Seven Nebraska Mothers Daughters' Schoolmates.
Girlhood Ambition to Attend College Realized.

LINCOLN, Neb., March 18.—Seven Nebraska mothers, carrying from four to ten credit hours, have become the schoolmates of their daughters at the University of Nebraska. In the case of two of the mothers it is the realization of a girlhood ambition to attend college. The others are enrolled for individual purposes, one to learn American ideals, another to study modern student life, and still another to theorize.

Mrs. L. C. Bright is the mother of three children, all girls, and now her classmates. The entire family is studying dairy and animal husbandry.

Daughter, Emma and her mother, Mrs. Emma J. Kosch, frequently are mistaken for sisters in university circles. Mrs. Kosch is a sophomore, and besides has two step-granddaughters in Cotner university. Art, rennaissance history and economics are found on Mrs. Kosch's card.

Mrs. Fredrica Lau received her higher education in a German institution. So she entered the university with her two daughters to "be with Americans and learn their ideals."

Philosophy, art history, federal administration, economics, business administration and kindred subjects draw the mothers of four other students to the university. Two of these mothers report it "rather hard to get back into the swing of school work—there is so much to unlearn that we learned before." These mothers report a change in theories—but to their liking.

These seven mothers are regularly enrolled students.
