Judge Rossman said:

"My boy, you have not only done wrong but you have also proved that no man ever makes anything by stealing. Sooner or later you are always found out if you steal. If you are found out at once it is generally bad for you. If you are not found out at once you are thereby encouraged to steal again, and this is very bad for you, because it wrecks your whole life. Stealing dulls your ambition and industry. It lowers your self-respect and blunts your consciences; and with the mental state thus brought about you certainly cannot succeed. This is why no thief is ever prosperous. In three years of experi-

The Last Corn

When you end your corn with Bluejay, it will be the last corn you let grow. You will know how to stop the pain. And how to quickly and completely end all corns.

There are millions who use Bluejay now, and they never let a corn remain.

The new-day way

Blue-jay is the new-day way, the scientific method.

It was perfected in a laboratory world-famed for its surgical dressings. It is supplanting the many treatments which are harshand inefficient.

It has made paring as ridiculous as it is unsafe, for paring doesn't end corns.

Do this tonight:

Apply to a corn a Blue-jay plaster or liquid Blue-jay-whichever you prefer.

Mark how the pain stops. Then wait a little and the corn will loosen and come out.

What that corn does all corns will do. Some 20 million corns a year are ended in this way.

Don't suffer corns. Don't have your feet disfigured. They can be ended almost as easily as a dirt-spot on your face. They are just as inexcusable.

Don't forget this. It means too much to you.

Ask your druggist for Blue-jay.
