The New Nestle Lanoil Wave MAKES HAIR MORE BEAUTIFUL

A Permanent Wave Which is Lasting.

—The past week has proved conclusively that Portland women are thoroughly posted on the latest modes in hair dressing. Our expert beauty parlor operators have been busy giving the new Lanoil Wave and every customer has been highly pleased. —WE ARE recognized Lanoil Wavers, qualified to give you the genuine Lanoil Wave with skill, speed and complete comfort. —Permanent waving is surely the thing of the future, for whatever drawbacks stood in the way of rapid development in permanent waving of the past have been entirely removed by the discovery of the Nestle LANOIL Process. The complaints made against former processes were, in the main, that the hair got too dry and brittle, that it was a torturous proceeding and somewhat dangerous to apply. Just the opposite can be contended for the LANOIL process. There is no attack on the hair structure or its grease filaments connected with the LANOIL, and certainly the waving operation can be made as comfortable as a shampoo or marcel wave.
