

STATE RECLAMATION FUNDS NEARLY SPENT \$50,000 Appropriated by Legislature in 1913. PROJECTS ARE SURVEYED

Report of Results of Investigation Covering All Units Prepared by Engineer.

SALEM, Or., Aug. 21.—(Special.)—Practically all of the \$50,000 appropriated by the Oregon legislature in 1913 to be expended in the investigation of Oregon projects in co-operation with the United States reclamation service has been expended, according to a report prepared by Percy A. Cupper, state engineer, and forwarded to F. E. Weymouth, chief engineer of the reclamation service, with headquarters at Denver, Colo. On May 5, 1913, according to Mr. Cupper's report, a contract was entered into between the state and the secretary of the interior providing for the expenditure of these funds in the investigation of certain projects and the contract was later supplemented so that information theretofore secured by the reclamation service might be made available for use in the co-operative investigation on condition that the reclamation service should be compensated for the reasonable value of such data, in addition to being reimbursed for expenditures under the co-operative agreement.

Report Covers All Units. The report, as it covers the several units of reclamation service in Oregon, follows: North unit—Deschutes project—Irrigable land, 19,000 acres; bonds voted, \$5,000,000; bonds sold in amount of \$20,000 to cover expense of preparing plans for construction of works essential to reclamation work. West unit—Deschutes project—Indications that this unit may soon be organized into irrigation district or may be brought into Tumalo irrigation district which has already been organized. South unit—Deschutes project—No development has taken place on south unit, which is perhaps due to the rather adverse conclusions set forth in the co-operative report with respect to this unit. East unit—Deschutes project—Almost exclusively unwatered Carey act lands. Tumalo district—This project, being unable to secure necessary supply of water from Tumalo creek, is now looking to the Deschutes river for water. Cause of condition of Deschutes river reclamation of plans may be necessary. Deschutes project—Practically completed for irrigation of 22,000 acres of land. Estimated cost of project \$10,000, which will be sufficient to bring project up to highest state of efficiency. Malheur district—Lands covered by this district now included in Warm Springs irrigation project, under construction. Heated prior to organization of district or co-operative investigation, dam constructed, two pumping plants installed and 32,000 acre-feet of water stored in reservoir; outstanding bond issue, \$1,500,000. Silver Lake district—Total acreage, 8000 acres; water taken from river; project is being carried out in stages. Silver Lake district—Total acreage, 17,000 acres; suggested revision of plans involves elimination of some lands in upper valley and inclusion of the party irrigated lands of the lower valley. Henry basin district—Total acreage, 80,000 acres; surveys now in progress for actual construction; water to be obtained from Silver river; Pacific Livestock company and the William Hanley company, two largest land owners in district represented on board of directors. 300,000 Acres in District. John Day district—Total acreage, 300,000 acres; surveys in progress with view of ascertaining there is any cheaper or more satisfactory method of reclaiming these lands than that set forth in co-operative report. Rogue river project—Preliminary investigation resulted in organization of Grant, Medford and Eagle Point irrigation districts. Talent district—Total acreage, 11,000 acres; revision of plans necessary because of insufficient water supply; bonds in amount of \$232,000, between \$500,000 and \$1,000,000 needed to complete project. Madras district—Total acreage, 20,000 acres; contract entered into whereby Rogue River Canal company will do necessary construction work and deliver water to district for approximately \$125 an acre. 8000 Acres in Eagle Point. Eagle Point district—Total acreage, 8000 acres; water to be obtained from Little Butte creek. Warner valley project—Lands selected under Carter act referred to reclamation service; no particular activity. Clatsop district—Organization more or less inactive. Warner valley project—Lands selected under Carter act referred to reclamation service; no particular activity. Wapinitia irrigation company—Carrying forward work to reclaim part of Wapinitia lands. In the Willamette valley no definite results have been obtained in the way of developments outlined in co-operative report.

NEW OFFICERS GET BUSY

Ex-Service Men Notified They Will Get Increases Next Month. Newly elected officers of the Federal Vocational Students' association assumed their duties yesterday following election held at a meeting in the central library. The officers are: Earl D. Meyers, president; C. M. Kawse, vice-president; John Van Etter, secretary and treasurer.

