

TWO OUTLAWS SHOT IN \$20,000-HOLDUP

Police Shotgun Squad Robbers in Motorcar.

SIX BANDITS SCATTERED

Sensational Battle Fought in Busy Street of San Francisco Near Business Center of City.

SAN FRANCISCO, Oct. 7.—Members of the police shotgun squad badly wounded two men today in frustrating attempt to holdup an automobile conveying \$20,000 to the Dairy Delivery company in the Mission district to pay its employees.

Two other robbers are thought to have been shot.

Two policemen were riding in the pay car when the outlaws' car attempted to crowd it to the curb. The policemen fired and two of the men fled. Two others leaped from the car. The policemen followed, firing repeatedly. Both men staggered, but occupied in an alley.

One Man May Die. The men who fell said their names were Marion McGowan and Edward Stewart, who was shot through the chest and may die. It is said he also is known as Collins. McGowan was shot through both arms.

Police are searching for a man with a wounded head, who was seen to leave a street car and enter the place of the attempted holdup. Another automobile was being held up when the pay car approached and the bandits transferred their attempt to it.

Two Other Outlaws Escape. The police said that two other men, who had been acting as lookouts, commandeered a nearby automobile after the shooting and drove away at breakneck speed. Police in automobiles armed with shotguns are searching for them.

The pay car picked up the policemen in the neighborhood a moment before the shooting. The policemen had been tracking the six suspects on a "tip" that they were going to attempt to rob a store.

The shooting was at Eighth and Howard streets, two blocks from one of the busiest sections of Market street. The holdup was attempted despite passing street cars and automobiles and the presence of dozens of pedestrians.

CHINESE AGAIN AT WAR

Forces of Sun Yat Sen Reported Fighting Way to Foochow.

AMOI, China, Oct. 7.—(By the Associated Press.)—Fighting is reported near Foochow, capital of the province of Fukien. Sun Yat Sen, president of the Republic of China, is said to be back of a movement aimed apparently at the capture of Foochow and the ouster of Li How Chi, the provincial tuchun.

General Hsu Taung Chi, who commanded Sun Yat-Sen's defeated army, has retreated to headquarters at Yenping, northwest of Foochow, having marched overland from south Kiangsi province by way of Pingchow.

General Wang Yuen Chang's headquarters at Kienningfu, north of Yenping, is rebelling against Li How Chi and combining forces with General Hsu in threatening Foochow.

Many persons, participating trouble, are leaving Foochow. Financial conditions throughout Fukien province are critical.

SOCIALISTS IN COURT

Injunction Proceedings Designed to Keep Names Off Ballot.

HELENA, Mont., Oct. 7.—Whether or not names of socialist candidates for Montana state and congressional offices will appear on the general election ballot in November depends on action to be taken by the supreme court next Tuesday.

Secretary of State Stewart today had been served with copies of a temporary injunction, issued by the court on application of R. M. Mills of Helena, forbidding the candidates in question the ballot. Mr. Stewart immediately stopped the printing of ballot certification forms, pending action on the injunction.

Right of the socialists to place on the ballot was questioned because the state convention was not held until after the primary. It was held by socialist leaders that lack of party organization in Montana the last few years gave the group status of a new party.

MR. MOODY CONSPICUOUS

Portland Attorney Has Important Role in War Fraud Cases.

THE OREGONIAN NEWSBUREAU, Washington, D. C., Oct. 7.—Ralph E. Moody of Portland, Or., will have a conspicuous part from now on in the preparation of war fraud cases. It has been indicated by the department of justice.

MORE ARMS SHIPPED

Additional Stores Are Reported Given to General Chang.

(Chicago Tribune Foreign News Service.) PEKIN, Oct. 7.—It is asserted here that additional shipments of munitions have been reaching General Chang Tso Lin, the Manchurian war lord, from Vladivostok since the Japanese cabinet ordered an investigation of charges that stores of Czechoslovak arms, being guarded by the Japanese, were stolen and sold to the Chinese military leader.

MAN IS TWICE HANGED

Life Found to Be Not Extinct One Hour After First Attempt.

July 15 for the murder of his cousin, Mrs. Olive Swin Trenholme, and her husband, Harvey Trenholme, a returned soldier of Belle Verte. He then pleaded insanity, and won a reprieve until September 15. On that date a hangman could not be found and the execution was put off. Yesterday a hangman, fictitiously named "M. A. Doyle," sprung the trap. When the body had been cut down, it was discovered that life was not extinct. The noose, it was believed, had not been properly adjusted.

BEER, WINE, OPPOSED

METHODIST OFFICIAL REPORTS ON LIQUOR.

Legalized Sale Would Mean Bill of \$5,000,000,000 Each Year, Says Preacher.

