Although the gift season is many weeks away, we feel it necessary to urge our customers to consider the purchase of Ivory Pyralin at the earliest possible moment. In the past three or four years the demand for Ivory Pyralin toilet articles has been so enormous that stocks have been almost entirely depleted many days before Christmas arrived. While we have bought for this year larger quantities than ever before, yet so popular has Ivory Pyralin become that we have no doubt that our experience in past years will be repeated.

Therefore, we urge you to anticipate your gift needs and to purchase the desired articles now, when you will find complete stocks at each of the Stout-Lyons Drug Stores. You will save yourselves the disappointment of finding incomplete lines and also avoid the rush of last-minute Christmas shopping.