BRIDEGROOM IS ARRESTED

Girl Married in Lion's Den of Show Reported Beaten. ABERDEEN, Wash., Aug. 21.—(Special.)—A marriage in a lion's den is not conducive to martial harmony, if the case of Josephine Tronk and William Carter, married Wednesday night in the main show of a carnival company here, may be cited as an example.

U. S. LAW NOT VIOLATED

Discharged Policeman Made 26 Arrests in 30-Day Period. Investigation of the actions of C. F. Parker, plain cloth policeman in the narcotics squad, discharged Friday for having opium in his possession, completely exonerated the officer so far as there was a possibility of placing federal charges against him.

CONTEST BRINGS RIVALRY

SONG WRITERS TRY FOR PRIZE OF REPUBLICANS.

Joe Dunne and Emerol Stacy Hold Leading Honors for Recognition of Efforts. Joe Dunne and Emerol Stacy, of 463 Salmon street, are leading honors in the song writing contest for a republican campaign song. Dunne has written a possible winner in the rhythm of "Let the Rest of the World Go By." The fascinating ditty which created havoc in the minds of staid Portlanders during a recent convention, "How" will surely get voters for Harding, Stanton and McArthur when Stacy's lines are sung, accompanied by a long stretch of the arm just as the Iowa did when they sang, "That's where the tall corn grows." Two stanzas of Stacy's masterpiece are: We are for Harding! Harding! Harding is the best. We are for Harding! Harding! Harding for president! We are for Harding! Harding! Vote the ticket straight! Harding for president! John L. Day while plagiarizing for the good of the party, added the following lines: We are for Standfield! Standfield! Can help Harding best. Standfield for president! Standfield for senator.

COMMUNITY PASTOR HERE

Reverend George C. Richmond Visits City en Route to Seattle. Rev. George Chalmers Richmond, pastor of the Central church of St. Louis, is in the Multnomah city for a few days, en route to Tacoma, Seattle and Vancouver. He is on an extended tour of the west obtaining material for a series of lectures to be given this fall on the subject, "Is Christianity a Failure in the United States?"

Legionnaires to Entertain.

Elaborate plans are being made by Portland post of the American Legion to entertain members and friends on the river boat Bluebird next Friday night. In connection with the dancing party to be held under post auspices, a special music and entertainment features, arranged by Dr. A. C. Van Cleave and Billy Poy. Paper cases bearing the name of the American Legion emblem will be distributed during the evening. During the dances Michael Brennan and Jerry Ryan will sing. Tickets may be secured from Portland post or state headquarters of the legion. General arrangements are under the direction of James R. Bain, acting post commander.

PACIFIC UNIVERSITY ADDS TO FACULTY

GRADUATE IS LIBRARIAN

NEW INSTRUCTORS ADDED TO TEACHING STAFF OF PACIFIC UNIVERSITY.

Extensive plans for the coming school year at Pacific university, Forest Grove, one of the oldest in the northwest, will include the addition of several new instructors to the teaching staff. Miss Lottie S. Peters, a graduate of Pacific university, who received her training in the Syracuse library school and was employed during the last year at the Salem public library. Don M. Dailey will have charge of the history and economics department. The new librarian and registrar will be Miss Lottie S. Peters, a graduate of Pacific university, who received her training in the Syracuse library school and was employed during the last year at the Salem public library.

HARDING-COOLIDGE LEGIONS MULTIPLY

OREGON TO GO ACROSS

Cox Sized Up Right by The Oregonian, Says Man Who Once Worked in Nominer's Office.

The elderly, middle-aged and youthful voters of Portland daily crowd the headquarters of the Harding-Coolidge club, Northwestern National Bank building, eager to enlist in the effort to put "republicanism over with a bang." Contrast came in the visit of Mrs. Lovertia Sherwood, 4419 Forty-fourth street east, who heard a Lincoln address three days before the immortal inauguration, and Frederick K. Krueger, who will cast his first vote this year for Harding. Each joined the club to work "tooth and nail for Harding and Coolidge—to contribute our mite in the fight." Mrs. Sherwood talks enthusiastically of Harding: "You know," she says, "he is another McKinley; he looks like him and acts like him and it is all very natural—for he was schooled under him in Ohio political affairs." Mrs. Sherwood was born in Cleveland 50 years ago and tells interestingly the details of Lincoln's trip through Cleveland to Washington when he first assumed the duties of president.

