**SEWING CLUBS POPULAR**  
247 Girls Apply for Membership in Spokane Bodies.  
SPOKANE, Wash., July 8.—Two hundred and forty-seven girls have applied for membership in sewing clubs this year, according to Mrs.

Harriet Lyette, in charge of home bureau work for the Spokane chamber of commerce. The work is under the general supervision of Miss Elmina White, state club leader for girls' work, who provides the record books for reports to go to the government. Miss White will come to Spokane early in July to confer with local leaders.

Spokane leaders in the work have already met their groups, selected club days and decided on the garments to be made first. Most of the clubs got their programmes under way last week.

"This is the third summer for our sewing clubs," says Mrs. Lyette. "Two years ago 25 members con-

stituted our enrollment. Sewing is popular with the girls. Their ages range from 10 to 17 years."

**FLAPPER'S CURE FOUND**  
"She Needs Religion," Declares Sunday School Superintendent.  
CHICAGO—What ails the much-discussed flapper has been discovered by a world-wide authority on flappers, flapperism and flapperdom.

"The authority is no other than Dr. Corliss P. Harraves, foreign superintendent of Sunday schools for the Methodist Episcopal church, who

was in Chicago to make a report to the conference of bishops and ministers of the church in session here. Dr. Corliss has studied the question of youthful tendencies and morality in every country in the world, and his solemn verdict is: "The flapper needs religion."

"Without an undergirding of religion," he continued, "all the more frivolous tendencies of the American flapper will run into degeneration, if not worse. It is the religious tendency of today that holds the flapper movement from going to all sorts of extremes."
