

YULE CHEER FUND NOW TOTALS \$1850

Many Open Purses and Add \$356 in Day.

FAMILY OF 11 IN NEED

Father Out of Work; Daughter, Deserted, Toils in Laundry; 8 Children Lack Clothing.

With the holidays almost at hand, contributions to the fund that is to give needy families in Portland Christmas cheer are coming in more rapidly. Visitors from the public welfare bureau, which is to superintend distribution of the money, are working all hours of the day and night to call upon worthy cases that are to benefit through this fund. Yesterday \$356 was turned in, making a total of \$1850.

One particularly difficult family to handle is that of 11 adults and children, who have up to the present been living in one room. They have just arranged to move to a three-room cottage on the outskirts of town, which they are to rent at \$8 a month. The father recently lost the work which brought him \$4 a day and is now able to pick up but few odd jobs. His eldest daughter married and was deserted by her husband. While she works in a laundry her mother cares for her baby.

Of the eight children, there are two girls aged 11 and 13, who need clothing and "big sister" care more than anything else. All of the tots are sadly lacking as to underclothes and every sort of clothing. Whatever Christmas goes into that home must come from the outside, as the family have been barely existing for many months.

The following contributions were received yesterday:

\$100 each—Penmanship Lumber company, "A Friend," "A Friend," L. Steinhilber, W. F. Seavey, A. M. Clark, L. Tackler, Walter J. Rosenfeld, A. W. Strowser, O. W. Hooper, George F. Mackenzie, Albert Gombmann, Auxiliary Co. C. 116th Engineers; Mrs. J. S. Birek, "A Friend," C. E. F. \$500 each—Lager's & Company's Machinery Co., Bradford Clothes Shop, P. G. Bettendorf, G. O. REVENUE OFFICERS BUSY

THREE DRY LAW VIOLATORS ARE FINED \$500 EACH.

Five Alleged Illicit Manufacturers of Liquor Held to Grand Jury Under Heavy Bonds.

Revenue officers had a busy day yesterday and as a result three law violators were fined \$500 each on pleas of guilty in the United States court and one got 30 days in the county jail. In addition, five alleged manufacturers of liquor were bound over to the federal grand jury under heavy bonds, four under \$1000 each and one under \$500.

One case yesterday was said to be notable in that the still seized had been in operation in this state for half a century. H. H. Buckner of Independence was declared the owner and operator of this pioneer outfit. At one time the plant was said to have been licensed, but when Jesse Flinders, prohibition enforcement officer, swam the Willamette to the island opposite Independence last summer and found only for an obscure cave possible entry to a good swimmer, it was reported running in violation of the law and the government agents said they seized 30 gallons of the product cached in the brush and found 280 gallons of prize juice ready for the heat. Buckner was fined \$500.

The other heavy fines were levied against Gus Bloom of Astoria and William Shoposhonkoff of South Portland, and each was for \$500. Bloom was arrested for selling grape juice in his soft-drink store containing more than 8 per cent alcohol and the local man was charged with having mash and a still in his possession.

Pat Flivey of Pendleton was sent to the county jail for 30 days when he admitted that he had a still on his place in eastern Oregon.

Joseph Waldkirch and Theodore Turle, two young men who awoke one night last week to find their home near St. Johns in flames and who drove to the police station to give themselves up afterward in a somnolent condition, were held to the grand jury under \$1000 bonds each on a charge of operating a still. It was charged by the government that two stills were working in the house at the time of the fire.

Her Xmas Present

MAKE her a gift of TIME—two hours a day saved from kitchen work—two hours daily to read, visit, enjoy life.

The Sechrist Pressure Cooker saves two hours cooking time a day in the average home, cooking in thirty-five or forty minutes roasts or fowls ordinarily requiring hours.

Sechrist Pressure Cooker

Cooks food more thoroughly because pressure forces 259 degrees of heat thru every cell and fibre. Because steam tight, it retains all juices and flavors. Also prevents food cooking away. Pays for itself in six months by food and fuel saving. Pressure cooking and canning is urged by government bulletins.

Is made of heavy, rolled plate aluminum, smooth, bright, easy to clean. Equipped complete with inset pans. A beautiful, sensible gift. Ask for free booklet with recipes.

Seeing the Inside

"You can't judge a book by its binding nor a woman by her clothes."—Painless Parker.

You have to go below the surface to find the facts. The outside doesn't show much. In dentistry the X-Ray permits us to see through the jawbones to the tooth roots. Many diseased conditions are thus found and then cured.

Perhaps an X-Ray picture of your teeth would tell you something you ought to know.
