Woodrow Wilson
At The
Age Of
65

Underwood & Underwood, N.Y.

EX-PRESIDENT WILSON, showing the effects of his illness, was photographed as he stepped from his residence in Washington, D. C., on his 65th birthday, December 28.

Modish golfing costumes that attracted much attention were those worn recently at Atlantic City, N. J., by Miss Loretta Rhodes of Jersey City and Cliff Phillips of Pittsburg.

When President and Mrs. Harding revived the custom of holding a public New Year's reception they undertook a serious task. The president was said to have shaken hands with more than 6000 persons. Some waited in line all night to gain the privilege of meeting him.

A photographer snapped the president of Chile, Arturo Alessandri, in an informal pose as he was descending from the main deck of the Almirante Latorre, Chile's first dreadnought.

Karl Lang has arrived in Washington to serve as German chargé d'affaires until the ambassador is appointed. He will then become a consul-general at New York, it is said.

An invention expected to be of great aid to hospitals and the medical profession is a heart beat recorder. By use of it the sound of human breath or heart may be heard distinctly.

Dr. Franklin L. Hunt of the government bureau of standards and Captain Mangus J. Myers of the United States medical corps evolved the instrument.

A world's endurance flight record was established at Roosevelt field on December 30. Eddie Stinson (left) and Lloyd Bertaud flew continuously for 26 hours, 19 minutes and 35 seconds, going at least 2200 miles, or equal to the distance between San Francisco and Hawaii. The flight was made in below zero weather and the men suffered severely. They merely circled about the field. A JL-8 aluminum Larsen monoplane was used.

Princess Mary of England recently visited the ancestral home of her fiancé, Viscount Lascelles, at Leeds. Photographed as they were entraining for the trip were Queen Mary, the viscount and Princess Mary.
