

SELF-INTEREST MAY PROMPT U. S. ACTION

America Concerned in Poland's Preservation.

VIEWS ARE INTERCHANGED

Announcement of Government's Attitude Toward Red Invasion May Come Shortly.

WASHINGTON, Aug. 7.—Announcement of the attitude of the United States toward the bolshevik invasion of Europe and Asia is not expected until the note addressed to Washington by Poland has been received. An interchange of views is in progress, however, between the United States and French and British governments in an attempt, officials said, to map out a course of action promising results.

U. S. Action Warranted. The view was expressed that the threat of nullification of the victory over Germany was contained in the undertaking said to exist between soviet Russia and Germany and that this offered sufficient provocation for action by the United States. It is held that as a power associated with the allies in the occupation of the Rhineland, the United States maintained an interest in the preservation of the victory, although it had not ratified the peace treaty.

Included among steps the United States might find itself compelled to take, officials suggested, were extension of credits to permit purchase by Poland of surplus war materials, a declaration of moral support for Poland and a warning to the soviet government not to trespass beyond its boundaries.

Military Aid Last Resort. Military aid, it was added, could be considered only if all else failed.

Military authorities suggested that the brigade destined for Silesia and detained in Germany, if sent to Silesia might steady Poland, Caschovina and Germany.

Complete cessation of soviet Russia little promise was seen by some officials of the success of a warning note to the soviet, Russians, for whom such a note would be destined, with a view to arraying them against the government, would be those whom it would never reach, it was said.

CRATER LAKE AID PENDING

PORTLAND CITIZENS DECLARED READY TO ASSIST.

Settlement of Controversy Between Park Director Mather and Hotel Proprietor Awaited.

Portland citizens are ready to go ahead along progressive lines for Crater lake as soon as the present controversy between Manager Parkhurst and Director Mather is settled, declared H. B. Van Duzer, president of the Portland chamber of commerce, last night. The statement was made in advance of a visit expected from Mr. Mather today.

On the occasion of Mr. Mather's recent visit to Portland with the appropriations committee of the national house of representatives, the park director announced that he would oust Parkhurst, and declared that it would be up to the people of Portland and Oregon to see that adequate hotel facilities were maintained at Crater lake. Development at Crater lake as a scenic resort would virtually come to an end unless the people of Oregon provided the necessary hotel facilities, he threatened.

Following his announcement, Governor Olcott declared that he would appeal to the people of Oregon to take care of the Crater lake situation and President Van Duzer stated that the Portland Chamber of Commerce would back such a move. In the meantime, however, Parkhurst has strenuously objected to being deprived of the management of the hotel and the matter is unsettled.

GENERAL MANAGER WANTED

A large well financed manufacturing concern located in Portland wishes to employ as general manager a man with general executive and sales experience.

The business is one that is being and will be expanded very rapidly and we need the best man we can find and will pay a salary in accordance. Unless you know you can qualify for a big job, do not reply. In answering give references and experience. Strictly confidential. Position not now occupied. P 984, Oregonian.

LANE WHEAT IS ARRIVING

1920 Crop Likely to Show Better Average Than Last Year.

EUGENE, Or., Aug. 7.—(Special.)—Lane county fall wheat will begin to arrive at the mill of the Eugene Mill & Elevator company Monday, according to Elmer D. Patne, manager for Kerr, Gifford & Co., owners. Threshing has begun at some points in the county, but it will not be general until some time next week.

Lane county wheat should run from 18 to 20 bushels to the acre, said Mr. Patne, this being a larger yield than last year.

Southern Oregon wheat has already been shipped to the local mills, but none of it has yet been received.

FIRE LOSS IS \$678,395

July Figures for State Not Including Portland Compiled.

SALEM, Or., Aug. 7.—(Special.)—Fire loss in Oregon outside of Portland during the month of July aggregated \$678,395, according to the monthly report issued by the office of A. C. Barber, state fire marshal and state insurance commissioner.

Some of the heavier losses were: Lumber mill at Dallas, \$200,000; lumber plant at Albany, \$100,000; business property at Bend, \$60,000; business property at Eugene, \$70,000; warehouse and adjacent buildings at Medford, \$100,000; elevator at Seaside, \$49,000.

The number of fires totaled 87, of which 20 were dwelling fires. The most common cause of the fire was from chimneys and flues, a total of 19 having been attributed to these causes. Eighteen were of unknown origin.

NEW PARTY RECOGNIZED

Industrial Labor Petitions Are Filed With 8888 Names.

SALEM, Or., Aug. 7.—(Special.)—State recognition today was given the new industrial labor party upon the filing of petitions containing 8888 names, and the party is now at liberty to call a state convention and nominate candidates for office. The number of names required on the petitions is not less than 7955, or 5 per cent of the total vote cast for congressmen in the last previous general election.

E. T. Johns, chairman of the state committee, the name first chosen was socialist-labor party, but Attorney-General Brown held this name would be a trespass upon the name of the present socialist party in this state.

COURT TO PROTECT ROADS

Eugene Reports Are That Heavy Loads Injure Paving.

EUGENE, Or., Aug. 7.—(Special.)—The Lane county court will at once issue orders to owners and drivers of motor trucks warning them to comply with the law regarding the weight of the loads they are allowed to carry over the roads of the county, according to District Attorney L. L. Ray.

The attention of the court has been called during the past few days to the fact that a certain lumberman is said to be hauling as much as ten tons at a time, the law allowing a maximum of five tons. It has been noticed that the edges of the new pavement on the highway between Goshen and Eugene are breaking in places.

WOMAN IS MURDERED

(Continued From First Page.)

fore the shooting. Jewelry was scattered around the floor, and other articles of furniture had been upset.

