Republicans to Have 202 Delegates in August.

DEMOCRATS GAIN ONLY 4

New Apportionment for Representation in Legislature Provides 11 More Members.

BOISE, Idaho, Peb. 1 — (Special.)— The way has been paved for the state conventions of the major political parties of Idaho—the republican and parties of idaho—the republican and democratic—to be held this year on the fourth Tuesday in August, or August 22, at points to be designated by the state central committees. Both parties will have greater representation in the next convention than they had in the convention two years ago, due to the increase in the total vote cast at the last general election. This is the important certification that has been made by Secretary of State Jones, who has also worked out the legislative apportionment for the next legislative, wherein the representation is increased to a grand total of 11.

There will be seated in the next re publican state convention a total of 202 delegates, an increase of 54 over the representation in the last repub-Hean state convention. The democrats will seat 110 delegates in their con-mention, instead of 106, the number seated in the last convention.

Six Countles Decrease. Six counties will have less repre-sentation in the democratic conven-tion this year than Ju 1929. They are: Blaine, I instead of 2; Cassia, 3 in stead of 4; Owyhee, I instead of 2 Power, I instead of 2; Shehone, 4 in stead of 5, and Twin Falls, 6 instead of 8. The law under which the ap-portionment was worked out provide, for the manner in which the number of delegates may be arrived at, stat-ing: "The total number of votes casing: "The total number of votes cast in each county at the last preceding general election for all candidates of a political party for representative in congress and the several state officure, shall be divided by the number of such candidates and the quotient shall be taken as the vote of said party in the county, which county shall be entitled to one delegate to the state convention for each 400 or major part thereof of such vote; provided, that each county shall be entitled. vided, that each county shall be enti-tled to at least one delegate."

Delegates Are Apportioned. The delegates are apportioned by unties to these political parties as

Delegates to the state conventions are elected by county conventions the delegates to which are elected at county primaries at the time that candidates for the legislature and county officers are nominated. Aside from the larger counties there is very little competition for positions of delegates. The delegates in the state conventions nominate the candidates for United States senator and representative, justices of the supreme court and candidates for all state offices.

In jail at the same time. Some of weight weight weight works are charged only with minor officeness and it is frequently rumored that the lawyers paint their predicts. A possible for the positions of the supreme for the county officers would be.

The chief's new order was accompanied by a blank form to be used by the prisoner and on which the attorney's name should be written, together with other data regarding the arrest and the case.

The apportionment just issued for representation in the next legislature shows that the total membership in Second Husband Is Prominent timt body will be 105, as against a total membership of 58 in the last legislature. The renate does not gain under the new apportionment, the geomstitution of the state providing that each county shall be represented by the aenator. There are 44 counties in the state, the legislature having falled for the first time in many years at the last session to create a new county, and there will therefore new county, and there will therefore be but 41 senators in the next legis-ature. The new apportionment in-creases the membership in the house ti and there will be 65 members in the next session as that body at the next session as against 54 in the last session. The house, therefore, will have a margin of 21 members over the senate. On a geographic comparison, southern idaho counties, taken collectively, rain eight members, in three for the northern idaho counties.

Canyon County Gain Largest, Many counties suffered a reduction in their representation in the legis-iature of 1921 because of the excep-tionally light vote cast in the state

tionally light vote cast in the state at the election in 1918. It was on this vote that the apportionment was based. The total vote cast for third States senator at that cleetten was 35,964. The apportionment for the 1912 legislature is based on the vote cast at the specific man of any on the vote cast at the state of the state senator at that cleetten. The total vote cast for limited States senator at that cleetten was 16,488, an increase over the 1918 election of 44,514 votes.

ANNUAL BANQUET OF LANG SYNE SOCIETY IS SUCCESSFUL AFFAIR.

PLASHLIGHT OF MEMBERS AND GUESTS WHO ATTENDED DINNER AT THE MULTNOMAH HOTEL. One of the most successful and best-attended affairs in the history of the Lang Syne society was the annual banquet held at the Multnoman hotel January 55. About 275 members of the society were present. The society is composed of men who have been established in business in Oregon for 30 years.

Grandfathers were honored guests at the annual banquet this year. Tribute to the grandfathers present was paid in a toast and oratorical praise. Five hundred gifts were distributed among grandfathers and fathers for every

one of the youngsters at home.

The most impressive part of the programme followed the reading by Frank Dayton, secretary, of the names of the 14 members of the society who had died since the last meeting. The memory of these absent members was honored in a silent toast drunk in water by the living members.

Among the speakers at the banquet were Admirai H. T. Mayo, General R. M. Blatchford, J. D. Lee, J. K. Gill, W. M. Killingsworth and Frederick V. Holman.

some may-be officeholders, already are out getting kindling. Times are depressed somewhat now and the number to run for office this year, no doubt, will be far greater than two years ago. A county office paying \$2000 a year looks pretty good to a jarge number of voters, all of whom they have a well availed to be hink they are well qualifed to be officeholders, so all they have to do t to get out and corral enough votes

to put them into office.

This is a republican stronghold and if a man gets the nomination in the primaries, he is sure of election almost. Unless some bitter fight comes up, as did in the race for the office of sheriff last year, a demooffice of sheriff last year, a demo-brat has no chance, and the party seldom puts up a full ticket. How-ever, William A. Thompson, democrat, who won the office of sheriff last year, has so far bullt up an unusual-ly creditable record, and may come out for the office again this year, but he has not yet announced that he will.

Four-Year Terms to Be Won. Those elected this year to county offices will hold for four years. The term has been two years horetofore. He proposed March 5, 13 or 14 as desirable dates, and pointed out that his present jury panel was about exhausted and a new one would not be drawn until February 15 or 18.

The district attorney intimated that Monday he would ask that Alice Blake and Zey Provest, two of the principal prosecution witnesses, besides and placed under bond to insure their appearance at the third strial.
