MISTREATMENT BY PICTURE-MAKERS CHARGED.

Private Business Declared Invaded and Orientals Pictured as Willy Lawbreakers.

Portland, Chinese, residents of the old oriental section along Second street, are up in arms against movie picture makers. It all came about Friday when one of the local troupes was filming some acts of an underworld drama. According to the Chinese, they did not obtain permission to make use of private premises, but showed the Chinese aside and went on with their photography, ignoring the protests of the residents of the section.

YAMHILL AGAINST WHOLE WORLD IS CHALLENGE OF PIONEER COMMUNITY

After Eight-Year Lapse County Fair is Again Started and McMinnville Entertains 10,000 Visitors; 47 Varieties of Fruits and Vegetables are Presented in Display of One Exhibitor.

OLD YAMHILL has once again stepped out. After a lapse of eight years this pioneer community held its county fair last week. The show lasted three days and McMinnville was crowded with an unprecedented number of visitors. To state that the fair exceeded the fondest expectations of its promoters is to put it mildly.

It is likely that the first agricultural exhibition in the state was held in Yamhill county, always admitted to be one of the most prosperous sections of the Willamette valley. The climax of the exposition came on Wednesday when parade two miles long paid tribute to old Yamhill. All nearby communities took part in this demonstration and emissaries were present from every section of the state.

Their success assures another fair in 1923 and the Yamhill event promises to take rank once more as one of the predominant exhibitions of its character in the state. At the same time the fair was held the American Legion of the county held their second annual encampment. The new state armory housed the major portion of the smaller exhibits, the livestock being accommodated under canvas nearby.

For the occasion McMinnville took on a gala appearance and the decorations were worthy of more than passing notice.

MISSIONARY TO MEXICANS LAUDS INDIANS' CULTURE

Natives Declared Musical, Hospitable and Capable of High Development if Given Chance.

CITIZENS of Mexico are music lovers and hospitable to an unusual degree. Mexican Indians, instead of being savages, are artistic by nature and capable of high culture; few are by nature more courteous and lovable than they. Since the days of 1848 people of the United States have done almost nothing to help Mexico. There is not much hope for this unbelievably rich country until its government is recognized by our own and foreign powers.

LOT OF EUROPEANS DECLARED PITIFUL

Portland Dentist Is Back From Trip Abroad.

GERMANY FACES CRISIS

"See Europe First and You'll Appreciate America," Says Returned Traveler.

See Europe and then you will appreciate America, according to the declaration of Dr. N. Stuart Reingold, Portland dentist, who returned last week from a trip during which he visited the principal countries on the European continent.

He also declared that Germany was near financial ruin. Relative to the feelings of the peoples of Europe toward Americans, he declared that Germany was the only place where people from this country were really welcomed. In the other countries he said the recent interview given out by Kipling expressed largely the feeling of the people toward Americans.

"I cannot say that I believe in the slogan 'See America First,'" said Dr. Reingold. "I think that if one sees Europe first he will then appreciate America always."

GERMANY NEAR ROAD OF RUPE

"The average American going through Europe does not realize all this. German fields are laden with beautiful crops and every factory is more wonderful than our own scenery. We have them all surpassed here in Oregon. We are living in the real Garden of the Gods, the paradise of the earth."

Dr. Reingold said that financially and economically conditions in Europe are pitiful, especially in Russia, Italy and Germany.

"Germany is being forced to the brink," he declared. "The French say that Germany has the money to pay; and let them pay. This may be true. The capitalists of Germany undoubtedly have plenty of money, but they do not feel like paying the national debt and so Germany is being forced into bankruptcy, forced into revolution and forced into possible anarchy."

Dr. Reingold gave several post-graduate classes in different countries in Europe and attended several surgical clinics. He said that he would resume practicing in Portland.

MAKES THE DEAF HEAR

Remarkable Invention Enables the Deaf to Hear All Sounds Clearly.

Everyone who is troubled with deafness in any form will be interested in the announcement of the Dico-graph Products corporation, suite 507, Monadnock building, 681 Market street, San Francisco, Cal., that they have at last perfected a device which enables everybody whose auditory nerve is not entirely destroyed to hear as perfectly as one whose hearing is normal. To test it thoroughly they sent it to a number of people who had been deaf for years and they report most gratifying results. Many state that they hear the slightest sound with perfect ease and that their natural hearing has been greatly improved.

The manufacturers are so proud of their achievement and so confident that every deaf person will be amazed and delighted with it that they offer to send it to anyone by prepaid parcel post on ten days free trial. They do not ship C. O. D., nor do they require any deposit, but they will be a fee of 50 cents, which will include police protection.
