**The Long Skirt Has Passed**

**LATEST FASHION NEWS**

Paris has yielded to New York. Though Paris insisted upon the longer skirts, draping lines and longer waist line, New York resisted and in no uncertain tones decided the fashion for American women was best represented in the shorter skirt, no longer than seven inches at most from the ground, with the waist line moving upward.

The straight-line silhouette must also be restored. New York has had her way, so Portland will also.
