

EMINENT JURISTS THESE

PERMANENT COURT OF INTERNATIONAL JUSTICE IN SESSION.

World's Most Competent Authorities on Legislation Undertake Huge Task.

THE HAGUE, June 26.—The 12 distinguished international jurists, among them Elihu Root, of the United States, invited by the executive council of the league of nations to plan the organization of the new permanent court of international justice, constitute an impressive array of the world's most competent authorities on questions of international legislation. Those who are to undertake the task were: Baron Descamps, Belgian minister of state, professor of international law at Louvain university, member of the permanent court of arbitration of The Hague and secretary-general. Formerly president of the institute of international law and writer on international questions. M. Drago, formerly foreign minister of the Argentine Republic. While holding that office he sent to the Argentine minister in Washington instructions known as the Drago doctrine (1902). He was formerly judge in Argentina; one of the arbitrators nominated by agreement between Great Britain and the United States in the North Atlantic fisheries arbitration, The Hague (1910); one of the Argentine delegates to the second peace conference at The Hague and member of the permanent court of arbitration of The Hague. Professor Fadda, professor of Roman law at Naples university. M. Fromageot, legal adviser to the French foreign minister; member of the permanent court of arbitration of The Hague and delegate to the second Hague peace conference. M. Gram, formerly a judge on the mixed tribunals in Egypt; former member of the supreme court of Norway; minister of state at Stockholm before the severance of the union between Norway and Sweden; member of the permanent court of arbitration at The Hague and member of the Institute of International Law. Dr. Loder, member of the Cour de Cassation of the Netherlands. Lord Phillimore, English privy councillor; a lord justice of appeal (1912-1918); president of the International Law Association (1905-1908); author of publications on ecclesiastical and international law and "Three Centuries of Treaties of Peace and Their Teaching" (1917); president of committee of inquiry appointed by the British government on the subject of the league of nations. Elihu Root, former secretary of state, United States; president of the American Society of International Law; member of the permanent court of arbitration of The Hague; senior counsel for the United States in the North Atlantic fisheries arbitration at The Hague (1910); member of the Alaskan boundary tribunal and head of special United States mission to Russia (1917). Saturo Akahiki, formerly Japanese ambassador to Vienna and one of the legal advisers of Japanese peace delegation in Paris. Rafael Altamira, professor of law in Madrid university; senator. Clovis Bevilacqua, professor of law and legal adviser to the minister of foreign affairs, Brazil. Dr. George F. Hagerup, formerly premier of Norway and Norwegian minister to Denmark and Stockholm; member of the second Hague conference, where he supported the attitude of the United States on the inalienability of private property at sea.

EQUAL RIGHTS DEMANDED

Teachers Declare Women Should Be Recognized With Men.

COLORADO SPRINGS, Colo., June 26.—(Special.)—That recognition with boys and men should be given girls and women through support in furnishing equipment and teachers for training in trades and industries was the unanimous opinion of the National American association members assembled in convention at Colorado Springs. It was declared this would enable women up to the age of 24 years, which is conceded to be the usual age for marriage, and the childless or middle-aged women, to render the highest type of productive work. An address on the building of future citizens through correction of the diets of what was said to be 95 per cent of skinny children in the United States caused unusual interest among delegates. This address was given by Dr. Caroline Hedger, who was four years director of the infant welfare commission of the board of health of Chicago and during the war was six months in conquered regions of Belgium, where she made a survey of the feeding of children in Antwerp.

Muster Ceremony July 6.

CENTRALIA, Wash., June 26.—(Special.)—Centralia's new national guard tank company will be mustered in on July 6 according to word received from the adjutant-general's office yesterday by Captain David Livingston. Major Patton will be the mustering officer. The new company will be mustered in with a membership of about 100.

