

LOCOMOTIVE CHIEF GIVES

S. M. Vaulain Makes Plea for U. S. Aid Abroad.

MESSAGE IS OPTIMISTIC

Head of Baldwin Works Assesses Business Conditions as Improving Rapidly.

Another chapter in his gospel of prosperity was sent out broadcast from the Hawley radio station in Irvington Friday night by S. M. Vaulain, president of the Baldwin Locomotive works.

His talk was intended particularly for members of the State Editorial association in session at Corvallis, but through some unknown cause did not reach them.

At the radio station Mr. Vaulain was the guest of W. P. Hawley and his son, W. P. Hawley Jr. Following his talk he will return to his home in the city.

The foreign people of all languages, of all colors, and of many religions, are being driven to a distress caused by the ravages of war, depleted treasuries, dissipated fortunes and a withering destruction of their towns, cities, their transportation facilities, as well as their agriculture.

"It is, therefore, necessary that we study to help them, to work and to earn for themselves future happiness and prosperity. Those countries which have not been engaged in war have been indirectly affected.

"My experience during the past three and one-half years has convinced me that the only nation in the world today that is truly prosperous is our own beloved United States of America, and we must share this prosperity with the less fortunate.

"And now about our own business affairs: The prosperity special has safely crossed the continent, from ocean to ocean. Hundreds of thousands, yes, even millions, of our citizens, both old and young, have seen it, have felt it, and know that it is no fairy tale. The whole world, not merely the United States, is aware that our own business is in excellent shape, capable of supporting this ponderous burden.

"Who are the real business promoters? The working men, and we are also the maintainers and backbone of this government. We must not worry about coal strikes, or the strikes of the railway employees. These are only trifles in the magnitude of the country is considered.

"Never fear: all the difficulties of the present are insubstantial compared with the world war. We have our country, we have our liberty and the same common people who won the great war will never permit ought but lawful procedure in our pursuit of health, wealth and happiness, insisting that liberty shall always be with us, and shall be regulated by law, the will of the majority.

"We are confronted today with a serious question of authority: namely, shall we submit to the authority of an assortment of so-called labor leaders, or shall we obey the mandate of the duly authorized authority of our government?

"The struggle is now on, and I feel quite confident that a careful review of the question received at the hands of the workmen will bring about in the near future a return to the occupations recently deserted, a manifestation of loyalty to their occupations, a feeling of confidence in their employers—a result that will insure happiness at home and respect from their fellow citizens.

"This country belongs to its people, and they know it, and we can depend upon them to act wisely, therefore, don't worry. Prosperity is with us, and by your efforts will remain with us."

Ranch Employee Sulfide.

KLAMATH FALLS, Or., July 22.—(Special.)—Shouting "goodbye," Harry Krinson, 31 for two years an employee on a ranch near here, late last night ended his life by drinking a pint of formaldehyde. Although removed to a hospital immediately after drinking the poison he died within one-half hour.

Another chapter in his gospel of prosperity was sent out broadcast from the Hawley radio station in Irvington Friday night by S. M. Vaulain, president of the Baldwin Locomotive works.

AUTO CAMP TOURISTS WANT TO KNOW ABOUT 1925 FAIR

Many Who Are Planning to Locate Here Apparently Are Convinced Great Portland Exposition Is Certainty.

Portland going to have a world's fair here in 1925? This is the question incessantly asked by visitors from far and near at Portland's auto camp. It seems that many visitors are convinced the fair is coming, if one may judge from the number who have decided to make their homes here.

Mr. and Mrs. J. A. Cobb of Spokane are the first of a throng of months' journey through the west, will visit points in California and Texas and the Yellowstone park.

On July 23, last year, Mr. and Mrs. R. E. Tuckett left their home at Burley, Idaho, on a tour which will continue indefinitely until Mrs. Tuckett's health improves.

From Penticton, B. C., on the shores of Lake Okanagan, come Mr. and Mrs. W. Maden and family and Mr. and Mrs. W. E. Long and family.

At the radio station Mr. Vaulain was the guest of W. P. Hawley and his son, W. P. Hawley Jr. Following his talk he will return to his home in the city.

YEOMEN'S HOME SOUGHT SITE FOR BIG INSTITUTION DISCUSSED AT LUNCHEON

Tract of About 1700 Acres Part of Proposal to Establish Retreat in This State.

Portland's and Oregon's opportunity to be selected as the site of the large children's home and school to be erected some place in the United States by the Brotherhood of American Yeomen was discussed yesterday noon at a Chamber of Commerce luncheon attended by representatives of 35 civic organizations.

A. N. Farmer, secretary of the children's home building committee for the United States, who is making a tour of the country looking for a site of from 1000 to 1700 acres of farm land for the institution stated the plans of his organization. He was preceded in his address by Mayor Baker, who pointed out the superior climatic and healthful conditions of this country which would be ideal for the location of one of the children's hospitals to be established in the United States by the Shriners.

After viewing the many outstanding features of Portland and Oregon, you locate your children's home elsewhere, your conscience forever will be hurt you," the mayor said to Mr. Farmer.

The home will differ from any institution now existing. A fund of \$200,000 from special endowments is available and beginning last September a levy of 10 cents a month has been made on every Yeoman toward the fund. There are 308,900 members of the organization in America and 4000 in Oregon.

HORNER GETS NEW TITLE SERVICES IN HISTORICAL RESEARCH RECOGNIZED

Agricultural College Department Gets Valuable Contributions From Citizens.

OREGON AGRICULTURAL COLLEGE, Corvallis, July 22.—(Special.)—John B. Horner, who as head of the department of history has for several years performed the duty of director of Oregon historical research, now has the title of "director of Oregon historical research" given by the board of regents in recognition of his services.

