Klan Is Arkansas Issue. The Ku Klux Klan was made an issue of the democratic primary campaign in some sections of Arkansas, and the ticket sanctioned by the klansmen led in Pulaski county and Little Rock, its county seat, at the primary August 8.
Neither of the gubernatorial candidates took sides in this controversy, but Governor T. C. McRae, whose nomination August 8 was regarded as equivalent to election, was understood to have been in-dorsed by klan supporters. He made his fight on his record and on a platform of rigid enforcement of laws touching Sabbath observance and prohibition. He was indorsed by a number of union labor leaders. The Muscle Shoals project cropped up as an issue in the last days of what observers had termed an un-usually listless primary campaign in Alabama. It figured in the conbuilding, which is being completed at a cost of practically \$20,900, to house Lester C. Rees post of New-berg. throughout the state.

While the cpinion was expressed that the telephone companies did not seriously expect to get increased rates, but merely wanted to offset the state department's recent action to lower phone rates, in the hope the present rates would be allowed to stand, nevertheless first steps were taken to get in line in case a joint fight by Washington cities is directed against the new rate schedules. Indications from over the state were that such a united protest would be forthco ring.

"The phone companies simply are trying to meet the attempt to lower phone rates by filing an application for increased rates, in the hope a compromise can be made to keep the present rates," said Mayor Fawcett. "The city attorney is starting action towards protest." Zip E. Pichett, Harry L. Rice, Harold C. Skinner, Robert Terry, Herman

## FUGITIVE MAKES ESCAPE

Ex-Manager of Tacoma Bank Seen Last in Idaho Town.

TACOMA, Wash., Sept. 23 .- (Spe cial.)—Spencer Conrow, ex-manager of the Bank of California, Tacoma who is wanted here on a charge of embezzlement, has made good his escape from Washington and is mak-

ing his way eastward.

This is the theory on which the department of justice operatives are working in an effort to arrest the

fugitive.
According to advices received in According to advices received in Tacoma, Conrow was seen at a point in Idaho by a man whose name has not been divulged. The person, who formerly knew Conrow in Tacoma, talked with the fugitive about conditions in this city, not knowing at the time that he was a fugitive from justice.

In addition to the actual tangible results in production and those cer-tain to follow with the completion of works now in progress, there are great opportunities for development of the territory lying in the more elevated and mountainous section between Portland and Yakima. It is asserted by those who declare they know, that there are immense beds of coal of high quality that are but waiting transportation facilities to be developed and become producing enterprises. > Having answered the "why," the next question to be answered is "how?" The answer to this is easy but the realization is more difficult. The answer is, of course, rail and highway transportation direct from Portland to the valley of the Yakima. It is to cut off 150 miles of useless, costly transportation, give the Yakima country an-other market and outlet, and place ourselves as to rates and opportunity on terms of parity with our neighbors.

However, in order to bring this about, the first thing is for the peo-ple of this city to become absolutely convinced as to the facts-to b sold to the idea, or have the idea sold to them. There can be no question that if this community realized what a direct connect with the Yakima valley meant to it and to everyone in it there would at least, and promptly, too, be a committee appointed composed of our best, ablest and most aggressive men to handle the subject and to co-operate with a like committee o residents of Yakima.
