"He is a philosopher-evangelist; he is the scholarly revivalist. He has the spirit of an evangelist, but his work is highly specialized. His ser-mons are specially for those who are perplexed. His messages are for those who are in doubt. He doesn't ask people to hit the trail; he in-vites them to ask questions. And his answers radiate light. Puzzles un-tagle as he talks in his direct, attrac-tive fashion. It all sounds amazingly simple, but back of the simplicity is years of patient, persevering study simple, but back of the simplicity is years of patient, persevering study and the frankest, most straightfor-ward thinking."