The action of the board of regents follows the action of the Oregon legislature, which by joint resolution February 25, 1921, unanimously commended "Prof. John B. Horner, director of Oregon historical research."

Never fear: all the difficulties of the present are insubstantial compared with the world war. We have our country, we have our liberty and the same common people who won the great war will never permit ought but lawful procedure in our pursuit of health, wealth and happiness, insisting that liberty shall always be with us, and shall be regulated by law, the will of the majority.

"We are confronted today with a serious question of authority: namely, shall we submit to the authority of an assortment of so-called labor leaders, or shall we obey the mandate of the duly authorized authority of our government?"

"The struggle is now on, and I feel quite confident that a careful review of the question received at the hands of the workmen will bring about in the near future a return to the occupations recently deserted, a manifestation of loyalty to their occupations, a feeling of confidence in their employers—a result that will insure happiness at home and respect from their fellow citizens."

This country belongs to its people, and they know it, and we can depend upon them to act wisely, therefore, don't worry. Prosperity is with us, and by your efforts will remain with us."

Ranch Employee Sulfide.

KLAMATH FALLS, Or., July 22.—(Special.)—Shouting "goodbye," Harry Krinson, 31 for two years an employee on a ranch near here, late last night ended his life by drinking a pint of formaldehyde. Although removed to a hospital immediately after drinking the poison he died within one-half hour.

Another chapter in his gospel of prosperity was sent out broadcast from the Hawley radio station in Irvington Friday night by S. M. Vaulain, president of the Baldwin Locomotive works.

SECOND MUNICIPAL JUDGE IS PROPOSED

Another Division of Court Is Planned by Mayor.

TRIBUNAL IS SWAMPED

Practice of Traffic Policemen Acting as Jurist in Cases of Violations Condemned.

Creation of a second municipal judgeship to help handle the ever-increasing girth of cases that come into the municipal court each day will be provided for in an ordinance which Mayor Baker will present to the city council in the near future.

Should the council approve the mayor's plan—and behind the mayor's suggestion is a raft of statistics to show that it is not humanly possible for one judge to handle the cases under police court jurisdiction—the present system of handling minor traffic violations will be transferred from the traffic department to the court itself.

Remedial Steps Necessary. Even if the council should disapprove the plan of another police judge Mayor Baker will work out some plan to correct the present evil of permitting a police officer to serve as accuser, prosecutor and judge in the handling of traffic violations.

This condition in reality caused the mayor to give attention to the need of relief in the municipal court. Violators of traffic laws are now taken before an officer in the traffic division and there, in many cases, caused to deposit a small sum that is designated as "bail money." As a matter of fact, this "bail" is a fine, although at present there is no legislation authorizing the collection of fines for violators of municipal ordinances except by the police judge.

Judge Ekwall is not able to handle the increasing work of the police department without the aid of someone, and this is especially true when a jury case comes into the municipal court.

"It is false economy for the city to attempt to operate the police court in the same manner that prevailed 20 years ago," said Mayor Baker. "Another police judge would result in a division of the work, bring all cases into the jurisdiction of a court, bring more equity to the persons who are required to appear before the court and, finally, add to the receipts of the court."

The proposal for the creation of another police judgeship was presented to the voters several years ago but was disapproved. City officials attributed this action on the part of the voters to a lack of understanding of the congestion that prevails in the police court.

Council Has Authority. City Attorney Grant has informed the mayor that the council has full authority to create the position of an additional municipal judgeship. Mayor Baker explained that he had made full investigation of the plan, now in vogue of a police officer handling minor traffic violations and was convinced that not only was this plan illegal, but very poor practice.

Offenders Go to Jail. Manuel Rivers and Pete Roco, proprietor and cook in the Savoy restaurant at Klamath Falls, were fined \$20 each by Judge Bean in federal court yesterday. The two were arrested in May in the course of a raid on the restaurant and were convicted by a jury Friday on a charge of violating the prohibition law. Unable to pay the fines, both were taken to the county jail.

S & H. green stamps for cash. Holman Fuel Co., coal and wood. Broadway 6352; 560-21.—Adv.

SCHOOL FIGHT IS BEGUN

Clackamas County Residents Ask for New District.

An effort to split the boundary of school district No. 1 in Clackamas county, which includes Milwaukie, is being made by a group of taxpayers in a strip of territory lying between Johnson creek and the Willamette river. A petition with 14 signatures was presented recently to the district boundary commission of the county, urging the formation of a new school district which would include the area in which the petitioners reside.

Residents of district No. 1 in Milwaukie have been urged by the clerk of the district, A. H. Zanders, to take immediate action to defeat the purposes of the petition. Taxpayers intend to appear before the board at a meeting in Oregon City to voice their protest.

Beach Service to Be Inspected. W. P. Turner, president of the Spokane, Portland & Seattle railway, went to Seaside yesterday to make a personal inspection of the service of his company to the northwest Oregon beach resorts. The season is at its height and the traffic is heavy. The Spokane, Portland & Seattle is one of the few lines that has, as yet, cancelled none of its trains, either freight or passenger, due to the prevailing strike of railway shompen. It was announced at Mr. Turner's office.

Welfare League to Meet. A meeting of the recently organized Irvington Park Welfare League will be held at the Kennedy school Tuesday night for the purpose of announcing the appointments of the various standing committees and outlining the duties of each. A special campaign for new members for the league will be started soon, according to O. G. Edwards, president.

Logging Camp Resumes. KELESO, Wash., July 22.—The Barr logging camp on the Coweeman is resuming Monday, after having been shut down since July 4. R. H. Barr, head of the logging operation, has been in charge of the fire-fighting organization on the upper Coweeman, but that fire is now well under control and he again will take charge of the logging work. About 35 men are employed at the camp.
