

## LABOR AND CAPITAL PREPARE FOR FIGHT

Employers Ready to Resist Demand for Rise in Pay.

WORKERS ARE EGGED ON

Government Trains Centralized Police Force to Cope With Possible Disorders.

BY JAMES M. TUOHY.

(Copyright by the New York World. Published by Arrangement.) LONDON, Aug. 7.—(Special Cable.)—Both sides here are preparing for the expected big struggle between capital and labor in the early winter. The great employers, according to the World's information, have formed a combination to resist further demands for increased wages.

Labor, egged on by the revolutionary elements whose tentacles are widespread and extend into nearly every trade, is constantly making increased demands both as to wages and hours and it is claimed is making profitable industry impossible. So long as the trade boom continued, employers who were reaping huge profits gave way, but now that trade is slumping, especially in engineering works, where wages increases have been heavier, dismissals are the order of the day.

The shipbuilding trade is steadily shrinking, the employers contending they cannot compete with other countries owing to onerous wage bills, the excess profits tax and exorbitant transport charges. The engineering trades have now a fresh demand for wage increases under way and it is stated that rather than consent, all big engineering works in Great Britain will shut down.

Wholesale unemployment. This would mean unemployment on a vast scale in all the industrial centers of the country. The coal owners are credited with the same policy in the face of a renewed demand for increased wages, which the extreme trade unionists threaten to make the basis of a general strike. However, the strike may yet be averted, as the miners have to ballot on the question, while already agreed on the wage demands.

If the coal mines shut down for two or three months in the winter it would mean a serious coal shortage and the complete stoppage of coal exports, hitting France and Italy vitally. The shipping interests complain that the idleness and unrest among the dockers is steadily strangling shipping. It is stated that a 1400-ton ship can be unloaded at Antwerp in the same time as one of 350 tons in London and for half the cost. Furthermore, there is a certainty of labor in Antwerp, while there is none in London with the dockers, as American captains find, jumping at any pretext to strike.

The high wages paid to the dockers have attracted masses of unemployed labor in London, and this results in increasing unemployment.

Preparing to Resist. This labor situation apparently impending disturbances, and the government is already concerting measures to deal with them. It was stated today that the British police, hitherto municipally controlled, are to be federated into one homogeneous force under a plan now completed by the home office, so they can be moved in bodies to any part of the country where the urgency demands. It is also stated that in some centers they are already being trained in rifle practice.

A possible nucleus of serious trouble exists in the large number of unemployed discharged officers and soldiers. Premier Lloyd George has a scheme for withdrawing as many as possible of these from England by offering them employment on exceptionally attractive terms in connection with the new cooperator regime in Ireland. The reprisals the employers are credited with planning will, sober opinion holds, play into the hands of the extremists, who wish for nothing better to give an impetus to their revolutionary schemes.

Indian Song Writer Dead. SAN FRANCISCO, Cal., Aug. 7.—Carlos Troyer, who recorded hundreds of songs of the Indians of Peru and of the Zuni tribes of New Mexico and Arizona, died here recently at the age

of 84. He was noted as a musician, composer, writer, explorer and humanitarian. His friends were said to have included List, Jenny Lind, Dom Pedro of Brazil and Colonel Theodore Roosevelt.

**PIGEONS TO CARRY NEWS**  
Arizona Paper Establishes Service in Mountainous Districts.

NOGALES, Ariz., Aug. 7.—An evening newspaper has just established carrier-pigeon news service in con-

junction with its news department. Thirty-six blooded pigeons are housed in a roomy cot obtained through the local army post and located at the newspaper building.

The service is intended for use by officers of the law and news men when they go into mountainous districts in Arizona or Mexico where no telephone or telegraph is available. Arrangements have been made with the Santa Cruz county sheriff's office to carry one or more of the birds when a man hunt in the mountains. Private individuals will also use the birds when desiring to send back mes-

sages from inaccessible points of their travels.

Five of the pigeons were taken to Patagonia today for a test flight. They were back in their cote on the newspaper plant within 15 minutes of release. Patagonia is a mining camp in the mountains. By road, which winds and turns, the camp is 28 miles from Nogales. Ey. airline aviators have measured the distance as 15 miles.

This is said to be the first instance in the United States of a like news service being installed by a publisher in a city of this size.

## Edwards New Pipeless Gas Furnace

Save the money you were about to spend for winter fuel. It will make the first payment.

The Balance You Can Pay a Little Each Month—

You won't have to put fuel in your basement—neither will you have to fire the furnace during the long days and nights this winter.

Then it's economical—you'll be surprised how little gas consumed—

You'll also be surprised how much heat you'll get and how quickly.

### Remember—

You'll have no soiled clothes or hands—no more dust, soot or ashes—no more running up and down stairs to shovel coal or juggle wood—

FOR IT'S Laborless, Odorless, Smokeless, Pipeless, Sanitary and Economical.

It's new—so new it has no name—but if Edwards Co. offers it to the public you have the satisfaction of knowing it's good.

They stand back of it and guarantee it the same as everything else they sell—
