

VOTE ON TAX BILL THIS WEEK LIKELY

Negotiation to Set Date for
Ballot Is Failure.

REED BEGINS BONUS FIGHT

Income Returns to Be Open to In-
spection by Either Branch
of Congress.

WASHINGTON, D. C., Oct. 29.—(Special.)—Pressure behind the tax revision bill passed off perceptibly today in the senate after it had become apparent that there was small prospect of a final vote before the middle of next week.

Negotiations between the majority and the minority looking to an agreement on a day for a final vote fell through. Later, democratic leaders estimated that the bill might be passed by Wednesday or Thursday. Some senators on the majority side thought the vote would come by Tuesday, while there were other estimates that it might be delayed until Saturday.

"We have now broken the back of the movement to force this bill through without proper consideration," said Senator Simmons of North Carolina, democrat.

Only two amendments were disposed of today. Under one change adopted on motion of Senator Reed, democrat of Missouri, income tax returns would be open to inspection by either house of congress under existing law they are opened for inspection only on orders of the president.

Bonus Fight Begins.

Senator Reed today launched his fight for the bonus bill, which he has proposed shall be paid out of funds obtained by continuing the excess profits tax. He declared his amendment was designed "to pay the bonus from the profits of the war profiteers."

"I am only taking the funds," he said, turning to the republicans, "that you propose to throw away and leave in the hands of the profiteers. You can put this money in the hands of the soldiers and not adversely affect the fiscal policy of the government."

That answers all arguments raised against the bonus by the president's letter. Reading the message of President Harding and the letter of Secretary Mellon opposing the bonus at present, Senator Reed charged that it was the republican intention "to kill" the bonus bill.

Chinese Issue Up.

Nearly three hours of the session was consumed in a fight against an amendment offered by Senator Smoot, republican, Utah, proposing an exemption from taxation the income derived from business done in China by American corporations, 80 per cent of whose gross income comes from that country and 50 per cent of whose business is done there.

The amendment was finally passed over, as was that proposing retention of the capital stock tax, which the finance committee proposed to repeal next January 1.

Senator Edge, republican, New Jersey, presented an amendment to continue the present 10 per cent income tax rate on corporations and Senator La Follette, republican, Wisconsin, offered a new scale on the estate tax beginning at \$10,000 and gradually up to 50 per cent on all over \$50,000,000.

A tax of 1000 per cent on political campaign contributions over \$100 was proposed in an amendment by Senator Harris, democrat, Georgia. The rate would apply to presidential and congressional candidates.

ARMISTICE ORDERS GIVEN

NATIONAL GUARD TO OBSERVE

CESSATION OF STRIFE.

Adjutant-General White Directs

Participation in Parade by

State Military.

Official orders have been received by organization commanders of the Oregon national guard in Portland from George A. White, adjutant-general of the state, charging them with making such arrangements for the participation of the guard as may conform with local plans for celebration of Armistice day. Participation in the parade on that day will be raised as an drill in computing armory drill pay.

"November 11 marks the third anniversary of the cessation of hostilities in a battle-torn world, bleeding from four unrelenting years of strife," says the message from the adjutant-general. "It is the day on which we acclaim the deeds of our own and allied forces on land and sea. It is the day on which we express our gratitude to those at home for their acts of untiring devotion which made possible the victory at arms. It is a day on which we should pause for a few moments in silent tribute to those of our comrades who gave their all that victory might be attained."

RATES TO HELP TRUCKS

Increase Granted to Roads Will

Mean Auto Service, It Is Said.

TACOMA, Wash., Oct. 29.—(Special.)—Approval by the interstate commerce commission of an increase on railway class rates west of the Cascades will increase truck transportation greatly, the opinion of W. McCune, secretary of the traffic bureau of the Tacoma commercial club. Pointing out that truck delivery will be much quicker and cheaper, Mr. McCune said: "Such an increase is contrary to the trend of the times. There should be a reduction now. California will find it much easier to compete with Tacoma in central Oregon and in the Astoria region, as they can ship by boat much cheaper than Tacoma can by rail."

LABOR BOARD PUTS STRIKES UNDER BAN

Walkouts Without Permission
Forbidden.

VIOLATORS HELD OUTLAWS

Final Statement Issued Concerning

Recent Dispute; Traffic

Held Public Concern.

CHICAGO, Oct. 29.—(By the Associated Press.)—The United States railroad labor board today in effect forbade railroad union labor from striking without the board's permission, and declared that all strikers who violated the order would be classed as outlaws who had voluntarily removed themselves from the protection of the transportation act. This was the board's final statement on the railroad strike which was to have been called tomorrow morning by the big four brotherhoods and the switchmen's union.

