MUCH EXPECTED OF CONFERENCE AT SPA

"Beginning of Big Things," Says British Premier.

TRIBUTE PAID GERMANS

Chancellor and Foreign Minister Say They Will Do Their Best to Meet Obligations.

SPA, July 17.—(By the Associated Press.)—The conference here between the allied chiefs and the representatives of Germany is the beginning of big things, Premier Lloyd George of Great Britain declared today in summing up the result of the last fortnight's sharp fencing with the Germans.

"We will do our best to carry out the agreements entered into here," Dr. Walter Simons, the German foreign minister, said.

Premier Lloyd George indicated that he had a high opinion of both Konstantin Fehrenbach, German counselor, and Dr. Simons.

Mr. Lloyd George said it would have been an immense advantage if Americans had participated in the conferences, because, he added, they would have brought to it a viewpoint free from European rivalries.

"Might not the European statesmen find the Americans embarrassing if they took an active part in the settlement of all questions?" Mr. Lloyd George was asked. He replied that he did not think so. The power of America, her disinterestedness and her spirit of fair play would be of tremendous value to Europe, he said.

Dr. Simons declared he was apprehensive of disturbances in the Ruhr region.

"Trouble is likely to come next week," he said, "unless we can take measures to feed the miners better when we ask them to work harder. . . . I telegraphed Hermes, our food minister, to send all available foodstuffs to the Ruhr immediately. I have written to the food ministers of France, Belgium, Great Britain and Italy, urging them to do all that is possible to get more food into the Ruhr within two weeks."

WEST HAS OLYMPIC WIN

(Continued From First Page.)

who also holds the American expeditionary force broad jump championship, tried for the world's record of 24 feet 11¾ inches, made by Pat O'Connor in England in 1901, but failed.

Milton S. Angier of the Illinois Athletic club was the other westerner to establish a new American record when he shot out the javelin 192 feet 1⅜ inches, surpassing George A. Bronders' record of 190 feet 6 inches, made at Newark in 1916, while a member of the Irish-American Athletic club of New York.

More than six high jumpers cleared better than six feet, and the winner, John Murphy, of the Multnomah Amateur Athletic club of Portland, Or., was obliged to better his former American Athletic union championship record of 6 feet 3 3-16 inches to win. Murphy cleared the bar at 6 feet 4¼ inches in his winning jump, but failed in his attempt to break the world's record when the bar was set at 6 feet 8 inches.

Distance Competition Keen.

The distance runs, however, produced the competition that stirred the spectators to greatest heights. Although Joie Ray, the Illinois runner, failed in his attempt to lower the mile record, he won in 4 minutes 16 1-5 seconds.

The 10,000-meter run developed the keenest and most sustained enthusiasm of the day. After the pack of a dozen runners had settled themselves well into the grind of more than six miles, Fred M. Faller of the Dorchester, Boston, and R. Earle Johnston, a negro sprinter of Pittsburg, reputed to be the fastest man produced by his race for long distances, set out on a racing duel which continued through the last two miles. Sprint succeeded sprint, notwithstanding the miles of running that lay behind them. Faller's reserve was greater, however, and he won with a rush on the home stretch.

One former Olympic star flashed again today when Ted Meredith won second in the quarter-mile run, close behind F. J. Shea of the navy.

Paddock Equals 220 Record.

Charles W. Paddock, western sprinter, equalled the long-standing championship record of 21 2-5 seconds in winning the 220-yard dash, but lost the 100-yard dash to Loren Murchison of New York, who won it in 10 seconds flat.

Semi finals, 100-yard dash—First heat won by Loren Murchison, New York Athletic club; second, M. M. Kirksley, Olympic club, San Francisco; third, W. B. Hayes, Notre Dame university. Time, 10 seconds.

100-yard dash—Second heat won by J. V. Scholz, University of Missouri; second, Charles W. Paddock, Los Angeles Athletic club; third, Allen Woodring, Meadowbrook club, Philadelphia. Time, 10 seconds.

BOTH NOMINEES DISLIKED

BERLIN PAPER DECLARES COX SERVANT OF WILSON.

Democrats' Selection of Roosevelt Was to Get Republican Vote, Says Article.

(Copyright by the New York World. Published by Arrangement.)

BERLIN, July 17.—Die Tagliche Rundschau publishes an article headed "Cox Against Harding." It states that after Senator Harding was nominated the democrats had a great opportunity. They could have overcome all obstacles in the way of winning the election next November if they had nominated a candidate who understands the feelings and tendencies of the times.

