

DAY'S ACCIDENTS 33; FIVE PERSONS HURT

Motorcycle Patrolman Ingle Among Victims.

BRAKES FAIL TO OPERATE

Investigators Report Saturday Full of Ill Luck, Though Without Abnormal Conditions.

Five persons were injured, none of them fatally, in five automobile accidents yesterday in various parts of the city, making Saturday a record day for some time in the annals of the accident bureau of the traffic department at the police station.

Officials of the traffic department could not account for the numerous automobile accidents yesterday, as the streets were dry at all times of the day and there were apparently no abnormal conditions to cause accidents. Clerks and traffic investigators in the accident bureau were busy during the entire day compiling reports and data on the numerous accidents. Up to 6 o'clock last night a total of 33 had been reported.

Girl, 4, Injured by Auto. Mary Mesher, four-year-old daughter of Mr. and Mrs. S. A. Mesher, 545 Third street, was struck and severely injured by an automobile driven by Rex Hopkins of Riverwood, Or., at the corner of Third and Carruthers street, yesterday at 4 P. M. The little girl was taken to the home of her grandmother, Mrs. Anna Mesher, 423 Third street, where it was found that she had sustained severe bruises to the back.

Hopkins, who is 16 years of age, was arrested on a charge of operating a machine with brakes out of order following investigation of the accident by Patrolman Yost, who reported that only one brake was in operating condition, and that the machine had skidded a distance of 111 feet prior to the impact. Hopkins was released after posting a \$500 bond and is slated to appear before Judge Rossman on Tuesday.

Pedestrian Knocked on to Lot. James E. Murdoch, 616 South Vancouver street, was struck and injured by an automobile driven by H. W. Stelman of Milwaukee, Or., at the intersection of Williams and Polk streets. According to Murdoch's report, he had just alighted from the running-board of another machine, the interaction between Stelman's machine and the car struck him, knocking him ten feet into the gutter and into an adjoining lot.

Motorcycle Patrolman Shell Ingle was one of the victims of yesterday's accidents, when the motorcycle he was riding was struck by a car driven by L. R. Huffman of 1548 Fremont street. Huffman was immediately placed under arrest by Ingle on a charge of cutting corners and escorted to the police station. Ingle sustained bruises on the left leg as a result of the collision.

Child Hurt by Horse. Ralph Stevens, 15, of 794 Water street, sustained a crushed heel when he was run over by a truck driven by L. A. Leavenworth, 489 East Sixth street, yesterday morning. Stevens was reported by his mother, Mrs. Vincent, to be in the path of the heavy machine when it was at the corner of 15th and Commercial streets. The operation might not be necessary.

Two-year-old George Albert, son of Conrad Albert, 701 15th street, sustained a fractured arm when he was knocked down and stepped on by one of a team of horses driven by J. Connoie, 63 West Jarrett street. The driver reported to the police that he was driving the team at walking pace, proceeding east on Alder street. As he passed the intersection of Alder and First street, he said, he heard the child cry and saw that it was under the horse's feet. The child was treated at the emergency hospital.

CAMP TRACTS AVAILABLE

CITY HAS NO FUNDS TO DEVELOP FOREST LANDS.

Plans to Give Portland Opportunity to Enjoy Sites Are Discussed at Meeting.

Plans whereby Portland residents may be enabled to make greater use of the national forests for camping and recreation purposes were discussed at a meeting yesterday morning of the committee recently appointed to look into the matter with officials of the forestry department here. The meeting was held in the green room of the Portland Chamber of Commerce, and was presided over by Judge Kansler, chairman.

Present for the forestry department were C. J. Buck and T. H. Sherrard, and they reported that forest tracts are available if the city will take charge of the development. Commissioner Pitt, who attended on behalf of the city, reported that hardly any money is available for such work, but that a start might be made along

BUNIONS!

Pain Stops Instantly - Hump Vanishes TRY IT AT MY RISK

New, marvelous way to treat bunions. Stops pain instantly - banishes the ugly hump and tired, burning condition.

You can wear a shoe with perfect comfort. Test it at my risk. First trial convinces.

OUCH! MY BUNION!

REED COLLEGE GETS ENROLLMENT OF 275

Faculty One of Strongest in School's History.

NEW INSTRUCTORS ADDED

Men and Women Engaged to Teach in Institution Highly Successful in Work.

Reed college began its 10th year last Monday with an enrollment of over 275, a larger faculty and as strong as any in its history. New faculty heads have been secured in the departments of English, psychology, biology, chemistry and assistant professors in economics, German and romance languages. Dr. Knowlton, who has been professor of physics at Reed the last nine years, spent two months in the east during the summer and was highly successful in securing good faculty material.

