

EUROPE HELD LOST UNLESS DEBTS DIE

Poincare to Meet Lloyd
George Tomorrow.

GRAVE ISSUE IS FACED

Germany Declared to Be Clattering
Into Abyss Where Austria
Lies; Others May Follow.

BY A. G. GARDINER.
Britain's Greatest Liberal Editor.
(Copyright, 1922, by The Oregonian.)
LONDON, Aug. 5.—(Special Cable.)
—On Monday Premier Poincare of
France will meet with Lloyd George
and the subject of German
reparations. The circumstances
are momentous.

Whether Earl Balfour's circular
note was addressed primarily to
France or America, its effect has
been equally important. It was
a world issue the touchstone of
realities.

I foreboded this development
in my previous dispatches. It comes
as the result of many circumstances,
the chief one being the collapse of
the mark, which has dispersed the
last shred of peace in the
gravity of the German position. It
is realized now that Germany is
clattering into the abyss where Aus-
tria lies, and if the plunge is not
stopped the rest of Europe will fol-
low.

Debt Cancellation Asked.
Earl Balfour's note is in sub-
stance a declaration for a clean
slate for all world debts. The longer
the vain pursuit of shadows con-
tinues the deeper the world sinks in
the bog of universal ruin. The only
way of escape is to cut the losses
and get down to business.

The re-establishment of a world
atmosphere of peace is the condi-
tion of recovery. You cannot insist
like a plague over the face of Eu-
rope. That is the profit in demand-
ing reparations which you cannot
collect. It is the policy of Shy-
lock's pound of flesh. But corpses
are poor customers.

What effect will the Balfour note
have on Monday's conference? Eng-
land is prepared to forego claims to
reparations if France will adopt a
moderate policy.

Great Controversy Waging.
A great controversy is waging in
England as to the wisdom of the
Balfour proposals. It is recognized
that it practically leaves the whole
problem of cancellation dependent
on American action. All opinion is
agreed as to the wisdom of can-
cellation, but there is a sharp dis-
agreement as to whether England
can act alone.

On one side it is pointed out that
England's debt to America was in-
curred in behalf of France and that
to forego reparations is to cancel the
French debt and continue to pay
interest on the American debt is an
impossible burden to place on
British taxpayers.

Moreover, feeling is strong that
French policy has brought Europe to
the present desperate pass.
France is showing no disposition
to disarm, no disposition to con-
struct herself, although British
taxpayers are struggling under an in-
tolerable burden. Meanwhile as to
the French income tax it is to
laugh.

Farmers Wholly Exempt.
Farmers are wholly exempt from
it. Last year only 41 per cent of
the tax levied was collected. It is
argued with force that England
cannot pay the French debt to
America while French taxpayers re-
fuse to bear any of the English-
man's burden.

On the side, it is said that unless
a grand gesture comes from some
quarter without delay nothing can
stop Europe's rot. Europe cannot
continue to wait for America. It is
true that England cannot cancel
debts owed to her and at the same
time honor debts that she owes to
others. But still less can England
stand by and witness Europe go to
pieces.

It is a strange spectacle that the
reactionaries who have done the
most to encourage France in her
latter day policies, are those who
now refuse the consequences of
those policies. One thing becomes
clearer day by day. In the end
reparations and debt alike will be
jettisoned or they will sink the
ship. The only question is whether
cancellation all around can come
in time.

If it came now, with a repudiation
of French policy and the sub-
stitution of the Anglo-American
policy of peace and disarmament
mutual aid, Europe might perhaps
be saved.

The world wants a great leader
and it looks for it. It is perishing
for lack of vision.

WOMEN BOBBING TOES

AMPUTATION BRINGS ABILITY TO WEAR SMALLER SHOE.

Several Plan to Attend Clinic of
Chicago Chiropodist Tomor-
row for Operations.

CHICAGO, Aug. 5.—Lovely woman
has not stopped at bobbing her hair
and skirt. She is now bobbing her
toes. It is the fifth, or little toe
that is disappearing via the chiropod-
ist's knife. Along with it, in
many cases goes a troublesome corn
and also enables the woman who
submits to the amputation to wear
smaller shoes.

"The fifth toes has become en-
tirely unnecessary," said Dr. Clif-
ford S. Griggs, president of the Illi-
nois College of Chiropody. "With it
amputated, shoes will be fitted to
women more easily. It has been
proved that the loss of the little toe
is no impediment to locomotion. In
numerous cases it has been so in-
jured and bruised by the constant
pressure of incorrect shoes that am-
putation is very desirable."

It was announced today that sev-
eral women will appear before the
eleventh annual convention of chi-
ropodists Monday and have their
fifth toes amputated in a clinic be-
lieve the delegates.
