—(Special.)—Fire of undetermined origin broke out in the pumping sta-

Also Is Candidate.

CONTEST TO BE STIRRING

Senator Poindexter and Judge Griffiths Busy: Mrs. Axtell's Campaign Lingering.

PUGET SOUND BUREAU, Seattle, Wash., July 29.—Colonel George B. Senate Candidate for Modification Lamping of Seattle has made up his mind. He will be a candidate for the republican nomination for United States senator. Notice of his candidacy was filed with the secretary to Colonel Lamping, he would have filled earlier except for the fact that he has been unusually busy with the affairs of the port of Seattle, of the affairs of the commission-

James A. Duncan, secretary of the Seattle central labor council, will also be a candidate for the United States senate. He has announced ment. his readiness to accept the nomina-tion of the farmer-labor party, which is scheduled to hold its state nominating convention on Septem-ber 12, the day on which the primaries of the older parties will be held. In a long statement in the Scattle Union Record Mr. Duncan says that he has reluctantly yielded to the pressure of friends who believe, as he does, that the third-party move-ment should be kept alive, so that citizens who are opposed to the older parties may have a ticket for which their votes can be honestly

Seattle List Lengthened.

The addition of Colonel Lamping and Mr. Duncan will stretch the list of Seattle candidates for the senste. Judge Austin E. Griffiths, John E. Ballaine and George H. Stevenson are all residents of this city. Judge Griffiths had filed for the republican nomination, and no switch in the situation can be imagboth Ballaine and Stevenson, but neither has filed so far. Except Senator Poindexter, the only candidate outside of Seattle who has qualified by filing is Mrs. Frances shown C. Axtell of Bellingham,

C. Axtell of Bellingham.

In 1920 the famer-labor party of Washington was a formidable organization. Its candidates for congressional and state offices generally outran the democratic party candidates. How much of this strength can again be mustered is problematical, but its persistence as a political entity will have the effect of keeping many of its adherents out of the republican and herents out of the republican and democratic party primaries. Considering the elements of which the farmer-labor party presumably consists, as indicated by its title, it may be said that Senator Poindexter has always had a strong following among the farmers of the state of others. Their stills usually are located in tracessible places in the second content of the state of their operations, one-stidence of thein

ould function politically through the third party or seek control of the republican party primaries. The third-party movement was deci-sively defeated, so far as the deci-sion of the federation delegates is concerned, leaving organized labor free to vote with the republicans. But the third-party promoters are going right ahead with their plans for a congressional ticket. The re-sult will be a scattering of these forces in accordance with personal desires, and the pull of influential leaders. The bulk of the so-called labor vote will be cast in the republican primaries. It will be divided

between Judge Griffiths, Colonel Lamping and Mrs Axtell. With the filing of Colonel Lamping next week the list of repub-lican candidates probably will be completed. There seems no likeli-hood of any further entries Lamp-ing is acceptable to W. H. Paulhamus of Sumner and probably will have all the help that Paulhamus can give him. Others whose names children will be transported to have been mentioned as possible Kelso for their education. Consol-candidates udoubtedly will keep out dation of the Castle Rock and Sandy of it, since the field, from the view-point of ayone who wishes to see Senator Poindexter defeated, will be well crowded when Colonel Lamping

Poindexter and Griffiths Busy.,

Senator Poindexter and Judge Griffiths are actively at work. Mrs. Axtell's campaign seems still to be lingering in the preparatory stages. Colonel Lamping's organization plans are only in outline, but it will not take him long to get going.

Mrs. Axtell's candidacy does not appear to have avoited the him de-

appear to have excited the high degree of interest among the women of the state that was predicted for it. This failure of feminine response has been something of a disappointment to those who believed that a woman candidate for the senate would sweep up the whole women's vote of the state. There is no question that Mrs. Axtell's position has been weakened during the past ten days with certain newspapers that are set on the defeat of Senator Polydester.

Poindexter. Survey of the state newspaper field at this early stage of the campaign indicates that Judge Griffiths will be courteously, and in many cases generously, treated by all the newspapers. Colonel Lamp-ing will start with the support of the Seattle Star, a Scripps news-paper, and probably of the Tacoma Times and Spokane Press, both of Scripps ownership.