Mrs. Richards Found Dead. Mrs. Richards was dead when the authorities arrived. She had been shot twice, and both bullets had lodged near her heart.

Dr. Bouchet was delirious, although he opened his eyes and tried to ask for water. He was removed to the hospital in an ambulance, and may recover. Two bullets had struck him, both passing through the left lung and the heart. Inspector McCulloch found four empty cartridges in the room.

State Short of Librarians.

SALEM, Or., Aug. 7.—(Special.)—Oregon is suffering from a shortage of librarians, according to Miss Cornelia Marvin, state librarian, who has a list of eight important posts in the state that should be filled. These include librarians for three counties. The shortage in Oregon is attributed to low salaries paid. Some of the librarians are going to other states where their salaries are paid for the work and others are leaving the profession for other occupations that are more lucrative. The shortage is said to prevail throughout the northwest.

Wilson River Water Right Asked.

SALEM, Or., Aug. 7.—(Special.)—Frank Rearden has applied to the state engineering department for water rights on Wilson river, Tillamook county, to develop power for a prospective pulp and paper mill at Bay City. The filing was a preliminary one and did not state the amount of power which might be developed.

POLES' GOVERNMENT TO MOVE TO CRACOW

Warsaw to Be Evacuated Today, Says Report.

OSTROV FALLS TO REDS

Situation Northeast of Capital Is Said to Be Serious; Allies' Advice Disregarded.

LONDON, Aug. 8.—Warsaw will be evacuated today by the Polish government and representatives of the allied nations, according to a Berlin dispatch.

PRINCIPALS IN TRAGEDY IN APARTMENT HOUSE LAST NIGHT.

DR. NORMAN BOUCHET AND MRS. RUTH RICHARDS.

patch to the London Times under date of Saturday.

The report adds that the Polish government will retire to Cracow. Occupation by the Russians of Ostrov, between the Narow and the Bug, 23 miles southeast of Ostrolenka, reported Friday, is announced in Friday's official communique from Moscow.

PARIS, Aug. 7.—The situation northeast of Warsaw is more disquieting today because of the failure of the Polish staff to take all the measures recommended by the allied military experts, says a foreign office announcement. The Anglo-French mission, the foreign office reports, will not leave Warsaw for several days.

JOHANNESBURG, East Prussia, Aug. 6.—(By the Associated Press.)—Scant sympathy is given Polish refugees who have fled into Germany. They are greeted with more or less contempt by the inhabitants, as they plod along the roads. Most of them are poor women and ragged children. Today a German said to the correspondent: "You know they are Poles. We do not want them; nobody wants them."

On the other hand, Russians reaching here apparently need no sympathy. They are well dressed and educated. Most of them are sympathizers with the imperial regime who have escaped. Alleged atrocities by the bolsheviks are charged by agitated crowds in hotels here.

PARIS, Aug. 7.—Opposition to intervention in Poland against Russian bolsheviks by the French united socialist party has resulted in that organization appealing to members to

take action intended to prevent France from being involved.

"An appeal for the Russian revolution against capitalist imperialism," is the caption under which the committee makes its announcement.

"In concert with the general labor federation," the announcement continues, "it has been decided immediately to organize vigorous action against the plan of brigandage directed against the Russian revolution which may again set fire to Europe."

"Long live the Russian revolution; long live the workers' internationals."

PARIS, Aug. 7.—Thousands of former German prisoners serving in the bolshevik armies, according to information received by the foreign office, are being permitted leaves to Germany.

In the plebiscite districts of Allenstein and Marienwerder, the advices say, German officials are boasting that the Russo-Polish armistice negotiations are only a pretext for the bolsheviks to gain time.

ROME, August 7.—Reports published by French newspapers that Pope Benedict had received an emissary from Poland and had ordered Vatican representatives to press their governments to save Poland are denied by Vatican authorities.

The holy see, they declare, feels the deepest interest in the fate of Poland and keenly desires to see her

POLES NOT YET DESPERATE

Bolshevik Advance on Warsaw Is Declared Halted.

PARIS, Aug. 7.—(By The Associated Press.)—Although Saturday's Polish communique contained favorable points, it does not show that the bolsheviks are being seriously checked. Warsaw advices dated Saturday, however, declare it is only on a small sector facing Drohoczyn that the enemy has crossed the Bug in the Brest-Litovsk district and claim the bolshevik advance on Warsaw from Grodno and Bialostok to the northwest has been stopped.

The municipal council of Warsaw has formed a council of defense. In an appeal to the peasants, Premier Witos says:

"It depends on you whether Poland develops in freedom and well-being or is forced to toll under the Muscovite invaders. The government is seeking an honorable peace. It is better to die than to live enchained."

The communique also says: "Between Ostrolenka and the Bug river our detachments are without contact with the enemy, who is regrouping."

East of Sokolow (east-northeast of Warsaw) fighting continues with enemy troops, who have crossed to the west bank of the Bug.

"In the region of Pratulyna, on the Bug, our troops in repelling the enemy beyond the river, have taken some

troops and captured some machine guns.

"An attack of a mountain regiment has thrown back the enemy on the east bank of the Bug. We took 298 prisoners and a battery of artillery."

"South of Brest-Litovsk we have repelled strong attacks of the enemy on the bridgehead of Siawiatycy."

"In fighting in the district of Brody our detachments, driving back the enemy toward Radziloviff, captured prisoners and war booty."

"In the region of Mikulince the enemy, despite heavy losses, attacked."

"The struggle for the Sereth river continues. We took 340 prisoners and 43 machine guns. Pierce fighting continues in the Ukrainian army's sector."

Nonpartisans to File for Office.

KALAMA, Wash., Aug. 7.—(Special.)—The nonpartisan, triple alliance and allied organization candidates for county offices will not file
