has prevented the cementing of this vast territory into a strong federal union or the creation of a strong national sentiment.

Selections Intensely Disliked.

Sao Paulo and Minas Geraes, which produce probably 85 per cent of the nation's revenue, are intensely disliked by the rest of the country on the ground that they monopolize 100 per cent of the pork barrel improvements.

NEW CODE RESULTS IN GREAT SAVINGS

Washington State Reforms Cause Big Reductions.

FINANCES IN CONTROL

Administrative Act Has Proved to Be Efficient in Operating Departments Economically.

OLYMPIA, Wash., Nov. 11.—(Special.)—Reduction of the general fund tax levy from 4 1/2 to 2 1/2 mills, with a resultant reduction in taxes of \$7,233,868, wiping out of an overdraft of \$1,929,646.11 that existed April 1, 1921, and showing at the end of 18 months' expenditures from all funds for operation only totaled but \$4,195 per cent or appropriations, with a resultant direct saving of \$1,734,719.41—these are some of the accomplishments made possible by the administrative act, according to a statement issued today by L. D. McArdie, director of the state department of efficiency.

Statement Shows Results.

The statement, the first that has been issued covering a complete period of operation of the administrative act under the auspices of the state government, is a narrative of accomplishment between April 1, 1921, and September 30, 1922—the period in which the biennial budget to be submitted to the legislature has been based.

Government is Co-Ordinated.

It provided for the co-ordination of all governmental functions of the state, combining 71 functions managed by 205 official heads into ten departments managed by ten heads.

States Investigate System.

Twenty-nine states have investigated and adopted the administrative act, or a modified version of it, to effect three essential requirements, viz: Greater efficiency, direct responsibility, and lower costs.

Difficult Situation Faced.

April 1, 1921, the Washington administration was faced with a most discouraging financial situation.

Huge Deficit Apparent.

To meet this there was estimated indirect revenue of \$3,405,110 and direct revenue from taxation of \$2,887,726, a total of \$6,292,836.