ROCHESTER, N. Y., Oct. 7.—"If the use of beer and light wines should again be permitted in this country, we would have a national drink bill of \$5,000,000,000 a year; the saloon would be with us once more; whisky also would come back, and we would have a new evil in the widespread drinking by women."

These statements were made here tonight by the Rev. Deats Pickett, research secretary of the board of temperance, prohibition and public morals of the Methodist Episcopal church, in an address to the delegates assembled for the Genesee conference of the church.

Supporting his allegations Dr. Pickett said in part: "When the nation closed the saloons our drink bill was nearly \$2,500,000,000. The present drink bill in Great Britain, with about 40,000,000 people, is \$470,000,000, or approximately \$2,250,000,000, which we understand, is practically double what it was before the war. With increased prices and greater consumption, due to after-war tendencies, there is no doubt that our liquor bill would be \$2,500,000,000 annually, not including the incidental losses to the people caused by the renewed traffic. According to Charles Lenson of the American Federation of Labor, the working men of the United States contributed 70 per cent of the drink bill in prohibition days. When the drink bill means to lower the standard of living of our people, particularly of our working classes, to the tune of \$2,500,000,000 at one time!"

"The American saloon was a beer saloon, not a whisky saloon. All of its institutional evils, including its brothel accompaniment, its gambling halls and side-entrances for women introduced by the brewery-owned saloon, would thrive just as well if not better if whisky were sold. You cannot open 200,000 saloons in this country and keep them from selling whisky. This saloon never obeyed any law passed for its regulation except the law compelling it to pay a tax, and the evasions of that were notorious."

"We would have a new evil in widespread drinking by women," Dr. Pickett declared. "The American woman was kept out of the American saloon by the American man considered her too good for the debauching influence of beer. Very few respectable women drank at all in America in the old days. But the old standards of conduct for women are passing away under the influence of the new feminism, and we have not yet had time for the establishment of new standards. In this transition time, the influence of the saloon and the trade, urged by an economic motive and pushed by every method of trade promotion, would be perilous to American womanhood."

GRANDMAS TO HAVE CLUB

South Pasadena Woman Launches Unique Social Movement.

SOUTH PASADENA, Cal., Oct. 7.—A grandmothers' club is being formed by Mrs. J. F. Prugh, who is not a grandmother, but who believes there should be more diversion for elderly women. She says it is the first club of the kind to be organized anywhere.

Agas of members are expected to range from 75 to 88, from present indications, but no grandmother will be barred because of youth. Members whose eyes are not too dim, will sew, making garments for Christmas gifts for grandmothers less fortunate.

A Question

CENSORSHIP HELD DANGEROUS POLICY

World May Be Plunged Into War; Reasons Secret.

WRITERS ISSUE PROTEST

British Said to Tell People Issue of Conflict or Peace None of Their Business.

Imposition of severe censorship on the conference dealing with the near east prevents the actual truth becoming known, and Mr. Balfour says that the developments show how easily the world might again be drawn into another war under existing conditions.

BY WILLIAM BIRD. (Copyright, 1922, by The Oregonian.)

PARIS, Oct. 7.—(Special cable.)—Rejuvenation against censorship. That formula expresses better than any other Europe's crisis this week. Thanks particularly to the British government's attitude the world has been told that the issue of peace or war in the orient is none of its business.

While elderly military statesmen confer and quarrel, perhaps pleading millions of young men's lives, newspaper correspondents are excluded not alone from attending the conference but are ordered to send no news that is not approved by the conference.

The experiences of the elderly surgeon, Serge Varonoff, in attendance at the annual surgical conference here, affords an interesting sidelight on this general attitude. The congress, presided over by a septuagenarian and mainly attended by men who themselves obviously would be benefited by monkey glands, had clapped a censorship on its colleagues whose new methods grow hair on bald heads, turn white beards brown and change senile dotards into devotees of tango palaces.

Protest Is Issued. American correspondents in Europe assembled in Paris have jeffily, with the British, French, German, Swiss, Dutch and Belgian colleagues, issued a protest against this censorship following the discovery of an ugly break among the near east conferees just at the time that the official communiques were asserting that "everything was proceeding satisfactorily." The censorship even prevented learning the reason for the split, which demonstrates how easily the world may again be drawn into war without the slightest knowledge of the causes exactly as the superannuated surgeons, themselves taking of youth, may prevent knowledge of rejuvenating methods and condemn mankind to premature senility.

Atmosphere Is Warlike. In the present circumstances, with little information reaching the outside world except through military and chiefly British sources, the only safe plan is to believe nothing and hear everything. The ridiculous, whickered atrocity stories, re-furnished from the previous crisis, are being made to do duty as news in the hope of creating a warlike atmosphere. Until the press of the world is admitted to full cognizance of what is taking place at these conferences and uncensored transmission of the actual news is allowed, the public should take the near east dispatches as "important if true."
