WEDDINGS.

Archibald-Kirkpatrick.

A very pretty wedding was celebrated Wednesday at the home of Mr. and Mrs. E. R. Kirkpatrick of East Thirty-fifth street, when their daughter, Edith, was united in marriage with Robert Archibald. Rev. W. H. Nugent officiated, Miss Hazel Hardie sang "O Promise Me," accompanied by Miss Alderman. Preceded by little Greta Kirkpatrick, niece of the bride, as flower girl, the couple entered the room to the strains of Mendelssohn's wedding march played by Miss Pauline Alderman. The bride's dress was ivory satin draped with duchess lace and her veil was held in place by orange blossoms. She carried an arm bouquet of pink bride roses and freesias. After the ceremony refreshments were served. Miss Olivia Hallingby and Miss Marion Crowe cut the ices. Assisting about the room were Misses Anna Calderwood, Frida Maseman, Genevieve Kirkpatrick and Mildred Holverson. Fifty relatives and close friends were in attendance. The bride has been entertained with a number of showers, dinner and theater parties. She has been the secretary of the Visiting Nurse association the past five years. Robert Archibald is with the firm of Overbeck & Cooke. After a trip to the sound they will be at home at the Portnomah apartment.

GOLD MINING AT LOW EBB

Towns and Whole Counties Depopulated Geologist Reports.

SAN FRANCISCO.—Gold mining, an industry which virtually brought California into existence, has reached the lowest ebb in the history of the state, Fletcher Hamilton, state mineralogist, announced here recently after a tour of the state.

"One appears to be traveling in the wake of a pestilence," Mr. Hamilton said, "in visiting the mining districts where the industry was founded and from where nature's golden harvest has been poured forth for the past 70 years.

"Towns and whole counties are being depopulated. Mines are being allowed to fill with water and mills and reduction plants are being abandoned to the elements."

Mr. Hamilton pointed out that gold production has decreased because the price of gold has never joined the upward rush of other prices. The gold miner, he said, receives no more for his product than he did 50 years ago.

Passage of the McFadden bill before congress, previding for an excise tax of $10 an ounce on new gold used in manufactured articles, was advocated by Mr. Hamilton as one means of stimulating gold production. The tax would be given to the gold miners, according to the bill.

DANES TO HONOR HEROES

Obelisk 70 Feet High Will Be Erected as Memorial.

WASHINGTON.—An obelisk of granite 70 feet high is to be erected in Denmark as a memorial to the many thousands of American and allied soldiers of Danish descent who died in the world war. It has been estimated that about 30,000 men of Danish blood fought in the American armies in France, and that about 20,000 Danes fought in the Canadian, Australian, British and French armies.

The proposed obelisk will rest on a base 12 feet high, on one side of which will be two women's figures, one elderly, the other young, both with slightly bowed heads, expressing the sorrow of the motherland and her emigrant daughter for those who died in the war. On another side will be an American eagle with the Star-Spangled banner and, in addition, there will be bas-reliefs of typical war scenes from the American and allied fronts.

K. Nielsen Sorring, whose son fell in the American army in France, is chairman of the Danish committee, which plans to unveil the monument on July 4, 1922. The monument will be erected in Northern Jutland, in the Rebild national park, which was donated to Denmark by Danish Americans headed by Dr. Max Henius of Chicago.

The plans for the proposed monument have been approved by King Christian of Denmark, the American legation at Copenhagen and the Danish foreign office.

RAIL GAUGES ARE VARIED

Diversity of Track Width in South America Troublesome.

SANTIAGO, Chile.—Diversity in railway gauges in use in the southern republics of South America is one of the difficulties facing railway officials in this continent who are trying to facilitate international train service. In the Argentine the gauge mainly in use is 1435 meters; in Brazil a meter and in this country 1.68.

Travelers from Argentina to Chile must change trains at Mendoza, Argentina, where the wide gauge ends and a meter gauge crosses the Andes to the Chilean town of Los Andes. Here another change must be made, since virtually all the Chilean state lines, including the longitudinal railway of 1620 miles, are 1.68 gauge. If, however, the traveler's destination is northern Chile, he proceeds to Valparaiso on a wide gauge then changes again to a meter line. If he wishes to visit copper mines in this vicinity he must also change at Santiago or Rancagua.

A traveler may proceed by rail from Buenos Aires to Bolivia, but he must change trains in Tucuman, Argentina, where the wide gauge ends. He then rides over a narrow gauge state line to the frontier. A similar diversity in gauges exists in connections from the River Plate countries to Brazil.

HERO TIRES OF HIS JOB

Police Called After Girl's Life Saved Sixth Time.

PHILADELPHIA.—Marie Blanche Rau, of Eleventh street near Lehigh avenue, was fined $10 and costs by Magistrate Mecleary in central station for attempting to kill herself.

She was arrested at Broad and Walnut streets by Detective Asher, at the request of Harry Kohn, a marine.

"I've been following her for two hours," the marine said, "and have pulled her from in front of automobiles six times. I'm getting tired of it."

Magistrate Mecleary asked the girl why she jumped in front of the automobiles.

"I don't remember," she said.
