"I Like the Tone of My Columbia Grafonola Best"

happily confided a woman to her husband in the electric train. They had been calling on a friend who had recently purchased another make of phonograph and you could hear the satisfaction of her unenvying statement, "I like my Columbia Grafonola best."

In listening to the Columbia there seems to be no consciousness of anything between the hearer and the artist. It is the glorious unfoldment of life itself—the tone exquisitely pure with all the elusive shading of the theme as rendered by the artist.

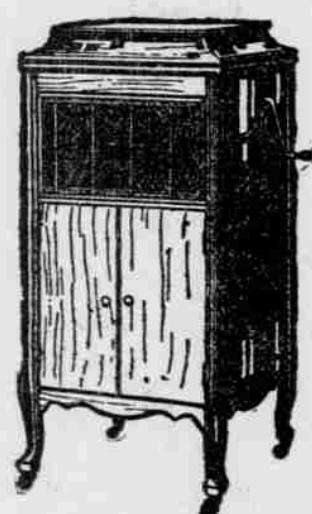

The new non-set automatic stop makes the Columbia ideal for summer. Start the motor in the regular way by moving the start-lever—and then go out to the veranda or upstairs and pay no further attention to its mechanics—just enjoy the music—and the automatic device will stop the motor when the record is through playing no matter what size record it may be.

They're Here!

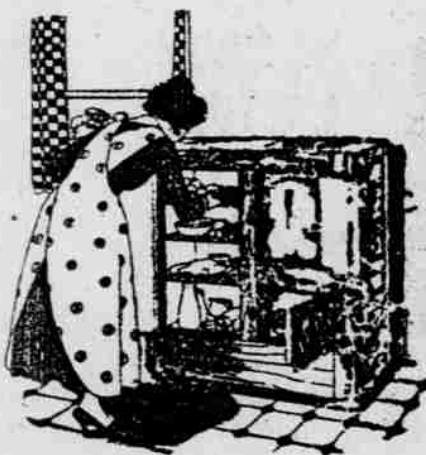

The Eagerly Awaited

Bohn Refrigerators

They come at an excellent time, too, both for those people who have already placed their orders and for those who will carry out their desire of having a good refrigerator under the special stimulus of doing themselves proud in honor of the many visitors who will come to our fair city.

The Bohn Has Been Proved and Tested

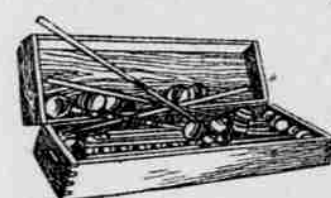

under extremes of temperature and atmospheric conditions and has come through all the tests with flying colors. That is why Bohns are used exclusively by the Pullman Company and Railroads in their dining and buffet cars, where only the most reliable food saving appliances can avail against the trying conditions. That is why the Bohn Syphon is the ideal family refrigerator from the viewpoint of food preservation, low ice consumption and economy of maintenance.

We Urge Early Selection

on those who do not wish to be disappointed in their hope of having this fine Bohn Syphon refrigerator this summer helping them to save food and protect the family's health.

Here Only in Portland

Universal Porcelain Ranges

Porcelain enamel castiron ranges—finished in a rich pretty shade of blue or bright glossy shade of gray.

Think what this means. No more stove blacking, bruised knuckles and soiled hands. A damp cloth or sponge and a moment's rubbing keeps your range looking like new.

Universal Porcelain Ranges are made of castiron and therefore will outlast any steel range and give better service. The porcelain enamel is guaranteed not to chip or discolor from heat. These splendid ranges are shown in several styles—wood and coal ranges and combination wood, coal and gas ranges.

In addition to their beauty and durability these ranges possess many exclusive features of construction that make for convenience and economy of operation and excellent cooking and baking results.

A New Shipment!

2000 Yards British Government Aeroplane Linen

\$1.00 Yd.

Same quantity as in our previous sale when we introduced this celebrated aeroplane linen to Portland . . . and it sold out before closing time first day! Many were disappointed in coming too late to share in the sale. This is their opportunity.

36-Inch Natural Colored Linen

For suits, dresses, skirts, middies, smocks, riding and motor coats, men's suits, children's clothes, tea and luncheon cloths, table sets, centerpieces, table runners, cushion tops, drapery and curtains, furniture slip covers, half sash and full-length window casement curtains and many other purposes.

EVERY THREAD ALL PURE LINEN RIP, TEAR, ALMOST WEAR PROOF

It was woven for the British government to use as aeroplane wings. At the close of the war a tremendous amount of this aeroplane fabric was on hand. Millions of yards were sold at retail in England. Thousands of yards have been sold in America. We regret that we have only 2000 yards of this wonderful linen at \$1. It will go rapidly.

Fine Plain Colored Chenille Rugs Specially Made Up in 9x12 Size

Regularly \$108, Now **\$ 87.50**
Regularly \$150, Now **\$129.00**

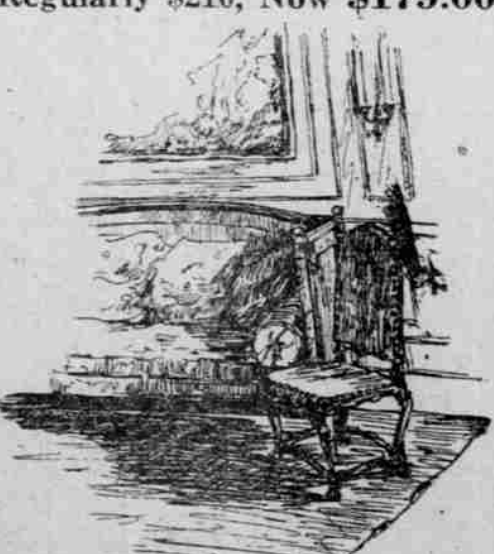

Regularly \$198, Now **\$167.50**
Regularly \$210, Now **\$179.00**

Fashionable plain chenille rugs which will harmonize with the furniture and hangings in any well-bred room. Their luxuriously soft deep pile gives a distinct impression of richness. Available in correct shades of taupe, mole, beige, sand, gray, mulberry, blue and rose.

Some are of British manufacture—others come from the best American mills. Both kinds practically the same in quality—and both highly approved by good interior decorators.

Plain rugs like these have largely taken the place of orientals because they can be used to much better advantage with carved furniture and tapestry or damask upholsteries.

This rare opportunity to secure the finest quality in ready-to-lay-down 9x12 rugs will be appreciated. Owners of beautiful homes and all interior decorators are especially invited to take advantage of the savings.
