

BELFAST DISORDERS GET STILL WORSE

Cabinet Thought Discussing Plans to Force Quiet.

HALF DOZEN ARE KILLED

Barracks Attacked, Houses Burned and Castle Stormed During Sectarian Strife.

BELFAST, May 20.—(By the Associated Press.)—Terrorism in Belfast and its environs is again assuming such proportions that Premier Craig and his cabinet met this afternoon, presumably to discuss measures for dealing with the renewed outbreak of sectarian strife.

At least half a dozen persons have met death at the hands of murder gangs within the last 24 hours, and dozens of others have been wounded. Among the latest reports this afternoon from County Down was that an automobile containing a military officer and his wife struck a tree that was blocking the road. The woman was killed and the officer himself was found unconscious.

The summer residence at Cushendun, County Antrim, belonging to Ronald McNeil, a close friend of Premier Craig and a prominent commander, was burnt today. The residence of Cushendun was held for hours by 150 raiders, who, after burning the Northern bank, attacked the police barracks, but were beaten off.

Barracks is Attacked. The barracks at Belfast, near the scene of the sinking of the American troop ship *Tuscania* during the war, was attacked with bombs, but the police finally repulsed the assailants, arresting one of their number and capturing a number of bags containing land grenades and petrol.

Within the last 24 hours armed raiders have laid a trail of fire from County Down, through Belfast to north of County Antrim, attacking police barracks, ambushing special constables, burning houses of loyalists, destroying railway lines and cutting wire communications. A wild week-end of outrages was feared in Belfast today.

The Ulster cabinet, which sat for several hours, probably will meet again tomorrow, and important decisions concerning the situation are expected.

Twenty-three Killed in Week. Within the city of Belfast the number of murders during the past week was brought to a total of 23 as a result of today's shootings.

Up to the present County Antrim has been comparatively free of outrages. The feature of the overnight raids in that county was the destruction of Shane's castle. The raiders crossed from County Tyrone in boats and attacked the castle from several points. The servants held them off for several hours, but the attackers finally entered, carrying cans of petrol, and set fire to the buildings.

Disorders continued here unabated this afternoon. Two men were shot in the railway cattle pens, one of them being killed and the other critically wounded. According to word received this afternoon, the Northern bank at Cushendun, County Antrim, was burned and the post-office raided.

Raid also occurred in the County Down, where the Castle Weilan barracks were attacked; the railroad depot at Laurencetown was burned; a train was held up and the road blocked.

Three Killed in Attack. Reports received here this afternoon said that three men were killed in the attack on the Castle Weilan barracks were killed and ten others captured. In the same district, which is along the coast, the residence of Lord Deros, holder of the oldest baronetcy in the British empire, was burned. Lady Deros was in the castle at the time.

Agreement Is Reached.

BELFAST, May 20.—(By the Associated Press.)—An agreement between the free state and the republican factions of the Dail Eireann regarding the forthcoming Irish elections and other questions was reached this afternoon, according to advices received in Belfast late today.

CITY ORDERED TO PAY

Supreme Court Holds Port Townsend Bonds Valid.

OLYMPIA, Wash., May 20.—(Special.)—The mayor and city council of Port Townsend were directed by the supreme court in a decision today to levy taxes for the "indebtedness fund" of the city each year until sufficient money had been collected to pay off a local improvement district indebtedness incurred prior to 1892. The supreme court reversed the judge and jury in the lower court of Jefferson county.

The action was brought by the First National bank of Central City, Colo. William H. Emerson and George Weidrick each held indebtedness fund warrants which were refused to satisfy judgment rendered in superior court in 1892. The city council year after year failed to make any levy for the indebtedness fund and when suit was brought the lower court held the warrants "fraudulent and void."

YOUTH HELD AS PIRATE

Leadership of Raids on Cargoes of Vessels Suspected.

WEST PALM BEACH, Fla., May 20.—Federal authorities have entered a charge of piracy against Sanford Mobley, 15 years old, held in jail here in connection with the robbery of the Bank of Stuart at that town, near here, last week. The authorities said Mobley was a leader of pirate bands responsible for numerous raids recently on the cargoes of vessels in the vicinity of the Bahama Islands.

