NEW FISCAL YEAR WAITED

Disapproval of Administration Programme Indicated-Proposed Law Changes Not Revealed.

WASHINGTON, June 19 .- Hope for a reduction in taxes is held out by Representative Mondell of Wyoming.

Representative Mondell of Wyoming, republican leader of the house, in a statement prepared for the final issue Monday of the Congressional Record and made public tonight.

"We shall enter the new session of congress in December and the new congress in March," said Mr. Mondell's statement, "with the way opened for a substantial reduction of the tax burdens."

The republican leader said reduc-tions would not be possible until after the close of the fiscal year which begins next month. The proposed changes in the tax laws also were not revealed by Mr. Mondell, although he indicated his disapproval of the administration programme for the discard of the excess profit legiss.

He contended that such action at this time would mean a "shifting of burdens from large incomes and prof-its to the small and normal incomes and profits."

No hope for a return to pre-war ex-

No hope for a return to pre-war expenditures and appropriations was expressed by the republican leader, although he predicted that for the fiscal year beginning July 1, 1921, a reduction "by upwards of \$1,000,000,000" would be effected, making the annual government expenses approximately \$3,250,000,000. Fewer government employes and smaller appropriations ployes and smaller appropriations for the army and navy were cited by Mr. Mondell as possibilities for re-ductions after July 1, 1921.

Sarplus Is Held Likely. Mr. Mondell estimated that for the fiscal year beginning next month government revenues would exceed government revenues would exceed expenses by at least \$1.048,604.729, un-less "unusual expenditures not con-templated by congress" are made. This expected surplus, the republican leader said, was due to economies by congress in the recent session when \$4,373,395,280 was provided for the year's expenses. In determining the surplus, Mr. Mondell said he accepted the most conservative estimate of revenues made by the treasury, or a total of \$5,420,000,000,

of \$5.420,000,000.
The unbonded war debt was placed at \$3,250,000,000 by Mr. Mondell who said it was a "continual menace," but when reduced by the anticipated sur-

Meeting Conditions!

The High Prices of Clothing Make Smaller Profits. a Necessity

This store has been operating on a mighty small margin of profit, but owing to high priced conditions prevailing we have decided to meet conditions by marking Chesterfield Clothes at a still smaller margin of profit than we have been charging.

Of course, to make this lower price possible we must increase our volume.

We think the public will appreciate our efforts to give them all that is possible to give in clothes values, and favor us with their liberal patronage so we may be able to continue the low prices we now make.

We are going to take our \$50 Suits and make them \$40. We are going to take our \$60 Suits and make them \$50. We are going to take our \$65 and \$70 Suits and mark them \$60. We are going to take our \$75 and \$80 Suits and make them \$70. We will take our \$90 to \$100 Suits and make them \$80.
