

The Manning Gas Maker

CHEAPER

QUICKER HOTTER

CLEANER

No More Splinters and Pitch for the Wife's Hands!

No More Kindling to Split!

Cook and Heat With a Manning Gas Maker

Generates gas from Kerosene Oil supplied by air pressure from storage tank. Can be fitted in any cook stove, range, heater, furnace, water heater, or in fact any place that a good heat is required, without alteration of any of these appliances. Just use the old stove.

The Manning Gas Maker

AGENTS WANTED

Millions of chances to sell MANNING GAS MAKERS because there are that many wood and coal-burning stoves and ranges in constant use in the United States.

is the realization of the country dweller's great desire. It gives you an odorless, hot gas flame instantly. No waiting for the fire to burn up---No unsightly and dirty wood box to clutter up your kitchen.

Demonstrated Daily at Our Salesroom

Individual Features of the Manning Gas Maker

- Automatic control of fuel.
- Quick lighting.
- Easy to operate.
- Needle valve regulation (set the flame high or low and it stays where you put it).
- Direct flame for boiling.
- Side flame for baking and heating water coil.
- Absolute cleanliness (no soot, smoke or odor).
- No wicks to trim or asbestos rings to clean.
- A Great Labor Saver.

FURNITURE PRICES STAND

PORTLAND DEALER EXPECTS LITTLE CHANGE IN MARKET.

John Casey, Back From East, Says High Cost of Labor Probably Will Prevent Reductions.

"Nothing very definite can be predicted about the future trend of furniture prices until after the presidential election," said John Casey, of the Powers Furniture company, on his return yesterday from a month's trip which included visits in New York, Chicago and San Francisco.

"The primary purpose of my trip was to investigate conditions in the floor-covering market," said Mr. Casey, "but I had an opportunity to make personal observations of other branches of our business, and on the whole feel very optimistic about the retail situation."

"The sentiment of the east seems to be overwhelmingly in favor of Senator Harding, but business is always affected by a national election, and many firms are sitting tight until the result is known."

"In the floor-covering market, carpets, rugs and linoleums retain their April prices for those of staple quality, but prices have been cut somewhat for goods of higher grades."

"The great problem of the manufacturer now is the high cost of labor. As long as high wages are in vogue it is difficult for manufacturers to turn out products at a profit."

"I am looking forward to a busy Christmas trade, for Portland seems particularly prosperous in comparison with many other large cities throughout the country."

SUGAR RISE IS DELAYED

Dealers Cannot Increase Prices to Cover Old Stocks.

Retail prices of sugar in Portland are not due for a boost on account of the recent increase in wholesale prices until the stock bought at the lower price is exhausted. The Portland office of the federal attorney-general's office received yesterday by mail a letter from the Portland attorney. However, one ray of hope for getting a better price is extended to the dealers in that they may be permitted to equalize their purchase price by pooling all their purchases and dividing the costs on the basis of the entire valuation.

"This, in short, seems to mean that where jobbers or retailers have on hand supplies purchased prior to the recent rise of \$1 a sack they must first dispose of this at the lower mark before selling any of their last purchases made at the advanced price and cannot ask the increase that would be in excess of a reasonable profit as figured under the provisions of the Lever act unless they wish to group their purchases together and sell at an average rate."

Practical Jokes Sometimes Costly to Jokers.

Bert Armstrong and Lewis West Probably Will Not "Kidnap" Any More Girls.

PRACTICAL jokes may be all right in their place, but there's always a tendency for the joker to go a bit too far, and it often happens that a lot of grief is the net result of thoughtless pranks.

Bert Armstrong and Lewis West thought it would be great stuff to concoct a kidnaping plot against a couple of girl friends, Ethel Marsum and Florence Richards, and when the girls returned to their home in the Terminus apartments, Knott street and Mississippi avenue, they found a pair of scissors she first at- tempted to stab herself and then st- ruck the men. Then she fainted.

"I'll try never to see you again," promised Mary, as she bade the judge and a single tusk.

A single tusk of an East African bull elephant has been known to weigh 225 pounds.

Cooling Pigeons Interfere With Divorce Cases.

Birds Have Colony Between Floors of Lion County Courthouse.

ALBANY, Or., Oct. 23.—(Special.)—The cooling of pigeons generally accompanies the granting of divorces in Linn county now, for a flock of pigeons has taken up a domicile in the county courthouse here and the birds make themselves heard frequently in the circuit court room.

For that matter, the cooling accom- panies most court proceedings here now, but the birds have been particu- larly active in this regard during the past two weeks, when a number of divorce cases were tried.

When the old courthouse was re- modeled and a third story added sev- eral years ago the work of putting a new structure on an old caused the leaving of an aperture over the door in the offices of the county clerk and county assessor, this space being be- lieved to be the entrance of the birds. During the summer months this year, to aid in ventilation, a window was let down which made an opening in this aper- ture over the vault in the assessor's office. The flock of pigeons took pos- session of this space for a nesting place and county officers say that from all indications they have reared several broods in there since.

Because some of the birds have been in there ever since and no one could get in there to drive them out, it has not been possible to close up the en- trance to this aperture permanently.

It is planned, however, when the hatching season is finally ended and the birds all get out to take an airing, to close this entrance and banish the pigeons from their present domi- cile.