The request for custody of Mobley was made, the authorities said, as the result of an extensive investigation of recent raids on ships, which were said to have been conducted in true pirate style and in one instance to have netted the alleged pirate \$15,000.

GERMANS TRY INITIATIVE

FIRST INVOCATION OF LAW IS DIRECTED AT SAXONY.

Question of Ousting Labor Ministry to Be Decided by Voice of People.

BERLIN, May 20.—(By the Associated Press.)—The initiative and referendum, provided under the republican constitution, will be given its first tryout in the radical stronghold of "Red Saxony" next month on the question of ousting the labor ministry. The move was instigated by the middle classes.

Dissolution of the diet was demanded following its recent decision that general holidays should be observed annually on May 1 in conformity with the international labor movement and not November 3, the anniversary of the revolution.

From June 8 to 15 all men and women over 20 years old, in favor of the referendum on dissolution of the diet may register. Two hundred and ninety thousand votes, or one-tenth of the population shown by the last census, are required in order to bring the matter to the Saxon government's consideration. That number is regarded as assured, since both the Rightist parties (the peoples' and national parties) originated demands for the diet's dissolution, and the democrats and centrists promised their support. If the required number is obtained in the initiative balloting, the cabinet will submit the question to the diet, which may choose to dissolve itself, rendering a referendum vote unnecessary. Otherwise the referendum probably will be held during the first part of July.

A woman appeared as an attorney for the first time in the history of German criminal courts a few days ago when Frau Ina von Monck of Berlin, acted as defending counsel for a man accused of a street robbery. She created a favorable impression.

TISSUE PRESERVES PAPER

Problem That Has Long Puzzled Librarians Is Solved.

NEW YORK, May 20.—A solution has been found of the question of how to preserve newspapers in public libraries, according to the American Paper and Pulp Association.

Each sheet is mounted between two thin sheets of Japanese tissue, shutting out the air from the original sheets, thus preventing decay and only slightly reducing legibility and strengthening the page. Bound volumes of newspapers treated with the tissue are in the custody of the library here, free from wear and tear, and will last indefinitely.

The problem was solved after eight years of experimenting at a cost of \$40,000, under the supervision of the public library.

20 Students Inspect Farm.

OREGON AGRICULTURAL COLLEGE, Corvallis, May 20.—(Special.)

Twenty members of the farm management class made a trip by automobile Tuesday to the College View farm of 30 acres to inspect and study the operation of the farm, management and equipment.

Convicted Woman Dies

Anna Richey, Sentenced for Cattle Rustling, Believed Poisoned.

KEMMERER, Wyo., May 20.—Anna Richey, the only woman ever convicted

in Wyoming for cattle rustling and who was to have entered the state penitentiary in July to begin serving a sentence for that offense, was found dead on her ranch 12 miles north of here yesterday.

Otto Palsenberg, a ranch hand, was suffering from convulsions and was brought to a hospital here, where it is said he has small chance to recover.

He has been unable to make any statement, but officials are working on the theory that the two were poisoned by a substance put in the flour from which a batch of fresh bread found in the ranch house had been baked. An autopsy is to be performed on Mrs. Richey.

Mrs. Richey was 20 years of age and had been divorced.

TERRORISTS BURN IN LABOR'S CAUSE

Wholesale Raids Conducted to Check Crime Wave.

MANY GUNMEN IN JAIL

Extortion Carried On Generally and Guards Are Thrown Around Many Buildings Rising.

JURIST BLAMES UNIONS

It is Not the Law-enforcement Officers Alone Who Blame the Unions for the Outbreak.

CHICAGO, May 20.—(Special.)—For years the "trial" the savd-off shotgun, the blackjack, the bomb, the torch, the gangster's apparently stop at nothing to hold Chicago in their grasp and they operate now in the name of labor union.