Henrat Helps Mrs. Axtell. Mrs. Axtell's friends say she had a great deal of encouragement from Mr. Hearst's Post-Intelligencer up to the time she filed as a candidate, but that the failure of noisy and convincing reaction to her candi-dacy has resulted in some degree of journalistic coolness toward her. It seems certain that the Post-Intel-ligencer will do nothing to detract from the support of either Colonel Lamping or Judge Griffiths; but it is doubtful if it will give much direct help to either. Senator Poindexter's alleged unfitness will be emphasized daily, and the candidates opposing him may take their change out of that.

By far the great majority of the state newspapers, large and small

By far the great majority of the state newspapers, large and small, are no far non-committal, with a somewhat general inclination to fa-vor Senator Poindexter and a still more pronounced tendency to resent

the source and character of the Poindexter Supporters Stirred.

Since his return to the state Sen

or Poindexter has stirred his supporters to a realization that there is really a fight in progress and that his renomination and re-election are James A. Duncan, Seattle, by no means assured without vigorous effort. The three large meetings that he has addressed in Spokane, Seattle and Tacoma, have been kane, Seattle and Tacoma, have been good meetings of interested citizens, but itswould be stretching the truth to say that any of them has been marked by unbounded enthuslasm. So far there has been no means of testing the extent of the dissatisfaction with Senator Poindexter. The declared opposition to him has come from various and him has come from various and generally incompatible sources, and the number of candidates out

against him makes it certain that the opposition is to be kept divided. For this reason Colonel Lamping's candidacy will not be at all unwel-come to the Poindexter following.

Washington Committee Reports to Governor.

ASSESSING SYSTEM HIT

Assessment of Taxable Property at 100 Per Cent of Value Is Recommended.

WHAT THE WASHINGTON STATE TAX INVESTIGA-TION COMMITTEE REC-OMMENDED.

Primary Recommendations.

1-One hundred per cent assessment; 50 per cent tax basis.

2-State control of county assessors.
3-Abolition of the state board of equalization.
4-Budget system for all tax-

expending agencies.
5—State assessment of all public utilities. ondary Recommendations 6-Doubling of corporation license fees and sliding

license fees and sliding scale of filing fees. 7—Increased filing fees for county offices. 8-Elimination of \$300 ex-

emption except on house-hold goods and personal apparel. 1-Serial bonds for public utilities.

10—State jurisdiction over all "for-hire" automobiles.

11—Gross earnings tax for all classes of "for-hire" au-

tomobiles. 13-Increased gasoline tax. Other Recommendations.

13-Separate courts for highway law violations.

14 Mortgage recording tax.

15 State standard of educa-16-Fixed school district tax

levy with state tax to make up deficits. 17—Tax exemption to encourage reforestation.
18—Polltax repeal.

OLYMPIA, Wash., July 29,-(Speial.)-Eighteen concrete recommendations for changes in the taxing

half that amount as the basis for the tax levy is the first recommen-dation of the committee, followed by an advocacy of a change whereby all county assessors would be placed under the jurisdiction of the state tax commissioner and the state board of equalization abolished. Adoption of the budget system for all tax-expending bodies is urged.

Increased Gas Tax Favored

school purposes to make up the defi-cits in those districts which were not self-supporting on their own

Uniform Assessment Recommended.
The present system makes it possible for each county to assess on a different basis of value, according to the opinion of each local assessor. The remedy suggested provides for the placing of all the property in the state on the tax rolls on a 100 per cent basis, using the 50 per cent of this amount upon which to levy the tax. To do this properly requires as absolute state control. Phone your want ads to The Oregonian. All its readers are interested in the classified columns.

ticular to make it conform to the rolls of other counties, with the further power in the state to make a new roll for any county wherein the local assessor falls or refuses to comply with the law. With the establishment of state control and supervision over the assessment of all property there will be no reason for the existence of a state board of equalization. The bureau of taxation will see to it that

reau of taxation will see to it that all property is assessed upon the same basis. The abolition of the present board of equalization is recommended. The act under which the committee was created states that real estate and personal property are bearing more than their share of the tax load. The committee finds this to be true, but cannot find that any large share of the property in the state is escaping its tax duty, but the burden is not equally distributed because of the faulty assessment of property.
