TRIAL ON RECOUNT

OPENS TOMORROW

Hearing Lasting Seven or

Eight Weeks Predicted.

PROCEDURE NOT SETTLED

Calling of 3000 Witnesses Is Pre

SALEM, Or., July 29.—(Special.)— Trial of the election contest pro-ceedings filed recently on behalf of

Charles Hall, defeated candidate for

the republican nomination for gov-ernor at the primary contests last May, will start in the Marion county circuit court Monday morning. Judges G. G. Bingham and Percy

Kelly will preside at the trial, which, according to attorneys, may last seven or eight weeks.

Although the procedure has not been determined definitely by the court, it was intimated today that

the recounting of the ballots proba-

bly will get under way some time next week. What ballots will be recounted, it was said, will depend upon the testimony offered by the contestant to substantiate his alle-

gations of fraud. Unless irregularities or fraud are proved by competent testimony, some of the attorneys interested in the case have

expressed the opinion that the court is not compelled to order the re-

## CHAOS IN EUROPE HELD TRADE BLOW

Stabilization Is Declared Needed for Prosperity.

**U. S. SHIPPERS CARELESS** 

Worked Out With Enough Care, Says Mr. Geary.

That the prosperity of the United tates is dependent upon the stabil-ation of European affairs and that he people of the northwest are directly affected by the unemploy-ment conditions in Great Britain and by the financial chaos on the continent of Europe was the im-pression gained by Arthur M. Geary, Portland attorney, who has just re-turned from two months passed at the principal ports of Great Britain, France, Holland, Denmark and Ger-

Also Mr. Geary believes that many American shippers have been careless in working out the details of their foreign business, which must be remedied in the future.

"The laborers of central Europe are the 'scabe' of the labor world. Working now for what in gold marks and relative values of living meccasities is about one-third of the wages received before the war, Ger-man and Austrian labor has been a strong factor in forcing down wages and standards of living, not only in Europe but all over the civilized world. Realizing that in order to get back into the markets with their goods Germany must un dersell her competitors, labor has consented to accept the wages as they are and has gone to work. Also the financiers may have kept them fooled for a while with the rapid increases in number of paper marks paid for labor.

Prices Figured in Pounds. The constant changing of ex-I was in Germany and then came a drop in the value of the mark and work went on. Just to what extent the dropping of the value of the

new murder of public men causes and also by the fact that the Gerdaughter of David Foulkes of this mans consider that there is no end city.

At Rev. Mr. Brougher's services At Rev. Mr. Brougher's services

With 1,800,000 men still out of em-ployment, Great Britain is badly in need of the German and Russian markets for the products of their factories. She appears willing to take any steps necessary to stabilize financial conditions in Europe and to permit these, peoples to raise their standards of living so as not to

wreck conditions in Great Britain. "Some people feel that the unfor-tunate attitude of France is the obstacle in the Way of progress along the road to prosperity. But the American people should realize that reaction people should realize that if Germany fulfilled her obligations menth by month on the basis now arranged, there would he no more than enough money forthcoming to France for her to pay Great Britain and the United States interest money due and the portion of the est money due and the portion of the principal that would fall due under a 25-year amortization plan. France would then still have to pay for re-building devastated France. If Ger-man reparations are to be reduced to a point that will enable her to be inanced by loans from American and English bankers, there should to corresponding reductions in the and Great Britain.
"We have some fine crops coming

we are directly interested in having among our people there sufficient buying power. And the same is true of our other foreign markets,'

### SCHOOL HEADS ORGANIZE

Superintendents in Larger Cities of State Form Association.

UNIVERSITY OF OREGON, Eugene, July 23.—E. F. Cariton of Eu-gene is president and R. R. Turner of Dallas secretary of an organiza-tion of superintendents of schools of the larger cities of the state, formed at the close of the university sum-mer session. Ten of the 20 superin-tendents in districts of the first class in Oregon were present at the

meeting.

The first matter of importance taken up by the new organization was the preparation of syllabl for the courses of study in the elementary grades, based on the state tourse which is to go into effect at the opening of the fall term of school. These syllabl are to look more specifically to the needs of the larger districts. They are to be issued at an early date, when each superintendent will be supplied with one. Superintendents who were not present at the organization meeting will be asked to collaborate in each than in the work of preparation.

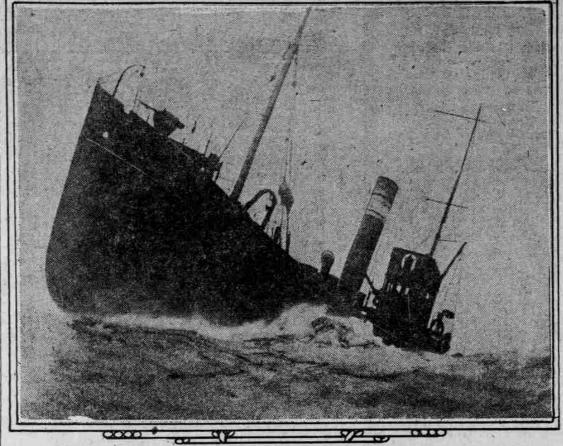

Leap From Bridge.

Warnings from the spirits was the reason which Elizabeth Wolke, 31 by arrived. They are to be issued at an early date, when each superintendent will be supplied with one. Superintendents who were not present at the organization meeting will be asked to collaborate in each than at the problem of the railing. They caught her and the railing. They caught her and the railing arrived.