Left—Harold S. Tuttle, head of the department of education. Right—Miss Hulda Luechauer, in charge of physical training for women and director of Herick Hall.

tion and theory and practice of teaching. His graduate work was taken at the Pacific School of Religion and the University of California. He has had very successful experience in high school teaching and has been in great demand for extension work. Miss Hulda Luechauer, graduate of Oberlin college in physical education, will head the physical training department for women. In addition to her work at Oberlin, Miss Luechauer has completed a domestic science course at Cleveland, and has done playground work in Cleveland and Baltimore. The department of mathematics and physics will be headed by Dr. Henry F. Price, a graduate of Swarthmore college and the holder of a master's and doctor's degrees from the University of Pennsylvania. Mr. Price was formerly an instructor at Pacific university and has been teaching in the James John and Washington high schools and also in summer and night schools.

Chief Clerk Gets New Position. Effective September 1, J. A. T. Hemmings, for the last ten years chief clerk in the car service department of the Oregon-Washington Railroad & Navigation company will quit the office to become assistant to R. A. Stewart, agent of the Stewart Bros. Co., dealing in loggers' supplies. Mr. Hemmings had been with the railroad company for 18 years, starting in as office boy. P. J. Lynch, graduate of Pacific university, will succeed to the position of chief clerk.

The CHENEY

Enriched in Its Own Melody The Cheney has that unusual quality of the violin—"The Longer You Play It, the Sweeter It Grows."

When first you choose it for your home, it plays more beautifully than ever you have heard music reproduced. And then as years go by, it sweetens and mellows in its own melody, constantly enhancing in value.

Cheney period cabinets are masterpieces of furniture craftsmanship. Refined, quietly elegant, they blend harmoniously into any setting.

The Cheney costs no more than ordinary Phonographs.

BIG PICNIC IS PLANNED

Birth of New Town of Glenbrook Is to Be Celebrated.

FISH TO BE ABUNDANT

3,000,000 Trout Fry to Be Planted in Oregon Lakes. BEND, Or., Aug. 21.—(Special.)—Before the end of September Purl Lynes, of the Tumalo hatchery will distribute 3,000,000 trout fry in the lakes and streams of central Oregon. So far more than 1,000,000 eastern brook trout fry have been planted and double that number remain to be distributed. These go almost entirely to land-locked lakes, as this species when planted in a lake with an outlet, quickly follow the stream, leaving the lake untenanted. Nearly \$800,000 brook trout eggs were taken from Elk lake last year but a large number were sent out to other hatcheries, as the capacity of the Tumalo plant did not permit of handling so large a quantity. Rainbow spawn was taken late in the evening, chiefly from Odell lake and 800,000 fry will be ready for planting after September 1.

FOWL CULLING IS SHOWN

Demonstrations at Gresham Attract Poultrymen.

J. S. Birdsell's Funeral Tomorrow.

—Demonstrations of poultry culling by Professor H. E. Crosby, state poultry specialist from Oregon Agricultural college, attracted a large number of local poultrymen who took part in the field tour to the poultry plants of the Multnomah farm, the J. O'Donnell farm in Gresham, the C. Campbell farm at Springdale, the D. T. Williams farm at Orient and the Taylor farm in Pleasant Valley this week. The local poultrymen's co-operative league and S. B. Hall, county agriculturalist, sponsored the poultry show. J. S. Birdsell's Funeral Tomorrow. VANCOUVER, Wash., Aug. 21.—(Special.)—John Sanford Birdsell, who died yesterday, will be buried at 2 o'clock Monday. Funeral services will be conducted by Rev. C. C. Curtis of the Christian church at the chapel, and by the Grand Army veterans at the grave in the post cemetery with full military honors. Mr. Birdsell was 83 years old, and joined the Union Army in 1861 and fought in the battle of Bull Run and at Gettysburg, where he was wounded. He was also wounded in action before Richmond. He married Miss Rebecca Wilcox in Vancouver July 18, 1867. The widow, a son and two daughters survive. Main 7070. Automatic 560-55.