THE AFTER-SMART OF SHAVING IS ALLAYED BY SANTISEPTIC

MANY men who would like to shave themselves, dread the after-smart caused by using the razor daily on a tender skin. To all such we recommend Santiseptic Lotion; it not only allays the smarting and soreness, but it acts as well as an antiseptic, protecting the face from infection. The sense of security from infection that you enjoy from the use of Santiseptic is especially reassuring. Santiseptic is

delightfully cooling and refreshing; it leaves the skin with soft, velvety smoothness, which bespeaks the healthy, well-groomed man. There is no "too close" when Santiseptic is used. The odor is Santiseptic is wholesome and clean. Unlike many preparations, it is not sticky. To use it in your daily shave is to enjoy a real luxury. Santiseptic is easily procured at most drugstores and toilet goods counters and costs but 50 cents.—Adv.

Hot Water Coils \$15 Extra

—Perfect in Construction —Perfect in Accomplishment —No Heat in the Basement —No Smoke, Soot or Ashes Upstairs

One Register, the "Homer" Thermo-Seal Inner Lining and the Two-Funnel Radiator, Does All

Be Protected—Order This Week, Installed Whenever You Say—July, August or September

—There's nothing complicated, nothing mysterious, about "Homer" Pipeless Ventilator Furnaces. —Installed in any home where there is a basement—no tearing up, no dust or dirt, no inconvenience, no delay. —Saves fuel, saves labor, saves expense. —Heats quickly, heats evenly, heats purely.

Absolutely Guaranteed!

—Your Money Refunded After 60 Days' Use if This Homer Pipeless-Ventilator Furnace Does Not Measure Up in Full to Every Statement Made—Edwards

—Note the Thermo-Seal Inner Lining—Heavy Galvanized Iron with asbestos insulator. Without it there would be no circulation of warm air. It keeps the return air cool until it reaches the base of the furnace. It sends all the heat to the rooms above. The Thermo-Seal is a distinct Homer feature. —The large Homer clean-out is conveniently placed to make occasional cleaning very easy. Feed door is extra large to allow the use of large pieces of wood or coal. —Water pan with proper capacities is correctly located to moisten the warm air before it leaves the Homer. The ash-pit door is dust-tight and is the right size to permit easy removal of ashes. —Outer and inner casings of the Homer are adjustable to any depth basement of six feet or more. They make airtight connections between the furnace and the register. Made of heavy galvanized iron. —Radiator—all cast, constructed in two pieces, "horseshoe" type, flues oversize, insuring free circulation; smoke passes completely around the radiator, which gives maximum extraction of heat before same passes to chimney. —Extra heavy reinforced firepot with ribbing both on inside as well as outside. Made of pure Strokel iron and guaranteed to last five years. —Note the large air spaces which insure the proper ratio of warm and return air passing through the Homer. They are designed to allow all the air to pass through the furnace about every 25 minutes, giving a steady flow of warm air.

Edwards Company, City, Portland, December 20, 1919. Gentlemen: Since installing your Homer Pipeless Furnace (which replaced an American Ideal Radiator System), we have realized about 50 per cent saving in fuel over the steam system. In fact, we have sold a portion of our fuel supply for this reason. We also find that an even temperature is maintained throughout the office and considerably less work is required to fire the furnace. The cold spell just passed gave us a splendid opportunity to test out the merits of your furnace, and we do not hesitate to recommend the same fully. Yours truly, RAGGAGE & OMBURN TRANSFER CO. (Signed) By E. O. Pond, Secretary-Treasurer.

Edwards Company, City, Portland, Oregon, Nov. 5, 1919. Gentlemen: We have had the Homer Pipeless Furnace in our home 60 days and it has proven entirely satisfactory. Two shovelfuls of coal in the morning keep the whole house, including the enclosed sleeping porch at the rear, warm and comfortable all day, even on the coldest days we have had so far, and it saves us about one-half on fuel. We have reason to congratulate ourselves on installing a Homer. Yours truly, (Signed) RUTH SANDERSON, 1422 Wisteria Ave.

Edwards Company, City, Portland, Oregon, Oct. 27, 1919. Gentlemen: The Homer Pipeless Furnace that you have installed in our home is very satisfactory, both as heater and fuel saver, and we could recommend the Homer Furnace to any one who is contemplating getting a pipeless furnace. Respectfully yours, (Signed) MR. AND MRS. FRANK GILLESPIE, 597 E. 65th St. N.
