Letter From General Smuts Describes Situation.

SINN FEIN REPLY SECRET

British Cabinet Debates Matter of Meeting With Gaelie Officials in London.

LONDON, Aug. 13 - (By the Asso ciated Press.)-Official light on the status of the Irish negotiations was given by the government for the first time today in the form of a letter written by General Jan C. Smuts, the South African premier, to Eamonn de Valera, the Irish republican leader. This letter, which was dated August 4, revealed that Premier Lloyd George offered 26 Sinn Fein counties com plete dominion status, subject to certain strategic safeguards. It was also known by the text of the letter that Sir James Craig, the Ulster premier has refused to negotiate with Mr. de Valera, and that Ulster is standing firm for retaining her present gov-

ernment. General Smuts, however, urged the republican leader to accept dominion status and leave Ulster to join the south in her own time, as he believed that "through the successful running of the Irish state and the pull of economic and peaceful forces," Ulster eventually would be brought into line. Mr. Lloyd George's secretary gave the letter to the newspapers this afternoon after a long cabinet meet-
