission at a cost of \$60,000.

"genuine (IANT) is always uniform"

At every Giant Powder plant the chemical laboratory controls the processes of manufacture. They make continuous tests that insure the unvarying high quality of Giant Powders.
Each pound of Giant Powder is exactly like every other
pound of the same grade. Such uniformity means economy,
efficiency, safety. Professional users of Giant Powders—
miners, quarrymen, contractors—all know that the name
"Giant" stands for utmost dependability in explosives.
When you have land to clear, trees to plant, subsoil to be
broken or ditches to be blasted, tell your dealer to get for
you one of the Giant Farm Powders—Eureka Stumping or