Every dispute involving changes in wages, rules, working conditions, etc., must be referred to the board, and no action taken by either side until authorized by the board, the decision says.

The board made three findings. First, that all such disputes must be referred to the board before any action is taken.

Second, that any interruption of traffic would be a blow aimed at the peace, prosperity and safety of the entire nation.

Strikes Are Penalized.

Third, that any union going out on strike will forfeit its right and the rights of its members in all existing contracts and lose all benefits accorded by the transportation act. The labor board, after detailing the decision of both sides to abide by the law, said:

"These facts render it unnecessary for the board to make any further orders on or about this matter, and move it to congratulate the parties directly interested, and the public most vitally and profoundly interested, on this return of industrial peace, triumph of the reign of law and the escape from this national disaster."

Decision Held Violated.

"Second, the ordering or authorization of a strike against decision No. 147 (the July 1 wage cut) of this board is a violation of that decision. The board desires to point out such overt acts by either party tending to and threatening an interruption of the transportation lines, the peaceful and uninterrupted operation of which are so absolutely necessary to the peace, prosperity and safety of the entire people, are in themselves even when they do not culminate in a stoppage of traffic a cause and source of great injury and damage."

IDAHO DOUGHBOY CARVED

University Sculptors Preparing Memorial to Dead War Heroes.

UNIVERSITY OF OREGON, Eugene,

Oct. 29.—(Special.)—Creation having been completed, distinct progress is being made by Avar Fairbanks, sculptor and assistant professor in the art department, on the modeling of the memorial statue known as the Idaho "Doughboy," which the state of Idaho has officially accepted for its memorial to the men who died in the world war.

The Idaho memorial commission appointed by Governor Davis selected Mr. Fairbanks to design the memorial, because of his talent and because Idaho claims him as a native son. The statue is that of a single American soldier, who stands courageously with his gun ready, and his law set, prepared to throw back an attack if it is launched. Previous victory is shown by the defensive armored headgear of the enemy which he carries.

FIVE VEHICLES IN WRECK

Motorcycle, Auto and 3 Trucks

Crash Together in Accident.

One motorcycle, one automobile and three auto trucks crashed together in an unusual accident on the Linnton road near the Union Oil company yesterday, resulting in sending the motorcycle, Mike Beva, 2844 Madison street, to St. Vincent's hospital with a fractured leg and other injuries, and sent the various motor vehicles to the repair shop for overhauling.

Deva attempted to pass an automobile driven by S. T. Taylor, 311 Spaulding building, at the same time that the three trucks were attempting to pass each other.

All of the motor vehicles were damaged in the resultant collision, but Deva was the only person to sustain serious injuries.

One truck was driven by C. E. Pretzman, a driver for the Union Oil company. Another was driven by A. J. Juchemich, an employee of the Western Soda Works, and the third truck was operated by J. E. Hooker of the Western Lumber company.

The motorcycle became jammed between all of the other vehicles and his motorcycle, with sidecar, was almost completely demolished.

MURDER CASE NEAR END

HENDERSON'S FATE TO REST

WITH JURY MONDAY.

Defense and State Expected to Finish Arguments Early Tomorrow Forenoon.

The question of whether Joseph J. Henderson stabbed his ex-wife to death in cold blood or killed her as the act of a man suffering from "manic depressive insanity" and who was therefore rendered irresponsible.

The case has been a bitterly fought one in which the defense has centered on insanity as the reason for the killing. The state has contended, despite the evidence of two of the expert alienists for the defense, that the act was one of revenge and that the hypothetical question presented to the physicians for their opinion did not represent the true state of affairs. Throughout the case the prosecution has insisted that Henderson has been shamming insanity. Mr. Gertrude Henderson was killed on the morning of August 8 by four wounds in the back inflicted by a butcher knife, wielded by her ex-husband.

Mr. Ames and Mr. Drake Back. Fred E. Ames, assistant district forester in charge of timber sales, and George L. Drake, forest examiner, both connected with the Portland office of the forest service, have just returned from a month's motor trip of inspection of four national forests in eastern Oregon. During the trip they covered about 1500 miles and visited the forests of Fremont, Malheur, Umpqua and Whitman.

Kansas has about 50 women law-

hours, but Judge Tucker has placed no limit on the argument. The judge will give his instructions to the jury late in the morning or early in the afternoon.