"But by nominating Governor Cox," the Rundschau continues, "the democrats have not bettered their case much. As always, a mistake by one party did not teach the other party anything. The nomination of an inferior candidate by one party produced the same effect on the other.

"Besides, the democratic convention was absolutely under the influence of President Wilson. The president, the all-mighty ruler of the democratic party, permitted himself, with real Wilson-like hypocrisy, to pretend to abstain from exercising any influence on the convention. But the fact that Wilson distributed a new photograph of himself, seeking to show that he had regained his full vitality and energy, and that he gave a long interview to the New York World, proves that he had a lurking idea of having himself re-elected for the third term.

"Cox is nothing but Wilson's obedient servant. It is interesting that a Roosevelt was nominated as second to Cox, because the democrats hope Roosevelt's name may catch republican and independent votes. This shows that the democrats have none too great confidence in Cox. The socialist element is growing strong in America and promises surprises at the November elections, although American socialism is not comparable to ours, because American laborers are much too conservative."

The article ends by saying that if the election happened today Harding surely would be chosen because of the great opposition of the American people to Wilson's autocracy and the American wish not to mix in world transactions. But there are still four months and it is impossible to say what may happen in America meanwhile.

MARINES RUSH TO PEKIN

1200 to Reinforce Legation Guard and Warships Are in Harbor.

(Copyright by the New York World. Published by Arrangement.)

LONDON, July 17.—(Special Cable.)—"Reinforcements of 1200 United States marines for garrison duty at the American legation at Pekin are expected to arrive in that city at any hour now. American warships have arrived at Taku, on the gulf of Chili, near Tientsin."

So states a dispatch from Tientsin to the Daily Mail. It adds:

"Every newspaper published here seems convinced that hostilities are a question of only a few days. The American legation authorities have directed all their nationals in the Paotingfu district (in Chili province, about 70 miles southwest of Pekin) to come to Pekin immediately.

"Field Marshal Tuan Chi Jui, formerly premier and the most powerful man in China, has ordered his troops, known as the 'frontier force,' to proceed against General Tsao Kun's soldiers, who are the mainstay of the so-called Rhisli party."

ORIENTAL RACE IS SCORED

GOVERNOR EXPRESSES OPINION OF JAPANESE IN HAWAII.

McCarthy Declares Recent Strike Indicates Desire to Control Industries.

HONOLULU, T. H., July 17.—(Special.)—Governor Charles J. McCarthy, in an address yesterday, voiced the opinion for the first time as the chief territorial executive that the time has come for a showdown on the Americanization problem in the Hawaiian islands.

"Up until a year ago I believed we were accomplishing our purpose in the matter of Americanization, but during the last session of the territorial legislature I suffered a rude awakening." He referred to protests filed from all ranks of an oriental race, when the legislature contemplated passing a bill wiping out Japanese language schools.

"The opposition of this oriental race," said the governor, "was such as to lead to the belief that they wanted to run things in this country as they saw fit."

He pointed to the recently concluded strike of Japanese sugar-cane plantation laborers as indicative of an attempt to secure control of one of the chief island industries.

"The time has come for a showdown," declared the governor. "This territory shall continue 100 per cent American."

Cowlitz Bridge Nears Completion.

CENTRALIA, Wash., July 17.—(Special.)—All steel work and riveting on the new Pacific highway bridge over the Cowlitz at Toledo was completed this week. All that remains to be done on the structure is painting, laying an asphalt top on the driveway and completion of grading on the east approach.

COAL SUPPLY IS ASSURED

ACTION TAKEN TO PREVENT WINTER FAMINE.

Increased Service to Lake Erie Ports Agreed To by Rail Executives' Association.

NEW YORK, July 17.—Plans for increased coal car service to Lake Erie ports—the gateway of the north—to prevent all possibility of a winter coal famine were agreed upon at a conference here Friday between the Association of Railway Executives and the National Coal association, the latter representing the bituminous industry. The plan will be submitted Monday to the interstate commerce commission for approval and the issuance of necessary orders to put it in effect on all railroads.

Details will not be made public until after they have been approved by the interstate commerce commission. A statement from the coal operators said "adoption of the plan by the interstate commerce commission means an increased car supply, with sufficient direction of shipments to insure an adequate coal inflow to Lake Erie ports for transshipment to the northwest and Canada."

She came here from the Spokane public library, where she served two years in the reference department.

THE CHENEY

The voice of the Cheney is like the song of birds—clear, serene, satisfying.

The natural and human-like quality of the Cheney tone is due to the fact that in the Cheney are embodied the old well known principles of pipe organ and violin construction.

Prof. Cheney, the musician, has built an instrument free from the scratch and grind which has been so objectionable in the ordinary phonograph.
