

BOULEVARD IS NAMED FOR CITY'S ROSEWAY

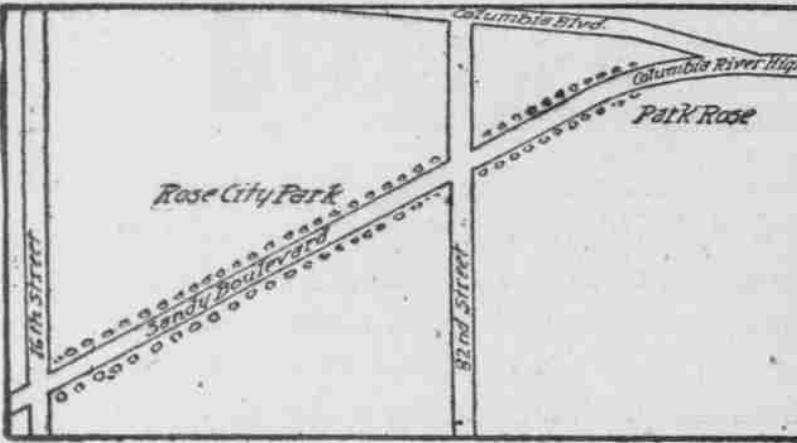

Entrance to Columbia River Highway to Be Bordered.

15,000 SLIPS TO BE SET

Bushes to Be Planted in Parking Next Year Along Sandy; Planting Campaign Planned.

Fifteen thousand rose slips are to be set out during the next few weeks to be grown into bushes for Portland's roseway, according to assurance which has been given the Ad club committee in charge of the movement.

SANDY BOULEVARD WILL BECOME PORTLAND ROSEWAY.

by the city government. The bushes will be propagated under the charge of the park bureau and later will take their part in a general scheme to make Portland more than ever the rose city of America.

Portland's roseway, it has been decided, will be Sandy boulevard, the entrance to the Columbia highway, and rose bushes are to be planted along the parking strips from Sixty-second to Eighty-second street. The street will be bordered on both sides with roses, making an entrance to the world-famous highway which will make a lasting impression on the thousands of visitors who travel over it.

Ad Club Backs Plan. The movement to turn Sandy boulevard into a roseway was inaugurated by the Portland Ad club, and plans have been furthered by the Ad club committee, of which H. H. Haynes, Samuel Lancaster, W. E. Conklin, A. J. Clark and H. W. Stone are members.

The plan was recently placed before the city government at a meeting attended by Mayor Baker, Commissioner Pier, Park Superintendent Keyser, J. A. Curry and H. J. Bissinger of the Rose society.

Following the conference it was announced that the city will establish a nursery at Mount Taber park for the raising of 15,000 rose bushes from slips. These slips will be set out this fall and a year from the coming November the resulting plants will be put out in the parking strips along the boulevard.

A continuous line of roses from one end of the boulevard to the other will thus be provided, with uniformity and beauty of note. Caroline Testout and Dorothy Perkins roses will be used.

Rose Growing Urged. In approving of the plan, which has as one of its main objects continuing the supremacy of Portland as the rose city of America, Mayor Baker called upon the people throughout the city and particularly of that section to "get a slip from your neighbor and grow a rose of your own."

During the next few weeks a lively campaign is planned by the ad club committee to urge planting of slips and rose bushes and in this connection the park bureau has arranged for a demonstration slip garden at the Rose City Park fire station. Those who desire to learn how to prepare the ground and start the bushes from slips will be advised to visit this garden. Firemen at the various stations throughout the city will be instructed by the park bureau and will be in a position to pass on their information to any who call upon them, and for the benefit of business men who attend the various civic luncheons Mr. Curry, a prominent member of the rose society, will give a series of slip demonstrations, beginning with the ad-club luncheon a week from Wednesday.

Planting Campaign Planned. When a year has rolled around and the slips have grown into sizable bushes a planting campaign will be waged by the ad club committee, and the various civic clubs will be asked to aid the city in the work of planting the thousands of bushes in the parking strips. A different territory will be allotted to each club and prizes will be awarded to the club which accomplishes the planting in the quickest time and most satisfactory manner.

The people of Park Rose, through the Park Rose Community club, have promised to do their part in extending the roseway from Eighty-second street on through the Park Rose district, and will carry out the work simultaneously with the work on the rest of the boulevard, and along harmonious lines.

COUNTY MAY BUY BONDS

INTERSTATE BRIDGE SECURITIES NOW AT DISCOUNT.

Commissioner Holman Recommends Purchase of \$50,000 With Surplus From Toll Charges.

Purchase by Multnomah county of \$50,000 worth of outstanding interstate bridge bonds out of the earnings from toll charges on that structure, by which \$2600 a year interest would be saved, is the suggestion of County Commissioner Holman, adopted at a special meeting of the county commissioners.

That the procedure would be good business is indicated by the representation to the commissioners by local bond men that the interstate bridge bonds now are being offered at a discount, though they originally brought a premium. The bulk of the \$1,250,000 issue was placed in New England.

"I anticipate no difficulty in buying these bonds as they bear only 5 per cent interest and financiers tell us that money is worth 8 per cent today," said Mr. Holman. "For that reason I believe bondholders will be glad to surrender them and invest in securities producing a greater revenue."

The bridge bonds were floated by Morris Brothers of Portland and the Harris Trust Co. of Chicago. F. B. Pratt of the local bond house met with the commissioners.

In a statement prepared by Commissioner Holman it was shown that the interstate bridge earned \$18,645.59 net during August, giving the bridge fund a total of \$241,264.71. Of that amount, \$153,112.41 is due the state, leaving a balance of \$88,152.30. Estimated earnings of the bridge from September, 1920, to July, 1921, are \$12,972.11 a month, or a total of \$129,710, making the surplus in July \$217,872.40.

Out of that amount two interest payments of \$27,500 each must be met and \$50,000 worth of bonds retired.

Karl J. Stackland, orchardist, shipped six carloads of fancy cherries to eastern points, and 11 cars to canneries, for which growers received \$41,000.

Lambe Bring \$8.50. COVE, Or., Sept. 25.—(Special).—Robert S. French of French brothers, breeders of thoroughbred sheep, one mlie out of Cove, returned this morning after selling their spring crop of lambs at \$8.50 a head.
