ing 100 guests at her home in Wayne street. Mr. and Mrs. Tausig were visiting in Portland for about a week. Mrs. Tausig is a sister of W. L. Brewster.

Mrs. Arthur R. Boscow has just returned from a visit in Albany, where she attended a number of delightful social affairs given by the smart set there. Mrs. Boscow, Miss Constance Piper and Mrs. E. W. Langdon were guests at an attractive dinner party given by Mrs. E. D. Cusick and Mrs. Owen Bean at the Cusick residence. The menu was served in the garden and later the party motored to Colorado Lake, near Corvallis, and there enjoyed dancing. Mrs. James Thompson and Mrs. Mary Smiley were other out-of-town guests. These two charming matrons have been entertained extensively and have added much to the social interest of the season in Albany, and on last Saturday they presided with Mrs. Percy Young at a dancing party at Mrs. Young's home. A number of Portlanders shared in the pleasures of the evening.

Mrs. James Dougherty will be hostess tomorrow night at a dancing party at the studio on the Barnes road. Mr. and Mrs. Douglas King will be honor guests. Mrs. C. W. Whitley of Salt Lake will be here for the occasion.

One of the most delightful teas of the summer was given Saturday by Miss Janet Peters and Miss Dorothy McGuire, at the Peters home on Tillamook street. The house was beautifully decorated with summer blossoms, while the tea table held a large arrangement of French colored flowers. Mrs. Hallett Maxwell and Miss Mildred Copeland served ices and tea in the dining room, while Mrs. Addison Knapp (Margaret Marvin) and the Misses Lucile Evans, Miriam Reed and Dorothy Stine assisted about the rooms. Over one hundred guests called during the afternoon.

Eta Alpha chapter of Chi Omega fraternity gave a tea yesterday at the home of Miss Nancy Gavin.

For Mr. and Mrs. George Brooke of Spokane Dr. and Mrs. J. W. Hill entertained last night with a picnic supper and highway trip.

Mrs. L. C. Gilman has been spending the summer days at her country home at Crystal Springs near Seattle and her daughter, Mrs. Fordham Bassett Kimball is with her.

An interesting visitor in Oregon is Mrs. Samuel Kemp, who is the guest of Mr. and Mrs. Charles Gramm. Judge Kemp has joined them, having arrived from Honolulu recently and the party will take a fishing and hunting outing for the month of August.

COATS Luxuriously "Wrappy"

Developed of softly exquisite fabrics and lavishly fur trimmed, they are handsome indeed. Cape collars, bloused backs and loose sleeves distinguish them.

Browns Lead the Way in Suits

Tailored models are of velour-finished weave, while dressier models choose duvetyn, yalama, duvet de laine and peachbloom. Jackets are either much longer or extremely short with full ripple peplums. Skirts are of comfortable width and are 8 to 12 inches from the floor.

Tailored Frocks to the Fore

Vivid embroideries and beading make the new tailored frocks anything but dull. Navy tricot and serge are good, sometimes combined with black satin. Silk dresses elect charmeuse and satin to favor—kitten's ear crepe is THE new material.

Notes of the New

Each day brings in advance models in suits, coats, dresses, blouses and hats. Newness is the keynote of every display—and though fall has not yet arrived, the alert woman knows that early choice is ever wise. Prices are an agreeable surprise, they're so reasonable.

Ready for inspection on the Third Floor Are Hosts of Charming Hats Showing the Newest Ideas for Fall.

Most favored in fashion circles, and shown here in wonderful variety are the smaller hats, most of them in duvetyn or velvet, though the all-feather hat is quite the vogue just now. Wings, burnt goose and ostrich add their quota of loveliness.

Brilliant Colorings Are Favored

Foremost among the new shades is copper, its gleaming tints shading from the brightness of the pure metal to the rich red-brown of mahogany. Blue appears in new tones—Honeybird, Nattier, Corbeau, Sapphire—brown returns to favor in a range of soft woody shades—black, of course, is ever a favorite. Metallic cloth is conspicuous for its dazzling beauty, whether it makes the whole hat or just the crown.

The Story of the Ampico

The story of the Ampico is too big to be covered in words. Let it reach your ear through its music. With the famous Chickering Ampico you may hear in your home the great music masters. The playing is so perfect you do not have to close your eyes to imagine the master pianist is at the keyboard.

He is there with every note of music reproduced precisely as he originally played; there with his individuality; there with his unmistakable touch on the up-leaping keys; there with his subtle interpretations and the fire of his genius—all these which no other reproducing piano has ever been able to accomplish, to record and give forth again as it is given forth by the Ampico.

We cordially invite you to visit our store to see and hear the Ampico. Write for catalogue.

Artificial Teeth Skillfully Made

WHEN you get a set of artificial teeth there is but one thing worth considering, and that is satisfaction. A cheap set, made on the factory plan, will cause endless worry, embarrassment and suffering. Plates that do not fit are little better than no teeth at all.

In offices using the E. R. Parker System are skilled dentists who make artificial teeth exclusively. They do this work exceptionally well because they specialize upon it. The plates they make are guaranteed to fit and to wear for years.

Particular skill is employed to make artificial teeth look natural, and to fit so comfortably and snugly that you can eat and laugh and talk without revealing that your natural teeth are gone.

The price for these satisfactory plates is moderate. You are invited to call and have an examination of your mouth made without charge.