A siege of robbery and sluggings, bombings and shootings as a protest against the union wage award for the building trades, fixed by Judge Landis, reached its climax a few nights ago in the wanton killing of two policemen and the wounding of a third by a gang of bombers out on a dynamiting expedition. Since the Chicago has witnessed perhaps the most gigantic drive against outlawry since the days of the famous Haymarket riots of the '80s.

150 Labor Leaders Held. More than 150 union chiefs and their lieutenants were rounded up in sensational daylight raids on union strongholds and dozens of gunmen and thugs were seized in an effort to run to earth the killers and end the reign of lawlessness here. Among the eight men subsequently indicted for killing the two policemen were a trio of the city's most prominent labor leaders and all Chicago gasped when Chief of Police Fitzmorris failed to arrest them.

One was "Big Tim" Murphy, long a powerful and picturesque figure in the labor world here, now under sentence to six years in prison for a daring \$350,000 mail hold-up at Dearborn street station last year. The "uncrowned king" of the building trades, the newspapers call him.

Another was Fred Mader, president of the council, with a term in Joliet penitentiary for labor conspiracy behind him. The third is Cornelius ("Don") Shea, a union secretary once sentenced to Sing Sing for carrying up his sweetheart while drinking.

Eight Held as Accomplices. These, with the other five men indicted, lesser labor lights, are accused of murder under an Illinois statute which makes anyone who incites or induces murder equally guilty with those who act. It is admitted that none of the eight had part in the actual slaying. The police also have arrested John Miller, a police character who was the confessed driver of the death car.

Following arrest of the labor men, spirited court battles were started to obtain their release. Most of them soon were freed on habeas corpus writs but the principal ones were held. It was hoped that this stroke would, in turn, strike terror to the hearts of the terrorists. Threats of death then began to pour in on the chief of police, sheriff and other officials unless the labor chiefs were released.

One message gave warning that if the leaders were not freed fire would break out in every section of the city. This threat was not taken seriously until a few days later. At about 7 o'clock at night fire started in a \$500,000 72-apartment hotel nearing completion at fashionable Rogers Park. The building was practically destroyed. It was being erected partly by non-union men working under the Landis award. Officials are convinced that the fire was the work of terrorists.

Charges of grafting by union agents in Chicago became so general that the legislature appointed a special investigating committee last summer. Evidence was uncovered that thousands of dollars had been paid out by builders to prevent strikes. Indictments were many but convictions nil. Among those tried were Simon O'Donnell, chief of the building trades council, and William F. Quinn, chief of the Flat Janitors union. Both are being retried after acquittal because jurors confessed being bribed to vote "not guilty."

Grafting Runs Riot. Meanwhile the grafting goes merrily on. Builders must either submit or suspend work. Here is how it works: A contractor is permitted to hire non-union men if the union cannot supply enough. When he does he is a visitor.

"My men are kicking against working with non-union men," the business agent tells the builder. "They want to strike and it will cost you money to keep them at work."

"Well," replies the agent, "say \$500 now and a dollar a day for each of the men at work until the building is completed."

The union men on the job have to pay with the others, submitting through fear of being thrown out of work. Why don't the honest union men oust the dishonest leaders? They reply that it is as much as a man's life to work with the union men. If he does he is waylaid and beaten on his way home.

Threats of Death Made. Not long ago there was some agitation against a certain business agent. The height of the election he arrived at the hall with a crowd of followers—all known "bad men." The agent sat down at a table, drew a revolver and laid it in front of him.

"Gentlemen, the voting will now begin," he announced, with an ugly look.

As the ballots were brought to him, so goes the story, he counted them carefully, then tore up the slips and declared:

"I'm re-elected." Immediate relief from the reign of terror is not looked for although Judge Scanlan sees an improvement over conditions as they were 60 days ago.

"About 400 of Chicago's worst criminals have been shipped out of town," he said today, "and by July the city will be about half civilized."

Chief Fitzmorris declares there is to be no letup in the war of the police on the terrorists despite the fact that they have marked him for assassination. Guards have been placed on all buildings being erected under the Landis award with orders to shoot to kill all persons seen prowling around the premises after dark.