CARNIVAL CLOSES FAIR HOOD RIVER EXHIBITION IS PRONOUNCED SUCCESS. Community Displays Most Remarkable Ever Shown - Big Part Played by Children.

HOOD RIVER, Or., Sept. 18.—(Special.)—With ideal weather, the second annual Hood river country fair closed tonight with a carnival on the high school athletic grounds. More than 3000 adults attended the exhibition today and children, whose entries in the annual industrial school fair were more numerous than any at its history, were present in large numbers. School exhibits from every valley district were displayed.

The most unique community exhibit ever shown here was that of the Frankton district, which won the blue ribbon in its class. The display consisted of a contour representation of the community itself, with the Columbia river highway, O-W-R & N lines and Columbia river bounding it on the north. Even the Mitchell's point tunnel was graphically imitated.

COOS, CURRY FAIR ENDS Exhibit Best in County's History. Crowds Brave Rain.

MARSHFIELD, Or., Sept. 18.—(Special.)—The Coos and Curry county fair closed a successful season of four days tonight. Unusual crowds gathered Friday and today.

McMINNVILLE HAS MORE THAN 260. McMinnville college passed the 260 mark in enrollment of students for the first three days' registration. This is the largest number enrolling the first week in the history of the institution. More than 100 of this number are new students, 67 being freshmen. An encouraging feature of the enrollment is the small number attending in the preparatory department.

NEW CASKET IS INVENTED

Crane Nurse Seeks Patent on Air-Tight Aluminum Container.

CRANE, Or., Sept. 18.—(Special.)—Mrs. Golden O. Brady, nurse of this place, has invented an aluminum burial casket, on which she has applied for patent rights. The casket is air and water tight and is said to be convenient for transporting.

PRISONER GETS RESPITE CONVICTED MAN'S RECORD TO BE INVESTIGATED.

A respite of two weeks, which will be spent in the county jail, before sentence to the state penitentiary, was gained by Charles White, convicted forger, yesterday morning, when Circuit Judge Kavanaugh Histed to his objection to the introduction of a criminal record he claimed was partly false. Passage of sentence was postponed until October 2, to permit District Attorney Evans to investigate the accuracy of reports charging that White had been in prison in five states for crimes ranging from forgery to bigamy.

White admitted he was convicted in Chicago, where he had been a practicing attorney, of subornation of perjury, disbarred and sentenced to Joliet, and that he had served time in the Oregon penitentiary for forgery, but denied other convictions. The prisoner avowed that his true name was George P. Haskell. He was arrested in Portland just before Shrine week with a forged letter of credit, showing a fictitious account of \$20,000 in a Texas bank. The specific charge against him is the passage of a \$50 check.

GARBAGE ISSUE WAITS COUNCIL NOT TO SUBMIT MATTER TO VOTERS AT COMING ELECTION.

Plans for a change in the method of garbage collection and disposal will not be submitted to the voters at the November election, it was decided at an informal meeting of the city council yesterday.

Professor to Be Named. Assisting in this department is Miss Anna Nilson, Reed 1919. Dr. Gardner C. Bassett is head of the psychology department. He was formerly assistant professor of psychology at Stanford university, Cleveland, Ohio, and is now professor of business administration of the University of Washington. He is assistant professor of economics. The board of regents will appoint a successor to Professor H. B. Hastings, to give courses in applied economics.

ROAD TOUR ARRANGED Nominations for Legislature Invited to Take Trip Over Highways.

Republican nominees for the state legislature from Multnomah county have been invited to make a survey of county roads Monday in company with County Commissioner Holman that they may acquaint themselves with the needs of the county along highway building lines. They will traverse the Canyon road, Bertha-Beaverton road, and Pacific highway through Oregon City, leaving the courthouse about 1:30 P. M.

Miss Crellin Is Registrar. Dr. L. E. Griffin, head of the biology department, was professor of zoology at the University of Pittsburg. He will, however, not arrive until October 1, and Dr. Torrey of the University of Oregon faculty will conduct the courses until Dr. Griffin's arrival. Matthew Kiddle is instructor in biology.

WOODMEN HOLD BIG RALLY.

COTTAGE GROVE, Or., Sept. 18.—(Special.)—The Woodmen of the World lodge held a big rally Wednesday evening when Representative Hawley of Salem and J. D. Wilson of Portland, head managers of the organization, were the principal speakers.

Election Results Ratified. VANCOUVER, Wash., Sept. 18.—(Special.)—The official count of the recent primary election was held by the county commissioners, auditor and county attorney, who form the canvassing board. No great changes were made in the total from the unofficial returns.

In the contest between William Paul and E. L. Dorman, for county commissioner from the 3d district, Dr. Paul gained five votes, making his total \$23 to \$14 secured by Mr. Dorman. This was his closest contest in the primary.
