POLITICS IN STATE IS BEING REVIVED

Renewed Interest Develops in Next Legislature.

GOVERNOR TO BE ELECTED

Known Aspirants to Lawmaking Body All Have Been Members and Want Another Term.

Following the vacation season and the approach of winter, renewed interest will be taken in politics. Next year Oregon will elect a new legislature and a new governor, which means a lively primary campaign, and, possibly, an active general election, depending on what the democrats do in the way of a gubernatorial

The legislature even now is being discussed and a number of men have declared their intention of seeking seats at Salem. Practically all of those who are now known candidates have been in the legislature in the past for one or more sessions. As a rule once a man has served in the legislature and has become ac-quainted, he feels an urge to go back. This is why some men return time after time, or try to.

Multnomah Candidates Loom. Most of the members of the Mult-nomah delegation in the house are nomah delegation in the house are ready to enter the primaries next apring. Captain Hosford says that he intends being a candidate. Hertert Gordon and K. K. Kubli, who have been on the ways and means committee together for a number of sessions, will be in the primaries as usual. Mr. Gordon, it is understood, will be a candiate for speaker of the rouse and Mr. Kubli, if he goes to the legislature, is thinking of also going after the speakership. Orin Richards is also said to be a prospective candidate for his old desk

pective candidate for his old desk and chair in the house. Eugene E. Smith, who was a de-cidedly influential factor in the 1919 session, as a labor representative, has intimated that he may attempt a post-graduate course at Salem. Other Laborites Possibilities.

Waiter Lynn, who was one of the labor representatives in the 1921 session, has not decided whether or not be will run. Meanwhile he is seeking the position of postmaster at Portland. W. B. Sleeman, indersed by labor for the 1921 session, but defeated by a narrow margin, is ex-pected to again tempt fate and see if he cannot be more successful in the coming spring primaries.

coming spring primaries.

George B. Thomas, recently reelected as a member of the school
hoard, aspires to zerve in the legislature and may run either for the
house or the senate. He is quoted as
saying he wants one or the other.
Friends of J. H. Rankin, a retail
clothler, have been boosting his stock.
W. C. North, member of the 1921 session, has not made up his mind, but
if things look right he will shoot.

Outside Members in List. In outside counties some of the old members are planning to stage a come-back. E. N. Hurd of Seaside is expected to run again, and A. W. Norexpected to run again, and A. w. Nor-blad, state senator for Clatsop county, says that he will be a candidate for re-election. Denton G. Burdick, who has been in the thick of things at Salem for a number of sessions, will be a candidate and so will H. J. Over-turf, who, with Mr. Burdick, repre-sents half a dozen countles.

Malheur Separate District. J. Gallagher, long representative

would like to continue in the senate, neither has made up his mind on the advisability of running. Roy W. Rither, president of the senate, may seek a place in the house.

E Bean, speaker of the house talks as though he is through with the legislature, but he is such a veteran that his friends predict he will go into the primaries.

WAGE ARBITRATION FAILS

Board Considering Meat Cutters' Demands Is Disbanded.

Unsuccessful efforts to arbitrate the wage controversy now on between the meat cutters and the employing butchers resulted in the arbitration board disbanding, it was announced

yesterday.

The question of the next step is expected to come up for consideration at a meeting of the employers to be held Wednesday night in the Yeon holder. A \$38 minimum wage has been the prevailing scale in Portland. While

arbitration was under way there was an agreement that there should be no change in this. The employers have demanded a \$32 minimum. The arbitration board, which con-sisted of Otto Hartwig, Robert A. Saw-yer and District Attorney Evans, attempted for practically a month to come to some sort of an agreement without results. As a result of the disbanding of this board it was de-clared yesterday that there was no agreement in force between the employers and the employes.

SLATE NOT YET FILLED

Indications Point to Distribution of Patronage Within Next Week

Pending the return of Senator Stanfield to Washington, official announcement of the recommendations for federal positions will not be made. Senator McNary prefers, according to information received here, to await the return of his colleague, so that when announcement eventually is made it will be with the joint sanction.

As late as yesterday the slate had not been completed, and for the last four days there has been a constant stream of telegrams sent to both of the senators, some boosting and some opposing the supposed lucky as-

pirants.

Day Assured of Position. Senator Stanfield went to Chicago stated a conference on the live-stock pool and after the meeting he plans to return to Washington, to be on hand for the adjournment. The recommendations of the senators for the federal places is to be made be-fore congress adjourns, which will be within a week or ten days.

within a week or ten days.

A telegram from Senator Stanfield
to a Portland friend, said that he will do everything he can to see that John L. Day, chairman of the Multnomah county republican committee, is taken care of, but the message infers that while Day will get an appointment billet it will not be that of United States marshal, for which he was a

Senators Change Support. Judging from the tone of various messages received in Portland from Washington, there are still two or three places on the slate which have not been positively filled and these are the offices which have been under discussion for many months. How the appointments eventually will come out, no one knows, not even the sen-ators, at this time. The senators have hanged their support from one can didate to another so frequently that there is not a single applicant who is dead certain that he will be a winner. The main trouble the senators have experienced is in the opposition which invariably has developed as soon as the public suspected that someone was being preferred over others for a particular job.

Pressure Causes Shifting. The pressure applied to the sen-ators has caused a shifting of several slates. For this reason the com-plexion of the final slate will not be known until the hour it is rec-ommended.

Both the senators plan to return to