In the meantime the birds have been making merry in their new headquarters and, as their domicile is directly beneath the floor of the cir- cuit court room, they have inter- fered their cooling amidst the tribulations being aired above them.

Politics Active in White Salmon.

WHITE SALMON, Wash., Oct. 23.—(Special.)—As the time for the elec- tion draws near the political atmos- phere in White Salmon is getting warmer, with frequent meetings in the interest of the leading parties. The republicans held a well-attended meeting early in the week, at which speaker explained what the result would be if the non-partisan party should be successful. Thursday the democrats bought up the Leo theater for that evening, giving the full movie programme, followed by an address by Hon. George F. Cottrell, democratic candidate for United States senator, on the league of nations.

CITY CLUB FAVORS BILL

MARKET MEASURE TO BENEFIT PRODUCERS, SAYS REPORT

Errors and Abuses of Law Will Be Corrected by People, Com- mittee Declares.

With indorsement of the principles of co-operative marketing and affirming that the producers of the state of Oregon are in need of intelligent and authoritative leadership in the carry- ing out of this movement, the legisla- tive committee of the City club of Portland has submitted a report recom- mending support for the state market commission bill which is on the ballot at the coming election.

In a lengthy analysis of the bill the committee's report undertakes to set forth all the arguments for the bill as well as those against it and state in their finding that despite some merit in the arguments opposed to the act, they urge its support for the reason that they believe any defects in the act itself can be cor- rected by the legislature.

In concluding the report the state- ment made by the committee is as follows: "Recognizing that a large major- ity of the producers of dairy and farm

products in the state are without any leadership in co-operative marketing when they are in sore need of intelli- gent and authoritative leadership; be- lieving in the principles of co-opera- tive marketing and believing that the people of the state of Oregon will correct errors or abuses of the law, which the bill proposes, your com- mittee, notwithstanding the merit of some of the opposing arguments ad- vanced, recommends support of the bill."

BEAVER ANNUAL STARTED

Book of Nearly 600 Pages Is to Be Issued This Year by College.

OREGON AGRICULTURAL COL- LEGE, Corvallis, Oct. 23.—(Special.)—The 1922 Beaver annual, college year book, is now well under way, the staff having been appointed and ac- tual work commenced. The book this year will be larger than ever, contain- ing nearly 600 pages, of photographs, stories and art work depicting the happenings of the year. A number of new features are to be incorporated in it this year, including novel pho- tographic effects and color title pages, according to Claude F. Palmer of Portland, editor, and E. B. Price of Woodlake, Cal., business manager.

Harold W. Reardon, Portland; Grace Sandow, Corvallis, and Jeanette Cramer, Grants Pass, have been ap- pointed assistant editors. Elmer Ram- sey, Portland, will be circulation man-

“The Third District in Congress”

Five Reel Comedy Featuring MAWSH McARTHUR

Reel II—Mawsh on "Labor"

THE Esch-Cummins railroad bill has become a law. It legalizes about \$6,000,000,000 worth of watered stock, and guarantees to the railroads a six per cent return on the whole property, real or fictitious—a guarantee which must be paid for out of the pockets of the people. It was legisla- tion which, careful economists estimate, will cost the average family \$250.00 a year. It takes out of the hands of labor the right to fight for itself. Labor must depend on compulsory arbitration. The commission which, acting under the provisions of the law, gave the workers about 50% of what they asked for, immediately gave the railroads 2% more than they asked for. Whence up go the rates. And every profiteer in the country gets hold of a new handle for boosting his profits and blaming it on the increased freight rates. The public purse is made to bleed at both ends.

PHOTOGRAPHY IS TAUGHT

New Course at Corvallis Is Proving Popular and Classes Grow.

OREGON AGRICULTURAL COL- LEGE, Corvallis, Oct. 23.—(Special.)—Photography, first taught in the college last spring, is becoming a popular minor subject, the registra- tion in the course having increased 25 per cent over last term's. Robert W. Upborn, instructor in the depart- ment of physics, devotes all of his time to this work.

Eighteen students were enrolled last spring, all of them being men, while 51 are registered this term, in- cluding six women. The elementary course in photography consists of work in the practical use of the cam- era, photographic processes, enlarg- ing, photography of colored objects, and making lantern slides. Advanced photography will be taught next term. This will consist of either pho- torial or commercial photography.

Damage by Rain Causes Suit

Rain pouring through a defective skylight onto a quantity of silk and satin dresses did \$4973.45 worth of damage to them, according to F. Blank, who yesterday filed a suit against Elizabeth M. Smith to recover this amount. The defendant owns the building at Fourth and Morrison streets in which the store operated by Blank is located.

“The Farmer Says”

“for stumping genuine GIANT has no equal”

From recent letters of ten farmers who have used Giant Powders for Stumping we make these extracts:

1. Your Giant Farm Powders shoot the roots, 2. They have wide breaking power and less bad gases than others.
3. I get the same excellent results from them every time.
4. They are always uniform.
5. I used eleven tons and wouldn't have any other make.
6. I want to sell a lot of other powder that I have because Giant does the work much better.
7. Genuine Giant can't be equalled.
8. I don't have to use so much powder when I blast with Giant.
9. You know what we need for stumping.
10. I save money by using Giant Powders.

Write today for our free book, "Better Farming With Giant Farm Powders." It tells how to save money and get better results in stumping, ditch- ing, tree-planting, etc.
